*Lecture Notes on Resource and Environmental Economics* Anthony C. Fisher, 2020-06-26 This book based on lectures on natural and environmental resource economics offers a nontechnical exposition of the modern theory of sustainability in the presence of resource scarcity It applies an alternative take on environmental economics focusing on the economics of the natural environment including development computation and potential empirical importance of the concept of option value as opposed to the standard treatment of the economics of pollution control The approach throughout is primarily conceptual and theoretical though empirical estimation and results are sometimes noted Mathematics ranging from elementary calculus to more formal dynamic optimization is used especially in the early chapters on the optimal management of exhaustible and renewable resources but results are always given an economic interpretation Diagrams and numerical examples are also used extensively The first chapter introduces the classical economists as the first resource economists in their discussion of the implications of a limited natural resource base agricultural land for the evolution of the wider economy A later chapter returns to the same concerns along with others stimulated by the energy and environmental crises of the 1970s and beyond One section considers alternative measures of resource scarcity and empirical findings on their behavior over time Another introduces the modern concept of sustainability with an intuitive development of the analytics A chapter on the dynamics of environmental management motivates the concept of option value shows how to compute it then demonstrates its importance in an illustrative empirical example The closing chapter on climate change first projects future changes and potential catastrophic impacts then discusses the policy relevance of both option value and discounting for the very long run This book is intended for resource and environmental economists and can be read by interested graduate and advanced undergraduate students in the field as well
