Birch, Committee for Economic Development, 1970 **The economic Future of city and suburb** David L. Birch, 1972 *The Central City Problem and Urban Renewal Policy, a Study Prepared ... for the Subcommittee on Housing and Urban....* United States. Congress. Senate. Committee on Banking, Housing, and Urban Affairs, 1973 **The Dynamics of Neighborhood Change** James Mitchell, Real Estate Research Corporation. Public Affairs Counseling, 1975 This document has evolved over three years to meet the need for a more comprehensive understanding of how neighborhoods change The Office of Policy Development and Research at HUD formulated policy alternatives to stem the rising tide of abandoned residential buildings It showed abandonment as the last stage of a process not a random or isolated phenomenon The failure of programs to counteract and halt the decline of neighborhoods has stemmed mainly from an imperfect understanding of this process There have also been political problems with acting in neighborhoods before the symptoms were painfully evident and from the tendency of program developers to deal with the house rather than the people who own it rent it loan on it or insure it Few programs have recognized that those people were part of a total neighborhood rather than occupants of individual buildings The process of neighborhood change is triggered and fueled by individual collective and institutional decisions These are made by a myriad of people households bankers real estate brokers investors speculators public service providers police fire schools sanitation etc and others It is a reasonable conclusion that if a concentrated effort is made to affect these decisions then neighborhood decline can be slowed halted or in some circumstances reversed **Analysis of Neighborhood Decline in Urban Areas** George Sternlieb, James W. When America Became Suburban Robert A. Beauregard,2006-08-25 In the decades after World War II the United States became the most prosperous nation in the world and a superpower whose dominance was symbolized by the American suburbs Spurred by the decline of its industrial cities and by mass suburbanization people imagined a new national identity one that emphasized consumerism social mobility and a suburban lifestyle The urbanity of the city was lost In *When America Became Suburban* Robert A Beauregard examines this historic intersection of urban decline mass suburbanization domestic prosperity and U S global aspirations as it unfolded from 1945 to the mid 1970s Suburban expansion and the subsequent emergence of sprawling Sunbelt cities transformed every aspect of American society Assessing the global implications of America s suburban way of life as evidence of the superiority of capitalist democracy Beauregard traces how the suburban ideology enabled America to distinguish itself from both the Communist bloc and Western Europe thereby deepening its claim of exceptionalism on the world historical stage Placing the decline of America s industrial cities and the rise of vast suburban housing and retail spaces into a cultural political and global context Beauregard illuminates how these phenomena contributed to a changing notion of America s identity at home and abroad *When America Became Suburban* brings to light the profound implications of de urbanization from the siphoning of investments from the cities and the effect on the quality of life for those left behind to a profound shift in national identity Robert A Beauregard is a professor in the Graduate School of Architecture Planning and Preservation at Columbia University He is the author of *Voices of Decline The Postwar Fate of U S Cities* and editor of *Economic Restructuring and Political Response and Atop the Urban Hierarchy* **Remaking**

Keeping the Faith Abel A. Bartley, 2000-04-30 An examination of the political and economic power of a large African American community in a segregated southern city this study attacks the myth that blacks were passive victims of the southern Jim Crow system and reveals instead that in Jacksonville Florida blacks used political and economic pressure to improve their situation and force politicians to make moderate adjustments in the Jim Crow system Bartley tells the compelling story of how African Americans first gained then lost then regained political representation in Jacksonville Between the end of the Civil War and the consolidation of city and county government in 1967 the political struggle was buffeted by the ongoing effort to build an economically viable African American economy in the virulently racist South It was the institutional complexity of the African American community that ultimately made the protest efforts viable Black leaders relied on the institutions created during Reconstruction to buttress their social agitation Black churches schools fraternal organizations and businesses underpinned the civil rights activities of community leaders by supplying the people and the evidence of abuse that inflamed the passions of ordinary people The sixty year struggle to break down the door blocking political power serves as an intriguing backdrop to community development efforts Jacksonville s African American community never accepted their second class status From the beginning of their subjugation they fought to remedy the situation by continuing to vote and run for offices while they developed their economic and social institutions
