Economic Bulletin For Europe V49:

Germany, Europe and the Persistence of Nations Stephen Wood, 2018-12-20 Published in 1998 this book is an articulate and densely documented account of political cultural and historical forces and tensions involved in contemporary European integration most especially concerning Germany In doing so it provides an effective fusion of a vast array of material from what are normally separate disciplines The book investigates contemporary resonances of identifications and conceptions of political boundaries that appeared in Europe in the late eighteenth and nineteenth century It argues that within a supranationalising Europe national identity and nationalism have not disappeared as cultural and political phenomena Rather they persist and manifest themselves in variable forms at popular and elite levels This is the basis for Europe's condition of far from completed unity at the centre of which is now a reunited Germany more sure of itself but less sure of the world around it

signatories was determined based on French colonial interests Indochinese yearning for independence and the need for French contribution in the North Atlantic Treaty Organization Similarly German reparations settlements after the First and Second World Wars impacted Japanese reparations settlement Meanwhile the commercial terms of the treaty were informed by the Great Depression and its legacies This book addresses these aspects of the peace treaty that are hitherto not sufficiently elaborated upon in existing studies Highlighting the importance of the treaty for shaping postwar East Asia and international relations in the region to the present day this book will be a valuable resource for students and scholars of post war Japan International relations and the Cold War Library Service Detroit Public Library,1917 Volumes 4 14 include 55th 65th Annual report of the Detroit library commission 1919 20 1929 30 Economic Bulletin for Europe UN.
