Economic Dynamics in Transitional Economies Bruno Sergi, 2020-07-24 Learn more about the transitional economies of Central and Eastern Europe This book examines the economic dynamics of Central and Eastern European post Communist countries It illuminates the paths these countries are taking toward restructuring their markets increasing international trade and bettering their connections with the European Union and other countries Beginning with a comparative analysis of the three P governments Pigouvian Partizan and Paternalistic and continuing with a discussion of the interrelated political and economic difficulties of transition author Bruno Sergi proposes a surprising solution Inspired by the Bruxelles consensus he proposes that the European Commission should become a fourth P government replacing the role formerly played by the Washington consensus in the restructuring of post Communist economies Economic Dynamics in Transitional Economies also explores regional comparative macroeconomics the aftereffects of the Washington Consensus integration of Eastern and Western European economies interrelations between national and regional monetary activity political and economic policy reform involvement of European Union member countries We are living in historic times and Economic Dynamics in Transitional Economies will be a welcome guide to the rough roads ahead This thorough assessment of current political and economic realities will stimulate debate about new European paradigms the role of the European Union and the difficulties of post Communist transition These issues promise to be vital to the region's success in the new century

Agrarian Reform in Russia Carol S. Leonard, 2010-12-06 This book examines the history of reforms and major state interventions affecting Russian agriculture the abolition of serfdom in 1861 the Stolypin reforms the NEP the Collectivization Khrushchev reforms and finally farm enterprise privatization in the early 1990s It shows a pattern emerging from a political imperative in imperial Soviet and post Soviet regimes and it describes how these reforms were justified in the name of the national interest during severe crises rapid inflation military defeat mass strikes rural unrest and or political turmoil It looks at the consequences of adversity in the economic environment for rural behavior after reform and at long run trends It has chapters on property rights rural organization and technological change It provides a new database for measuring agricultural productivity from 1861 to 1913 and updates these estimates to the present This book is a study of the policies aimed at reorganizing rural production and their effectiveness in transforming institutions

**Management in Transitional Economies** Malcolm Warner, 2005 This is a comparative study examining the past present and future of management in the transitional economies of East and Central Europe Russia the People's Republic of China and Vietnam

Economics of Transition Mark Knell, 1996 Bringing together different perspectives on structural adjustments and the prospect for sustainable economic growth in Eastern Europe Economics of Transition represents a shift in scholarly emphasis away from issues of stabilization and liberalization in favour of longer term considerations This major volume features a distinguished collection of papers focusing on the theoretical and policy implications of transition and change in Eastern Europe Drawing on work from a wide range of

traditions the papers in this volume examine issues including how effective demand induces growth how diffusion takes place how economic policy influences incentives motivations and behaviours how institutions influence organization and technological capability building and how institutions both constrain and guide economic policy     The Political Economy of Reform Failure Mats Lundahl, 2007-04-11 Economists have moved in recent years beyond analyzing the manner in which the macroeconomies of different countries function and prescribing appropriate policies for dealing with domestic and external imbalances Increasingly they have sought to understand the complex interaction between political and economic phenomena This book considers issues of economic reform in a broad range of settings developed countries transition countries developing countries Using country specific cases such as Uzbekistan Burma and Haiti it focuses on those territories which have encountered problems reforming allowing the reader to gain an accurate understanding of the factors that inhibit the success of economic reform the different context in which economic reform is attempted and the different challenges that individual countries face An international team of contributors including Bo S dersten Deepak Lal and Ron Findlay have been brought together to analyze these topical issues making this an informative and thought provoking book of interest to those involved in the field of development studies     Economics of the European Union Michael Artis, Frederick Nixson, 2007-05-17 The new edition of this successful text analyses the current economic issues facing a rapidly changing Europe The authors combine policy history and data to present a global perspective of the EU written with a range of students taking an introductory module in European Economics in mind With new material on the economic relationship between the EU and the US Enlargement and the Lisbon process the authors consider the changing landscape and Europe s development as a major global player The authors use history theory and analysis including comparative data to evaluate Economic policies ranging from the Common Agricultural Policy and Competition Policy to Social Policy and Monetary Policy and to assess issues such as unemployment and foreign aid The contributors are drawn from a range of Universities such as Vienna Manchester Brussels LSE and Purdue as well as institutions such as the IMF and the European Central Bank     *Stabilization and Structural Adjustment in Poland* Henryk Kierzkowski, Marek Okólski, Stanislaw H. Wellisz, 2013-04-15 The Solidarity led government which came into power in Poland in Autumn 1989 faced two enormous tasks First to stabilize an economy prone to hyperflation Second to replace a crumbling command system in favour of a market mechanism in a country whose market institutions had been destroyed under forty years of communist rule This book recounts the events of this period and the course taken by the new government and analyzes the significance of this for the transition process in Poland and elsewhere

