# Ecstasys Dream

**Thomas R. Bierowski**

## Ecstasys Dream:

**On hallucinations ; a history and explanation of apparitions, visions, dreams, ecstasy, magnetism, and somnambulism** Alexandre Jacques François Brierre de Boismont,1860      **Hallucinations, or, The rational history of apparitions, visions, dreams, ecstasy, magnetism, and somnambulism** Alexandre Jacques François Brierre de Boismont,1853      **A History of Dreams, Visions, Apparitions, Ecstasy, Magnetism, and Somnambulism** Alexandre-Jacques-François Brierre de Boismont,1855      Ecstasy Michael Eigen,2001-11-15 Ecstasy is a force to be reckoned with sometimes creative sometimes destructive Eigen argues that there is an ecstasy that comes through the ever necessary confrontation of our psychic cores with suffering and degradation and he shows that when we can learn to be present with these feelings they add to the tone and texture of our lives and help us to feel real Page 4 of cover      *Kerouac in Ecstasy* Thomas R. Bierowski,2014-01-10 This critical text considers Jack Kerouac as writer shaman exploring the content and ecstatic technique of the novels and two experimental volumes that represent critical phases of his development Thomas Bierowski also examines the reception of Kerouac s work arguing that his rise and fall reflect not only the usual changes in literary taste but the precarious position of the shamanic figure in modern America      Transition, Infinity, and Ecstasy Suresh Hariramsait,2016-01-15 Though modern astronomers and astro phycisists like Stephen Hawking have their doubts about interstellar travel there are countless references to inter dimesional travel in mostly ancient Indian texts The Kandha Puranam nearly 17 million years ago mentions that the Asura Titan King Sooran ruled over 1008 universes and had vimanas or flying crafts that could in an instant travel all over space cutting across dimensions at tremendous speed that could hover in mid air over water disappear and re appear all of a sudden and had a host of stealth weapons even nuclear winter is mentioned for it is said that the entire world was enveloped in darkness caused by Sooran during the war Lord Muruga possessed the Peacock Craft that could circumvent the 14 worlds and fly beyond in a micro second and his missile with the lengthy flame nedunchudar Vel was voice activated and re useable and was so powerful that it blew up into smitherns the Kraunja mountain which even our modern day nuclear weapons cannot do according to scientists The Ramayana 1 7 million years ago mentions that Emperor Ravana s Pushpaka vimana which he captured from Kubera the Lord of riches in heaven could host as many passengers as it takes there were stun weapons and stealth technology In the Mahabharata war 3500 b c nuclear weapons like the brahmastra were used and there is mention of numerous flying crafts of the Lords Angels of Asuras Titans and Rakshasas Demons who all travelled to and fro from the upper and lower worlds The Sri Linga Purana mentions that Lord Brahma s Swan Craft flew and transcended the seven upper worlds while Lord Vishnu s Boar Craft tunnelled though the seven lower worlds and went even beyond Baathala the lowest plane which all reminds us of blackholes being portals and shortcuts to parallell universes which is being theoretically proved today More than 2500 years ago the Japanese Royal Family s ancestors met with the Sun God who landed on Mount Fuji and were presented with a sword and an orb which

