Government Budgeting and Financial Management in Practice Gerald J. Miller, 2017-09-25 The right turn in U S politics has increased conflict over both ends and means in government budgeting and financial management Overlapping and competing views of the way the world works drive finance officials practice Taking a new look at public financial management that acknowledges the multiple competing realities *Government Budgeting and Financial Management in Practice* Logics to Make Sense of Ambiguity examines transaction cost economics and other small government managed by the market techniques as the latest reincarnation of public budgeting and financial management orthodoxy Gerald J Miller reviews new research on the continuing validity of the political dimension of government finance decisions and the multiple intensely argued constructions of reality the finance official must make sense of Miller discusses major advances in interpretive approaches to budgeting and finance and how they dominate writing in the broader field of public administration He also examines the effects of the

explosion of information systems new budget techniques nonconventional ways of spending and new technologies The book uses a question as the motivating force to understand some facets of today's government budgeting finance and financial management where do the critical assumptions come from to drive financial management Miller takes the history of reform developments in the field and the logics finance officials say they use as sources for these assumptions and examines what they reveal about constructions of the government finance world Exploring new avenues of financial management thinking the book discusses ambiguity and interpretations that move the unclear preferences ends and goals toward consensus The author identifies an alternative approach to research that explains important facets of financial management This approach is drawn directly from practice events and problems in public organizations and from the creedal bent of many political actors in competition

Financial Crises, Macroeconomic Shocks, and the Government Balance Sheet: A Panel Analysis Matteo

Ruzzante,2018-04-24 Government financial assets are increasingly recognized as playing an important role in assessing fiscal sustainability However very little research has been done on the dynamics of government financial assets compared to liabilities In this paper we investigate the impact of recent financial crises and macroeconomic shocks on government balance sheets decomposing the separate effects on financial assets and liabilities Using quarterly Government Finance Statistics GFS data we analyze a panel of 27 countries over the period 1999Q1 2017Q1 through fixed effects and panel VAR techniques Financial crises are shown to deteriorate the net financial worth of governments but no significant impact is found on assets suggesting that they are not being used as fiscal buffers in bad times On the contrary countries that suffered both financial and banking crises experienced an artificial increase of their asset position through bank bailouts
