

speaker wants to present to his hearer the death as organized in detail that it fits the picture as an event which arouses pity. That "pity" is not different depending on what death one knows about, exists as an independent emotion, rather than varying with each life, depending upon each experience of it.

This theory of expression is incompatible with the idea of social personality as expressive. If the show itself of what I've seen, experienced, without any filtering or shaping or falsifying of my own mind to fit it to a standard, if this were expressive, then "pity" itself can hardly be expressive in the same way to you as your own pity, derived from different experience. In the representative situation, when I tell you about my particular feelings as they appear, there is no expressive work to be done, "just living." No shaping or falsifying of the scene makes it more expressive, but, conversely, because, once shaped to fit into a general pattern, the expression would seem less "authentic." Equally, the principle of expression of emotion is social, for in not having the same report of pity, you and people do not have a common sense of pity to share as a social emotion.

By contrast, under a system of expression as the presentation of emotion, the man in public has an identity as an actor—as *you* see him—and this identity involves him and others in a social expression as a presentation of emotion is the actor's job. If in a moment we take that word in a very broad sense, his identity is as making expression as presentation work. When a culture shifts from a presentation of emotion to representation of it, individual experiences reported accurately come to seem apart from the public man's function, and so an identity is lost. As his meaningful identity, expression itself becomes less and less real.

I apologize for compressing this theory so, but it will be helpful to the reader to know how much underlies the idea of public man as actor. Indeed, a sense of these logical connections is necessary to understand the very peculiar terms in which man as actor was spoken of by those who inhabited the public world of the ancient regime and by those who were their major voices.

The first was the most common voice to be heard among the spokesmen of the time: if we inhabit a *theatrum mundi*, and become like actors, then a new, happier morality is upon us. The voice was the more probing one of writers like Diderot, who explored the relation to public life and its relation to nature. The third was the singular voice of Rousseau. Rousseau's was the greatest theory of the time about the bridge between cosmopolitan life and chaotic life, the strong condemnation of it. Analyst and critic, he was also prophet, preferring that the public order would succumb to a life more authentic, intimate feeling and political repression combined. It

was conditions—so much like our present-day conditions—he approved. Yet he was also a bad prophet, for he believed that the new order would come through the fall of the city and the resurgence of the small town. His ideas are a touchstone to exploring how the public world has come to be lost in modern urban culture, a culture replacing the expressive life and identity of the public man with a new life, more personal, more authentic, and, all things considered, emptier.

THE COMMON-SENSE VIEW OF MAN AS ACTOR

By the opening of Book Seven of *Pam Jones*, the young man's adventures have become centered in London. It is at this point that Fielding presents a little essay called "A Comparison Between the World and the Stage." He begins as follows:

The world hath been often compared to the theatre . . . this thought hath been carried so far, and become so general, that some words proper to the theatre, and which were, at first, metaphorically applied to the world, are now indiscriminately and literally spoken of both: thus stage and scene are by common use grown as familiar to us, when we speak of life in general, as when we confine ourselves to dramatic performances. . . .

Fielding is apologetic in tone a little later on, of course his readers know that the stage and the streets are really that "literally" translate into each other; he is talking in cliché and he excuses himself. He just wants to remind his dear readers that the mixture of dramatic and ordinary life is real, is no fancy "metaphor" as it was in the Restoration.²⁴

"The world as a stage" was indeed an old cliché dressed up in new ways by the mid-eighteenth century. We have observed that one of the classic functions of the *theatrum mundi* imagery was to detach human nature from social action, by separating actor from art. In the common-sense view of man as actor, personally you were no longer indelible as a bad man for committing a bad act; you just needed to change your behavior. Man as actor bears a lighter moral yoke than either Puritan or devout Catholic: he is not born into sin, he enters into it if he happens to play an evil part.