**The European Central Bank and the European Macroeconomic Constitution** Klaus Tuori, 2022-09-22 The book is about money central banking and constitutions It explains how the European Central Bank was established to ensure stability and prosperity for the euro area The ECB was guided and controlled by a coherent European Macroeconomic Constitution However this model has failed during recurring crises and the ECB has started to act as the euro area fire brigade

Consequently it is pushing the boundaries of monetary policy and with that challenging the accountability mechanisms and fundamentally also the democratic legitimacy of the EMU The book sheds light on this complex economic constitutional setting with a view on the future The imbalance between various new operations and a single price stability objective is difficult to remedy New objectives of financial stability economic adjustment and environmental sustainability can cause fundamental ruptures between the ECB's formal role and its actions and they also dangerously overburden monetary policy moving forward with substantial risks **Business America**, 1991 Lessons in Economic Policy for Eastern Europe from Latin America Gary McMahon, 2016-07-27 In the 1980s a large number of Latin American countries undertook stabilization and structural adjustment programmes similar though smaller in magnitude to the ones that Eastern Europe is now undergoing In this book economists from four different Eastern European countries analyze the relevance of the Latin American experience for their own countries in the areas of fiscal policy privatization monetary policy and the external sector The book also contains two chapters with the perspective of Latin Americans as well as a synthesis of the entire volume

**Economic Adjustment and Reform in Eastern Europe and the Soviet Union** Franklyn D. Holzman, 1988 Economic reform structural adjustment macroeconomic stabilization and participation in the world economy are interconnected aspects of the same issue the long term economic viability of centrally planned economies in the rapidly changing economic environment of the modern world Any economic strategy that focuses on only one or two of these aspects at the expense of the others is likely to fail yet even strategies that build on all of these bases may well fail unless political leaders can muster exceptional skill garner international support and enjoy some good luck The contributions to this volume reflect the recent research on this issue by various specialists on the economies of the Soviet Union and Eastern Europe Each author emphasizes macroeconomic stabilization structural adjustment participation in the larger world economy or economic reform

*Economic Adjustment in New Democracies* D. Ethier, 1997-05-29 The politics of economic adjustment in new democracies has received a lot of attention However none of the most recent examinations provide a thorough comparative analysis of Southern Europe Ethier's book fills this gap The book challenges many existing preconceptions about Southern Europe while confirming and complementing the main assertions of comparable studies on Eastern Europe Latin America Asia and Africa

**Adjustment, Structural Change, and Economic Efficiency** Jozef M. van Brabant, 1987-12-25 This 1988 book examines the indirect instruments and the related institutions that help to coordinate key economic decisions within and among the economies belonging to the Council for Mutual Economic Assistance CMEA The chief purpose is two fold to assess their adequacy in light of the forced economic adjustments of the early 1980s and to formulate feasible changes for both in order to avert a recurrence of such developmental obstacles Jozef van Brabant argues that these instruments and institutions are inadequate He proposes that a resumption of rapid growth depends largely upon bolstering factor productivity growth which can only be achieved through positive structural changes and a root and branch reform of the individual and

