Falling In Love By Alberoni Francesco:

Falling in Love Ayala Pines, Ayala Malach Pines, 2013-05-13 Falling in Love is the first book to unlock the mysteries of how and why we fall in love. Renowned psychologist Ayala Pines shows us why we fall for the people we do and argues convincingly that we love neither by chance nor by accident. She offers sound advice for making the right choices when it comes to this complicated emotion. Packed with helpful suggestions for those seeking love and those already in it, this book is about love's many puzzles. The second edition furthers the work of the popular and successful first edition. With expanded research, theory, and practice, this book once again provides one of a kind understandings of the experience of love. The new edition offers updated references to recent research, new chapter exercises, and case examples of romantic stories to begin each chapter.

Romantic Love and Sexual Behavior Victor C. de Munck, 1998-04-16 Westerners believe that love makes life worth living, that sex is a natural desire different in kind from love, and that only cynics reduce our love life to a calculation of economic or genetic factors. In this volume, essays explore these and other assumptions about the relationship between romantic love and sex. This represents the first interdisciplinary social science study of love and sex. Contributors ask and answer questions such as: Is love just sex idealized, or is it a transcendent and divine emotion? Is love a cultural construct that is shared by members of the same culture, or is it a matter of personal taste? What keeps promiscuous people from using condoms even when they know they are at risk? Are black professional men so rare that their conceptions of love and sex differ from those of white professional men? Are brutal sexual fantasies an exclusively male domain, and are they always excluded from love fantasies among normal adolescents? Is divorce a culturally induced response to evolutionary reproductive strategies that compel individuals to maximize their genetic legacy? Are marriages or relationships less satisfying or stable when an actual mate falls short of the fantasy of the ideal mate? Is there a universal core to love and sex that is camouflaged by other cultural norms such as modesty and sexual segregation? Is rape perceived as more acceptable when the rapist says he was motivated by love? What do cult movements and romantic love have in common? As they attempt to answer these and other questions, the authors extend our understanding of the variety of ways that love and sex are conceptualized, connected, or separated.

A love story... with a happy ending Flávio Gikovate, 2013-08-06 Technological advances and changes in society have led to the growth of individuality and the impoverishment of conventional love, which nonetheless prevails in the collective imagination as an ideal. This slow transformation, according to Flávio Gikovate, is excellent news. He believes that adults today have two options, both of which are much better than the possessive conventional relationships of old: to live alone, establishing more superficial emotional and physical connections, or to develop relationships based on what he calls love, which respects individuality and can create ties capable of lasting a lifetime. In this work, Gikovate explains how to take the second path, definitely more difficult but far more rewarding.