Fielding himself put it well. In his essay he argued that "a single bad act no more constitutes a villain in life than a single bad part on the stage," and that indeed, as the realism of city and theatre have become intertwined, the analogy becomes a literal truth. The character of acts and the character of actors are separate, so that a man of the world "can

Fall Of The Public Man:

The Fall of Public Man Richard Sennett, 2002 THE FALL OF PUBLIC MAN is a book in the great tradition of sociological scholarship Sennett writes first of the tension between the public and private realms in which we live arguing that different types of behaviour and activity are appropriate in each He argues that the barrier between these different realms has been eroded and that this breakdown is so profound that public man has been left with no certain idea of his role in society Sennett sees the development of the city as the single most important element of the social change he describes and puts his argument in its historical perspective through an analysis of the changes in our built environment from the 18th century to the present day

Creating a Democratic Public Kevin Mattson, 2010-11 During America's Progressive Era at the beginning of the twentieth century democracy was more alive than it is today Social activists and intellectuals of that era formed institutions where citizens educated themselves about pressing issues and public matters While these efforts at democratic participation have largely been forgotten their rediscovery may represent our best hope for resolving the current crisis of democracy in the United States Mattson explores the work of early activists like Charles Zueblin who tried to advance adult education at the University of Chicago and Frederic Howe whose People's Institute sparked the nationwide forum movement He then turns to the social centers movement which began in Rochester New York in 1907 with the opening of public schools to adults in the evening as centers for debate over current issues Mattson tells how this simple program grew into a national phenomenon and cites its achievements and political ideals and he analyzes the political thought of activists within the movement notably Mary Parker Follett and Edward Ward to show that these intellectuals had a profound understanding of what was needed to create vigorous democratic practices Creating a Democratic Public challenges us to reconsider how we think about democracy by bringing us into critical dialogue with the past and exploring the work of yesterday's activists Combining historical analysis political theory and social criticism Mattson analyzes experiments in grassroots democracy from the Progressive Era and explores how we might foster more public involvement in political deliberation today

Migration and the Crisis of Democracy in Contemporary Europe Christoph M. Michael, 2021-01-12 This innovative and thought provoking study puts forth a compelling analysis of the constitutive nexus at the heart of the European refugee conundrum It maps and historically contextualises some of the distinctive challenges that pervasive ethnic and cultural pluralism present to real politics as on the level of political theorizing By systematically integrating hitherto insufficiently linked research perspectives in a novel way it lays open a number of paradoxical constellations and regressive tendencies in contemporary European democracy It thereby redirects attention to the ways in which liberal thought and liberal democratic institutions shape interact with and may even provide justification for illiberal and exclusionary practices This book thus makes an important contribution to the analysis of post

migrant realities in Europe and the ways in which they are defined by imperial legacies punitive migration regimes the culturalization of mainstream politics and the discursive construction of a European Other Public Opinion ,1895

Architecture and the Public Good Tom Spector,2021-06 Why has explaining the value of the architecture profession proven so difficult The architecture profession can be well defended by demonstrating the public good which results from its protected practice Although the book believes in this approach this approach immediately raises the thorny questions of just who is the public and what is its good To answer these questions to explain why the profession has done a poor job explaining itself and to propose a fresh perspective are the challenges set out in this book The book dissects the internal weaknesses and external forces which have prevented architects from asserting their value to the public explains how the concept of the public is itself widely misunderstood investigates the shifting boundaries of the public and private realms and proposes a series of measures by which we can assess and improve an architectural work s publicness Through a renewed focus on the public good that everyday architects are capable of as a profession the book charts an ultimately optimistic program for the architecture profession s renewal

On South Bank: The Production of Public Space Dr Alasdair J.H. Jones,2014-07-28 Tensions over the production of urban public space came to the fore in summer 2013 with mass protests in Turkey sparked by a plan to redevelop Taksim Gezi Park Istanbul In London concomitant proposals to refurbish an area of the South Bank historically used by skateboarders were similarly met by staunch opposition Through an in depth ethnographic examination of London s South Bank this book explores multiple dimensions of the production of urban public space Drawing on user accounts of the significance of public space as well as observations of how the South Bank is practised on a daily basis it argues that public space is valued not only for its essential material characteristics but also for the productive potential that these characteristics if properly managed afford on a daily basis At a time when policy makers urban planners and law enforcement authorities simultaneously grapple with pressures to deal with social problems such as street drinking vandalism and skateboarding and accusations that new modes of urban planning and civic management infringe upon civil liberties and dilute the publicity of public space this book offers an insightful account of the daily exigencies of public spaces In so doing it questions the utility of the public private binary for our understanding both of common urban space and of different sets of social practices and points towards the need to be attentive to productive processes in how we understand and experience urban open space as public

