Access and Neo-Liberal Media Regimes Brian Caterino, 2020-04-28 This book examines the reasons behind the declining fortunes of public access channels Public access which provided perhaps the boldest experiment in popular media democracy is in steep decline While some have argued it is technologically outmoded Caterino argues that the real reason lies with the rise of a neo liberal media regime This regime creates a climate in which we can understand these changes This book considers the role of neo liberalism in transforming notions of public obligations and regulation of media that have impacted non profit media specifically public access Neo liberalism has tried to eliminate public forums and public discourse and weakens institutions of civil society Though social media is often championed as an arena of communicative freedom Caterino argues that neo liberalism has created a colonized social media environment that severely limits popular democracy

The Urban Condition Ghent Urban Studies Team, 1999 What does the Western city at the end of the twentieth century look like How did the modern metropolis of congestion and density turn into a posturban or even postsuburban cityscape What are edge cities and technoburbs How has the social composition of cities changed in the postwar era What do gated communities tell us about social fragmentation Is public space in the contemporary city being privatized and militarized How can the urban self still be defined What role does consumer aestheticism have to play in this These and many more questions are addressed by this uniquely conceived multidisciplinary study The Urban Condition seeks to interfere in current debates over the future and interpretation of our urban landscapes by reuniting studies of the city as a physical and material phenomenon and as a cultural and mental arte fact The Ghent Urban Studies Team responsible for the writing and editing of this volume is directed by Kristiaan Versluys and Dirk De Meyer at the University of Ghent Belgium It is an interdisciplinary research team of young academics that further consists of Kristiaan Borret Bart Eeckhout Steven Jacobs and Bart Keunen The collective expertise of GUST ranges from architectural theory urban planning and art history to philosophy literary criticism and cultural theory

On South Bank: The Production of Public Space Alasdair J.H. Jones, 2016-05-23 Tensions over the production of urban public space came to the fore in summer 2013 with mass protests in Turkey sparked by a plan to

redevelop Taksim Gezi Park Istanbul In London concomitant proposals to refurbish an area of the South Bank historically used by skateboarders were similarly met by staunch opposition Through an in depth ethnographic examination of London s South Bank this book explores multiple dimensions of the production of urban public space Drawing on user accounts of the significance of public space as well as observations of how the South Bank is practised on a daily basis it argues that public space is valued not only for its essential material characteristics but also for the productive potential that these characteristics if properly managed afford on a daily basis At a time when policy makers urban planners and law enforcement authorities simultaneously grapple with pressures to deal with social problems such as street drinking vandalism and skateboarding and accusations that new modes of urban planning and civic management infringe upon civil liberties and dilute the publicity of public space this book offers an insightful account of the daily exigencies of public spaces In so doing it questions the utility of the public private binary for our understanding both of common urban space and of different sets of social practices and points towards the need to be attentive to productive processes in how we understand and experience urban open space as public

Public Space and Democracy Marcel Hénaff, Tracy B. Strong, 2001 Moving from classical Greece to the present Public Space and Democracy provides both historical accounts and a comparative analytical framework for understanding public space both as a place and as a product of various media from speech to the Internet These essays make a powerful case for thinking of modern technological developments not as the end of public space but as an opportunity for reframing the idea of the public and of the public space as the locus of power

Architecture of the Everyday Deborah Berke, Steven Harris, 2012-04-17 Ordinary Banal Quotidian These words are rarely used to praise architecture but in fact they represent the interest of a growing number of architects looking to the everyday to escape the ever quickening cycles of consumption and fashion that have reduced architecture to a series of stylistic fads Architecture of the Everyday makes a plea for an architecture that is emphatically un monumental anti heroic and unconcerned with formal extravagance Edited by Deborah Berke and Steven Harris this collection of writings photo essays and projects describes an architecture that draws strength from its simplicity use of common materials and relationship to other fields of study Topics range from a website that explores the politics of domesticity to a transformation of the sidewalk in Los Angeles Little Tokyo to a discussion of the work of Robert Venturi and Denise Scott Brown Contributors include Margaret Crawford Peggy Deamer Deborah Fausch Ben Gianni and Mark Robbins Joan Ockman Ernest Pascucci Alan Plattus and Mary Ann Ray Deborah Berke and Steven Harris are currently associate professors of architecture at Yale University and have their own practices in New York City