groupwide economic mechanisms      Economic Reform and Structural Adjustment in East European Industry Mr. Eduardo Borensztein, Mr. Jonathan David Ostry, 1994-06-01 A consistent set of disaggregated industrial output data for four Eastern European countries is examined In order to determine the extent to which structural adjustment has taken place since the initiation of market oriented reform The latter created a massive relative price shock whose effects on the structure of the industrial sectors of these economies is shown to have been relatively small at least one to two years after the reforms An implication is that one argument in favor of more gradualist reform based on the premise that more gradualism implies a smaller output cost in the short run is questionable By and large in these economies the output cost associated with the removal of relative price distortions may still have to be faced      *How Far Is Eastern Europe from Brussels?* Mr. Stanley Fischer, Ms. Ratna Sahay, Mr. Carlos A. Végh Gramont, 1998-04-01 The current destination of Central and Eastern European countries explicitly for some implicitly for all is Brussels The concept of the distance from Brussels is multi dimensional One simple measure not without theoretical and empirical justification is physical distance This paper's focus however lies more in the distances in time and economic space The paper first compares income gaps between Central and Eastern European and European Union EU countries then evaluates recent economic performance in Central and Eastern Europe in light of EU standards Finally addresses the question of how long it will take the Central and Eastern European countries to close the income gap with EU countries      *European Economic Integration as a Challenge to Industry and Government* Richard Tilly, Paul J.J. Welfens, 2013-12-14 explicit presentation of some of those stylized facts in the form of a brief chronologically structured narrative In keeping with the broad scope of this volume we begin by going back at least two hundred years to the growth of an integrated national capital market in England in the 18th century see Neal Chapter This starting point has the advantage of calling attention to a number of important points First the form of integration by which a central market London for a standardized good government bonds or consols came to serve as linkage between two or more hitherto separate regional markets represents a typical and important form of financial and economic integration In Kindleberger's terminology it is the integration via third parties form where say security prices in A and B converge to a common price C instead of A and B In the 18th century English context this central market provided a widely available index of the opportunity costs of alternative investments the importance of which should not be underestimated for it contributed to national economic integration in England NEAL 1994 Second this example illustrates an important point of political economy The prerequisite for the development of the central market mentioned was the establishment of sound public finances based on the state's widely accepted power to tax      International Agricultural Development Carl K. Eicher, John M. Staatz, 1998-11-20 Other topics include market failures food insecurity rural poverty environmental degradation income and asset inequality fiscally sustainable organizations the changing roles of the public and private sector in research input delivery systems marketing and low rates of agricultural growth in much of sub Saharan Africa      Romania's Economic Competitiveness and EU Trade

Integration Manuela Unguru,1999      **The Middle East in Global Change** Laura Guazzone,2016-07-27 What are the prospects of the Middle East region moving from a warfare to a welfare A group of leading scholars of the Middle East and North Africa political scientists economists sociologists strategic analysts and historians adopt a common political economy approach to answer this much debated question      Economic Crisis and Structural Reforms in Southern Europe Paolo Manasse,Dimitris Katsikas,2017-12-12 In recent years the countries of southern Europe have undergone with varying intensity a serious and prolonged economic crisis Most have had to implement comprehensive economic adjustment programmes including a wide range of structural reforms Economic Crisis and Structural Reforms in Southern Europe examines these reforms drawing policy lessons from their successes and failures This book employs two basic strands of analysis issues of policy design and political economy considerations It considers the choice of timing and sequencing of reforms the choice of the appropriate policy instruments the pressure of interest groups and the political calculations involved in reforms Featuring chapters in which contributors explore both national cases of specific structural reforms and a comparative approach in order to evaluate similar reforms across countries this important and topical work explores ongoing issues within the economy Focusing on the challenges of designing and implementing structural reforms under conditions of crisis this book will be of interest to policy makers and researchers from national and international organizations as well as academics and members of research institutes interested in the economics and politics of the Eurozone crisis