Public Man, Private Woman Jean Bethke Elshtain,2020-07-21 Focusing on the Western philosophical tradition and the work of contemporary feminists Jean Elshtain explores the general tendency to assert the primacy of the public world the political sphere dominated by men and to denigrate the private world the familial sphere dominated by women She offers her own positive reconstruction of the public and the private in a feminist theory that reaffirms the importance of the family and envisions an ethical polity Re-visioning the Public in Post-reform Urban China

Junxi Qian,2017-08-02 This book offers a theoretical intervention into the normative ideals of public space that are deeply

rooted in Western urbanism It disrupts the binaries of presence absence inclusion exclusion by presenting a series of case studies that vividly convey the complexity and vicissitude of grassroots spatial practices It engages powerfully with the question of what constitutes the urban public in our everyday cities Moreover it provides a fresh perspective on the proliferating scholarship on Chinese urbanism in the reform era by seriously considering the ways in which ordinary urban inhabitants respond to and negotiate the impacts of rapid social change and the reshuffling of the systems of values and ideologies The urban public therefore is analyzed as an important field in which identities and cultural differences are formed and performed This book is a worthwhile read for anyone interested in theories of urban public space in general or urban transformation of post reform China in particular

Making Space Public in Early Modern Europe Angela

Vanhaelen, Joseph P. Ward, 2013-04-26 Broadening the conversation begun in Making Publics in Early Modern Europe 2009 this book examines how the spatial dynamics of public making changed the shape of early modern society The publics visited in this volume are voluntary groupings of diverse individuals that could coalesce through the performative uptake of shared cultural forms and practices The contributors argue that such forms of association were social productions of space as well as collective identities Chapters explore a range of cultural activities such as theatre performances travel and migration practices of persuasion the embodied experiences of lived space and the central importance of media and material things in the creation of publics and the production of spaces They assess a multiplicity of publics that produced and occupied a multiplicity of social spaces where collective identity and voice could be created discovered asserted and exercised Cultural producers and consumers thus challenged dominant ideas about just who could enter the public arena greatly expanding both the real and imaginary spaces of public life to include hitherto excluded groups of private people The consequences of this historical reconfiguration of public space remain relevant especially for contemporary efforts to meaningfully include the views of ordinary people in public life

The Spectacle of

Intimacy Karen Chase, Michael Levenson, 2009-08-15 Love of home life the intimate moments a family peacefully enjoyed in seclusion had long been considered a hallmark of English character even before the Victorian era But the Victorians attached unprecedented importance to domesticity romanticizing the family in every medium from novels to government reports to the point where actual families felt anxious and the public developed a fierce appetite for scandal Here Karen Chase and Michael Levenson explore how intimacy became a spectacle and how this paradox energized Victorian culture between 1835 and 1865 They tell a story of a society continually perfecting the forms of private pleasure and yet forever finding its secrets exposed to view The friction between the two conditions sparks insightful discussions of authority and sentiment empire and middle class politics The book recovers neglected episodes of this mid century drama the adultery trial of Caroline Norton and the Prime Minister Lord Melbourne the Bedchamber Crisis of the young Queen Victoria the Bloomer craze of the 1850s and Robert Kerr s influential treatise celebrating the ideal of the English Gentleman s House The literary representation of

household life in Dickens Tennyson Ellis and Oliphant among others is placed in relation to such public spectacles as the Deceased Wife's Sister Bill of 1848 the controversy over divorce in the years 1854 1857 and the triumphant return of Florence Nightingale from the Crimea These colorful incidents create a telling new portrait of Victorian family life one that demands a fundamental rethinking of the relation between public and private spheres **Beyond Boundaries** Linda Phyllis Austern, Candace Bailey, Amanda Eubanks Winkler, 2017-02-13 English music studies often apply rigid classifications to musical materials their uses their consumers and performers The contributors to this volume argue that some performers and manuscripts from the early modern era defy conventional categorization as amateur or professional native or foreign These leading scholars explore the circulation of music and performers in early modern England reconsidering previously held ideas about the boundaries between locations of musical performance and practice **Women Readers in French Painting 1870-1890** Kathryn J. Brown, 2012 The first monograph to examine the depiction of reading women in French art of the early Third Republic **Women Readers in French Painting 1870 1890** evaluates the pictorial significance of this imagery its critical reception and its impact on nineteenth century notions of femininity and social relations Artists discussed in the volume range from Manet Cassatt and Degas to less familiar figures such as Lavieille Carrière Toulmouche and Tissot

