Economics Of Disappearing Distance:

The Economics of Disappearing Distance Börje Johansson, 2019-09-18 This title was first published in 2003 This book focuses on the role of tangible and intangible networks that affect spatial interdependencies in economic and social life It addresses the question is the effect of distance disappearing In examining this question the book considers the types of interaction that bring about globalisation of markets as well as social life in general and the distortion of distance patterns and changes in spatial interdependencies The contributions elaborate theory and methods by examining hierarchical fields of internal and external influence on regional change sources of productivity growth in a network of industries endogenous growth and development policies The book concludes with an assessment of plan evaluation methodologies for a changing and globalizing world characterized by new economic networks and networking arrangements

The Economics of Disappearing Distance Åke E. Andersson, William Peter Anderson, Börje Johansson, 2003 This book focuses on the role of tangible and intangible networks that affect spatial interdependencies in economic and social life Interaction across geographical networks in urban regions and between regions Some of these new networks embed new technologies for communication economic decisions and governance in such a way that the role of distance may be reduced For certain types of interaction these changes seem to bring about a globalization of markets as well as social life in general Hence the question is distance disappearing Moreover can we observe new forms of the distance phenomenon Is distance becoming more important in the exchange of knowledge and ideas

Handbook of Research on Cluster Theory Charlie Karlsson, 2010-01-01 Karlsson has assembled a strong mix of papers that collectively provide a good sense of some of the latest research in the field Edward Feser Review of Regional Studies This is a book every regional scientist and spatial analyst should have on their bookshelf Like most Handbook type publications it provides depth and breadth on the basics of the industrial clustering concept However unlike most of these type of collections it goes beyond the foundation material to identify and speculate on questions that are emerging on the research frontiers such as at the intersection of cluster theory and agglomeration processes knowledge spillovers and technology transfer not to mention the obvious link to economic development theory policy and practice Roger R Stough George Mason University US This eclectic volume presents a host of methods to describe tendencies for the joint location of economic agents in space And it illustrates useful applications of these concepts in diverse fields financial services culture tourism and industry to name just a few John M Quigley University of California US Clusters have increasingly dominated local and regional development policies in recent decades and the growing intellectual and political interest for clusters and clustering is the prime motivation for this Handbook Charlie Karlsson unites leading experts to present a thorough overview of economic cluster research Topics explored include agglomeration and cluster theory methods for analysing clusters clustering in different spatial contexts and clustering in service industries Encompassing the developed economies of Europe and North America the Handbook provides a basis for

improving cluster policy formulation interpretation and analyses This comprehensive overview of research on economic clusters will be of interest to scholars and PhD students in regional economics economic geography regional planning and management as well as practitioners and policymakers at the national regional and local levels involved in cluster formation and cluster management

Handbook of Creative Cities D. E. Andersson, E. Andersson, Charlotta Mellander, 2011-01-01 With the publication of *The Rise of the Creative Class* by Richard Florida in 2002 the creative city became the new hot topic among urban policymakers planners and economists Florida has developed one of three path breaking theories about the relationship between creative individuals and urban environments The economist ke E Andersson and the psychologist Dean Simonton are the other members of this creative troika In the *Handbook of Creative Cities* Florida Andersson and Simonton appear in the same volume for the first time The expert contributors in this timely *Handbook* extend their insights with a varied set of theoretical and empirical tools The diversity of the contributions reflect the multidisciplinary nature of creative city theorizing which encompasses urban economics economic geography social psychology urban sociology and urban planning The stated policy implications are equally diverse ranging from libertarian to social democratic visions of our shared creative and urban future Being truly international in its scope this major *Handbook* will be particularly useful for policy makers that are involved in urban development academics in urban economics economic geography urban sociology social psychology and urban planning as well as graduate and advanced undergraduate students across the social sciences and in business

Economic Growth with Income and Wealth Distribution W. Zhang, 2006-06-28 The book deals with economic issues related to income and wealth among individuals regions and countries It presents a general theory with endogenous capital knowledge and preference changes for an economic system with heterogeneous households multiple sectors multiple regions and multiple countries

Handbook of Research Methods and Applications in Spatially Integrated Social Science Robert Stimson, 2014-07-31 The chapters in this book provide coverage of the theoretical underpinnings and methodologies that typify research using a Spatially Integrated Social Science SISS approach This insightful *Handbook* is intended chiefly as a primer for students and bu

Handbook of Social Capital and Regional Development Hans Westlund, Johan P. Larsson, 2016-12-30 The role of social capital in regional development is a multifaceted topic which is studied all over the world using various methods and across numerous disciplines It has long been evident that social capital is important for regional development however it is less clear how this works in practice Do all types of social capital have the same effects and are different kinds of regions impacted in the same way This book is the first to offer an overview of this rapidly expanding field of research and to thoroughly analyse the complex issue of social capital and regional development

New Directions in Regional Economic Development Charlie Karlsson, Ake E. Andersson, Paul C. Cheshire, Roger R. Stough, 2009-07-28 This book examines emerging hypotheses new methods and theoretic developments in regional economic development It offers a diverse set of case studies ranging from a focus on

Europe Central and East Asia and North America **International Trade Theory** Wei-Bin Zhang, 2008-04-23 The development of international trade theory has created a wide array of different theories concepts and results Nevertheless trade theory has been split between partial and conflicting representations of international economic interactions Diverse trade models have co existed but not in a structured relationship with each other Economic students are introduced to international economic interactions with severally incompatible theories in the same course In order to overcome incoherence among multiple theories we need a general theoretical framework in a unified manner to draw together all of the disparate branches of trade theory into a single ganized system of knowledge This book provides a powerful but easy to operate engine of analysis that sheds light not only on trade theory per se but on many other dim sions that interact with trade including inequality saving propensities education research policy and knowledge Building and analyzing various tractable and flexible models within a compact whole the book helps the reader to visualize economic life as an endless succession of physical ca tal accumulation human capital accumulation innovation wrought by competition monopoly and government intervention The book starts with the traditional static trade theories Then it develops dynamic models with capital and knowledge under perfect competition and or monopolistic competition The uniqueness of the book is about modeling trade dyn ics **Air Transport and Regional Development Methodologies** Anne Graham, Nicole Adler, Ofelia

Betancor, Volodymyr Bilotkach, Enrique J. Calderón, Gianmaria Martini, Hans Martin Niemeier, António Pais Antunes, 2020-12-27 Air Transport and Regional Development Methodologies is one of three interconnected books related to a four year European Cooperation in Science and Technology COST Action established in 2015 The action called Air Transport and Regional Development ATARD aimed to promote a better understanding of how the air transport related problems of core regions and remote regions should be addressed to enhance both economic competitiveness and social cohesion in Europe This book discusses key methodological approaches to assessing air transport and regional development outlining their respective strengths and weaknesses These include input output analysis cost benefit analysis computable general equilibrium models data envelopment analysis stochastic frontier analysis discrete choice models and game theory Air Transport and Regional Development Methodologies aims at becoming a major reference source on the topic drawing from experienced researchers in the field covering the diverse experience and knowledge of the members of the COST Action The book will be of interest to several large groups First it will serve as an authoritative and comprehensive reference for academics researchers and consultants Second it will advise policy makers and government organizations at European national and regional levels Third it presents invaluable insights to transport companies such as airports and airline operators Along with the other two books Air Transport and Regional Development Policies and Air Transport and Regional Development Case Studies it fills a much needed gap in the literature **Contributions to Economic Geology, 1903** Geological Survey (U.S.), 1904 *An Economic History of Russia: The rise and fall of bondage right* James Mavor, 1914