The Politics of Public Space Setha Low, Neil Smith, 2013-01-11 Why is public space disappearing Why is this disappearance important to democratic politics and how has it become an international phenomenon Public spaces are no longer democratic spaces but instead centres of private commerce and consumption and even surveillance and police control The Politics of Public Space extends the focus of current work on public space to include a consideration of the transnational

in the sense of moving people and transformations in the nation or state to expand our definition of the public and public space Ultimately public spaces are one of the last democratic forums for public dissent in a civil society Without these significant central public spaces individuals cannot directly participate in conflict resolution The Politics of Public Space assembles a superb list of contributors to explore the important political dimensions of public space as a place where conflicts over cultural and political objectives become concrete

Migration and the Crisis of Democracy in

Contemporary Europe Christoph M. Michael, 2021-01-12 This innovative and thought provoking study puts forth a compelling analysis of the constitutive nexus at the heart of the European refugee conundrum It maps and historically contextualises some of the distinctive challenges that pervasive ethnic and cultural pluralism present to real politics as on the level of political theorizing By systematically integrating hitherto insufficiently linked research perspectives in a novel way it lays open a number of paradoxical constellations and regressive tendencies in contemporary European democracy It thereby redirects attention to the ways in which liberal thought and liberal democratic institutions shape interact with and may even provide justification for illiberal and exclusionary practices This book thus makes an important contribution to the analysis of post migrant realities in Europe and the ways in which they are defined by imperial legacies punitive migration regimes the culturalization of mainstream politics and the discursive construction of a European Other

Ambivalent Desires María Mercedes Andrade, 2011-04-01 Ambivalent Desires

Representations of Modernity and Private Life in Colombia 1890s 1950s is a literary and cultural study of the reception of modernity in Colombia Unlike previous studies of Latin American modernization which have usually focused on the public aspect of the process this book discusses the intersection between modernity and the private sphere It analyzes canonical and noncanonical works that reflect the existing ambivalence toward the modernizing project being implemented in the country at the time and it discusses how the texts in question reinterpret adapt and even reject the ideology of modernity The focus of the study is how the understanding of the relationship between modernity and private life relates to the project of constructing a modern nation and the discontinuities and contradictions that appear in the process The question of what modernity is its implications for everyday life and its desirability or undesirability as a new cultural paradigm were central issues in Colombian texts from the end of the nineteenth century through the first half of the twentieth At stake was the definition of the nation s identity and the project of breaking away from the cultural patterns of the colonial past Considering that the apparently peaceful process of modernization in Colombia was interrupted in the 1950s by the eruption of political

violence across the country this study situates itself on the eve of a crisis and asks how representations of modernity in texts from the period evidence the social fragmentation that may have led to it **Re-visioning the Public in Post-reform Urban China** Junxi Qian, 2017-08-02 This book offers a theoretical intervention into the normative ideals of public space that are deeply rooted in Western urbanism It disrupts the binaries of presence absence inclusion exclusion by presenting a series of case studies that vividly convey the complexity and vicissitude of grassroots spatial practices It engages powerfully with the question of what constitutes the urban public in our everyday cities Moreover it provides a fresh perspective on the proliferating scholarship on Chinese urbanism in the reform era by seriously considering the ways in which ordinary urban inhabitants respond to and negotiate the impacts of rapid social change and the reshuffling of the systems of values and ideologies The urban public therefore is analyzed as an important field in which identities and cultural differences are formed and performed This book is a worthwhile read for anyone interested in theories of urban public space in general or urban transformation of post reform China in particular