Public Parts Jeff Jarvis, 2011-09-27 A visionary and optimistic thinker examines the tension between privacy and publicness that is transforming how we form communities create identities do business and live our lives Thanks to the internet we now live more and more in public More than 750 million people and half of all Americans use Facebook where we share a billion times a day The collective voice of Twitter echoes instantly 100 million times daily from Tahrir Square to the Mall of America on subjects that range from democratic reform to unfolding natural disasters to celebrity gossip New tools let us share our photos videos purchases knowledge friendships locations and lives Yet change brings fear and many people nostalgic for a more homogeneous mass culture and provoked by well meaning advocates for privacy despair that the internet and how we share there is making us dumber crasser distracted and vulnerable to threats of all kinds But not Jeff Jarvis In this shibboleth destroying book **Public Parts** argues persuasively and personally that the internet and our new sense of publicness are in fact doing the opposite Jarvis travels back in time to show the amazing parallels of fear and resistance that met the advent of other innovations such as the camera and the printing press The internet he argues will change business society and life as profoundly as Gutenberg's invention shifting power from old institutions to us all Based on extensive interviews **Public Parts** introduces us to the men and women building a new industry based on sharing Some of them have become household names Facebook's Mark Zuckerberg Google's Eric Schmidt and Twitter's Evan Williams Others may soon be recognized as the industrialists philosophers and designers of our future Jarvis explores the promising ways in which the internet and publicness allow us to collaborate think ways how we manufacture and market buy and sell organize and govern teach and learn He also examines the necessity as well as the limits of privacy in an effort to understand and thus

protect it This new and open era has already profoundly disrupted economies industries laws ethics childhood and many other facets of our daily lives But the change has just begun The shape of the future is not assured The amazing new tools of publicness can be used to good ends and bad The choices and the responsibilities lie with us Jarvis makes an urgent case that the future of the internet what one technologist calls the eighth continent requires as much protection as the physical space we share the air we breathe and the rights we afford one another It is a space of the public for the public and by the public It needs protection and respect from all of us As Secretary of State Hillary Clinton said in the wake of the uprisings in the Middle East If people around the world are going to come together every day online and have a safe and productive experience we need a shared vision to guide us Jeff Jarvis has that vision and will be that guide

The Politics of Public Space Setha Low, Neil Smith, 2013-01-11 Why is public space disappearing Why is this disappearance important to democratic politics and how has it become an international phenomenon Public spaces are no longer democratic spaces but instead centres of private commerce and consumption and even surveillance and police control The Politics of Public Space extends the focus of current work on public space to include a consideration of the transnational in the sense of moving people and transformations in the nation or state to expand our definition of the public and public space Ultimately public spaces are one of the last democratic forums for public dissent in a civil society Without these significant central public spaces individuals cannot directly participate in conflict resolution The Politics of Public Space assembles a superb list of contributors to explore the important political dimensions of public space as a place where conflicts over cultural and political objectives become concrete

The Dilemma of Modernity Lawrence E. Cahoone, 1988-01-01 The development of modern culture along subjectivist lines has led to an analogue of psychological narcissism to philosophical narcissism in the culture The intrinsic value of human cultural activity has been lost and the intellectual foundation of the modern world view has been destroyed Cahoone carefully develops the idea of subjectivity and narcissism using psychological theory the dialectical theory of the Frankfurt school and historians The core of his interpretive argument is developed through careful analysis of Descartes and Kant as well as of Husserl and Heidegger Cahoone maintains a carefully controlled continuity between the analysis of philosophic positions and what they reveal about culture In the conclusion he moves toward a recreation of culture in non subjectivist naturalism Insights are drawn from Freud Fairbairne Winnicott Kohut Sennett Lasch Horkheimer Adorno Dewey Cassirer Kundera and Buchler