are still in the Imperial Palace in Japan The native Indian s forefathers living on sun Island on lake Titicaca in South America were visited by the Sun God The Dogon tribes of Mali have a tradition that their forefathers had sailed on a great ship that flew down from Sirius the star but what is interesting is that they don spacesuit like gear and celebrate their home coming once every fifty two years which is when sirius comes in direct alignment with our world      Meditation: The Art of Ecstasy Osho,2023-02-28 Concentration is a choice It excludes all except its object of concentration it is a narrowing If you are walking on the street you will have to narrow your consciousness in order to walk You cannot ordinarily be aware of all that is happening because if you are aware of everything that is happening you will become unfocused So concentration is a need Concentration of the mind is a need in order to live to survive and exist That is why every culture in its own way tries to narrow the mind of the child      *The Literature of Ecstasy* Albert Mordell,1921      Negative Ecstasies Jeremy Biles,Kent L. Brintnall,2015-08-03 Despite Georges Bataille s acknowledged influence on major poststructuralist thinkers including Foucault Derrida Kristeva Lacan Baudrillard and Barthes and his prominence in literary cultural and social theory rarely has he been taken up by scholars of religion even as issues of the sacred were central to his thinking Bringing together established scholars and emerging voices Negative Ecstasies engages Bataille from the perspective of religious studies and theology forging links with feminist and queer theory economics secularism psychoanalysis fat studies and ethics As these essays demonstrate Bataille s work bears significance to contemporary questions in the academy and vital issues in the world We continue to ignore him at our peril      Death, Ecstasy, and Other Worldly Journeys John J. Collins,1995-01-01 This is a psychological and historical exploration of belief in a spirit world imperceptible to the senses as a pervasive and deeply rooted characteristic of religion      **Ordinary Ecstasy** John Rowan,2015-12-22 Humanistic Psychology ranges far and wide into education management gender issues and many other fields Ordinary Ecstasy first published in 1976 is widely regarded as one of the most important books on the subject Although this new edition still contains much of the original material it has been completely rethought in the light of postmodern ideas with more emphasis on the paradoxes within humanistic psychology and takes into account changes in many different areas with a greatly extended bibliography Ordinary Ecstasy is written not only for students and professionals involved in humanistic psychology anyone who works with people in any way will find it valuable and interesting      **Education and Ecstasy** George Leonard,1987 Education and Ecstasy was originally written as a call for reform in America s school systems Published in the 60s and then revised in the 80s this book reveals the deep rooted structural problems in American schools problems which still plague the system Education Teaching      *Jacob Boehme and the Spiritual Roots of Psychotherapy* Glenn J. McCullough,2025-04-14 Jacob Boehme 1574 1624 was a wildly creative mystical writer whose extraordinary revelations of God the soul and the universe have been consigned to obscurity In this original book Glenn J McCullough argues that Boehme is the ultimate source of a key modern movement psychotherapy Bringing clarity to Boehme s revelations McCullough shows how he anticipates the pioneering concepts of

Sigmund Freud and C G Jung including their ideas of the unconscious mind and its remarkable potentials At the centre of Boehme s thought is the figure of Sophia divine Wisdom and her seven drives which guide the soul on a journey of expanded awareness and rebirth While Boehme has been dismissed as an esoteric outsider McCullough situates him in the mainstream Western tradition of Augustine and Luther while highlighting his unique approach to the ecstatic dream world of Wisdom

*Chassidic Ecstasy in Music* Shmuel Barzilai,2009 Music is of paramount importance in Judaism On the verse Harken unto the song and the prayer which Your servant prays before You this day I Kings 8 28 the Gemarrah states that wherever there is song there shall be prayer and indeed in the Temple song was an inseparable element of the sacrificial services thereafter finding its position in the prayers and the Torah reading with its special melody in the synagogue Chassidism employed music as one of its main avenues for serving G d Music served to bring the individual to a state of awakening and joy nullifying sadness which was seen as an element that could only lead to negativity Joy allowed one to reach ever higher levels in the service of G d leaving one s sorrows behind as explained by the founder of the Modzits Chassidic court Rabbi Yehezkel of Kozmir when interpreting the verse with joy you shall go forth Isaiah 55 to mean that through joy we shall go forth from all our difficulties In this book Shmuel Barzilai takes the reader on a brief and concise tour of the Chassidic courts and their world of music It explains the wordless melody Niggun which is perhaps even more important than songs having words the importance of dance the place of honor given to Shabbat songs and the role of music in Kabbalah The book provides an overview of the activities of Rabbis who composed and sang at every opportunity whether in the synagogue or while conducting the traditional Tisch where Chassidic adherents gathered each Shabbat and Festival to hear their Rebbe explain sections of Torah sing and interpret sayings on music Barzilai also discusses melodies niggunim that became particularly famous or derived from non Jewish sources but underwent a process that allowed them to be adopted by the Admorim leaders and integrated into the Chassidic court s repertoire

**Ecstasy, Ritual, and Alternate Reality** Felicitas D. Goodman,1988-12-22 A cross disciplinary exploration of comparative religion that offers a unified field theory of religion as human behavior In this book anthropologist and spiritual explorer Felicitas Goodman examines ritual the religious trance alternate reality ethics and moral code and the named category designating religion The analysis is divided into two sections The first reviews species wide human traits that form the basis for religious behavior Goodman in speculative examination traces the origins of religion to the dawn of human history when religious ritual was accompanied by gesture rather than full fledged modern speech Ritual is seen as being the expression of the vastness of the drama of human life death birth and procreation The common neurophysiological basis for religious experience is seen to be a particular type of brain tuning the religious altered state of consciousness a trance facilitating contact with an alternate reality The content of this other reality is shown to vary according to the type of adaptation to the habitat The second section describes the religious systems of the world dividing them according to societal type A systematic comparison shows that religions vary according to whether
