A Warrior's Legacy J. E. Thompson, 2009-11 Although the Morroks surpass Humans in both size and strength for generations they have skulked in deserts and moved among Humans only in secret They train their children with brutal thoroughness and psychological torment teaching them both to isolate themselves and to kill without thought Orestes is one such Human trainee for the first five years of his life But after he is rescued from the Morrok Facility Orestes grows up in Warrior Peak a militaristic society that hasn't been to war in three generations and is reluctant to do so even as the Morroks begin to show themselves in the desert just miles from their home Even in the midst of impending war Orestes wrestles with the Morroks hold over his mind and heart as he struggles to fight without malignity to lead without tyranny and to love without inhibition The Morroks however are not as quick to relinquish their hold on Orestes and the reminders of their training often written in the blood of others threaten to ruin him before he can lead the Humans in their last stand to defend the land against the Morroks <http://www.awarriorslegacy.com>

bestselling Keeper of the Lost Cities series Sophie Foster wants answers But after a lifetime of lies sometimes the truth is the most dangerous discovery Even the smallest secret comes with terrifying new responsibilities And Sophie s not the only one with blank spots in her past or mysteries surrounding her family She and her friends are part of something much bigger than they imagined and their roles have already been chosen for them Every clue drags them deeper into the conspiracy Every memory forces them to question everything especially one another And the harder they fight the more the lines blur between friend and enemy

Nevada's Environmental Legacy James W. Hulse, 2009-02-28 Nevada s relatively brief history it became a state in 1864 has been largely a story of the exploitation of its natural resources Mining has torn down mountains and poisoned streams and groundwater Uncontrolled grazing by vast herds of sheep and cattle has denuded grasslands and left them prey to the invasion of noxious plant species and vulnerable to wildfire Clear cut logging practices have changed the composition of forests and induced serious soil erosion More recently military testing including hundreds of atomic blasts to determine the efficacy of nuclear weapons has irreversibly polluted expanses of fragile desert landscape And rampant development throughout the state over the past four decades along with the public s growing demand for recreational facilities has placed intolerable demands on the arid state s limited water resources and threatened the survival of numerous rare plant and animal species Veteran historian and Nevada native James W Hulse considers the state s complex environmental history as a series of Faustian bargains between the state s need for economic development and the industries government agencies and individuals that have exploited Nevada s natural resources with little concern for the long term consequences of their activities His survey covers all these issues and examines public attitudes about the environment and the role of federal and state agencies in creating interpreting and enforcing environmental policies
