Economic Development And Nation Building In Ethiopia:

Economic Development and Nation Building in Ethiopia Daniel Teferra, 2005-04-13 Ethiopia is an ancient country with rich potential but it has not yet resolved the fundamental question of economic development and nation building. The Ethiopian population lives under the threat of recurring famine and war. The conflict that existed between Ethiopia and Eritrea for several decades was never resolved peacefully and a new conflict has recently emerged on top of the old. Economic Development and Nation Building in Ethiopia gives valuable insight into these problems. The book first checks the major views of development with the Ethiopian experience and examines the impact of the IMF program and the Post Cold War globalization on the Ethiopian development. Showing the historical disparities in development between Ethiopia and the now industrialized societies of the world, the book examines the possibilities for Ethiopian economic development and nation building. Author Daniel Teferra investigates the incentives for a shared market and broader democracy between Ethiopia and Eritrea by taking a closer, more focused look at the two societies.

Modernization, Nation-Building, and Television History Stewart Anderson, Melissa Chakars, 2014-11-20 This innovative collection investigates the ways in which television programs around the world have highlighted modernization and encouraged nation building. It is an attempt to catalogue and better understand the contours of this phenomenon which took place as television developed and expanded in different parts of the world between the 1950s and the 1990s. From popular science and adult education shows to news magazines and television plays, few themes so thoroughly penetrated the small screen for so many years as modernization with television producers and state authorities using television programs to bolster modernization efforts. Contributors analyze the hallmarks of these media efforts: nation building, consumerism and consumer culture, the education and integration of citizens, and the glorification of the nation's technological achievements.

Multidisciplinary Issues Surrounding African Diasporas Onyebadi, Uche T., 2019-10-04 Members of diasporic populations often have a unique dual persona consisting of one's migrant role as a permanent or transient member of a new country and one's role as a citizen of one's home country. Like all diaspora, the African diaspora is further composed of sub groups of people of a variety of backgrounds and disciplines such that there is a need for studies that properly encompass and address the African diaspora across a multitude of fields and pedagogies including architecture, education, and business. Multidisciplinary Issues Surrounding African Diasporas is a pivotal reference source that explores the philosophical and epistemological issues regarding the African diaspora identity and navigates these individuals' opportunities for professional and academic growth. Featuring coverage on a wide range of topics such as higher education, cultural engagement, and xenophobia, this publication is ideally designed for sociologists, anthropologists, humanities scholars, political scientists, cultural studies academicians, university board members, researchers, and students.
