The Maternal Image of God in Victorian Literature Rebecca Styler, 2023-07-10 This book is the study of a religious metaphor the idea of God as a mother in British and US literature 1850 1915 It uncovers a tradition of writers for whom divine motherhood embodied ideals felt to be missing from the orthodox masculine deity Elizabeth Gaskell Josephine Butler George Macdonald Frances Hodgson Burnett and Charlotte Perkins Gilman independently reworked their inherited faith to create a new symbol that better met their religious needs based on ideal Victorian notions of motherhood and Mother Nature Divine motherhood signified compassion universal salvation and a realised gospel of social reform led primarily by women to establish sympathetic community Connected to Victorian feminism it gave authority to women's voices and to feminine cultural values in the public sphere It represented divine immanence within the world often providing the grounds for an ecological ethic including human animal fellowship With reference also to writers including Charlotte Brontë Anna Jameson Charles Kingsley Elizabeth Charles Theodore Parker Harriet Beecher Stowe Mary Baker Eddy and authors of literary utopias this book shows the extent of maternal theology in Victorian thought and explores its cultural roots The book reveals a new way in which Victorian writers creatively negotiated between religious tradition and modernity God Mocks Terry Lindvall, 2015-11-13 Winner of the 2016 Religious Communication Association Book of the Year Award In God Mocks Terry Lindvall ventures into the muddy and dangerous realm of religious satire chronicling its evolution from the biblical wit and humor of the Hebrew prophets through the Roman Era and the Middle Ages all the way up to the present He takes the reader on a journey through the work of Chaucer and his *Canterbury Tales* Cervantes Jonathan Swift and Mark Twain and ending with the mediated entertainment of modern wags like Stephen Colbert Lindvall finds that there is a method to the madness of these mockers true satire he argues is at its heart moral outrage expressed in laughter But there are remarkable differences in how these religious satirists express their outrage The changing costumes of religious satirists fit their times The earthy coarse language of Martin Luther and Sir Thomas More during the carnival spirit of the late medieval period was refined with the enlightened wit of Alexander Pope The sacrilege of Monty Python does not translate well to the ironic voices of Søren Kierkegaard The religious satirist does not even need to be part of the community of faith All he needs is an eye and ear for the folly and chicanery of religious poseurs To follow the paths of the satirist writes Lindvall is to encounter the odd and peculiar treasures who are God's mouthpieces In God Mocks he offers an engaging look at their religious use of humor toward moral ends *Library of the World's Best Literature, Ancient and Modern - Volume II (Illustrated Edition)* (Dodo Press) Charles Dudley Warner, Hamilton Wright Mabie, Lucia Gilbert Runkle, 2008-03-01 Charles Dudley Warner 1829 1900 was an American essayist and novelist He worked with a surveying party in Missouri studied law at the University of Pennsylvania practiced in Chicago was assistant editor 1860 and editor 1861 1867 of *The Hartford Press* and after *The Press* was merged into *The Hartford Courant* was co editor with Joseph R Hawley in 1884 he joined the editorial staff of Harper's

Magazine for which he conducted The Editors Drawer until 1892 when he took charge of The Editor's Study. He travelled widely, lectured frequently and was actively interested in prison reform, city park supervision and other movements for the public good. He was the first president of the National Institute of Arts and Letters. He first attracted attention by the reflective sketches entitled *My Summer in a Garden* 1870. Amongst his other works are *Saunterings* 1872, *Backlog Studies* 1873, *Being a Boy* 1878, *In the Wilderness* 1878, *Captain John Smith* 1881, *Washington Irving* 1881, *A Little Journey in the World* 1889, *As We Were Saying* 1891 and *That Fortune* 1899. *The Nationality of Utopia* Maxim Shadurski, 2019-08-14

Since its generic inception in 1516, utopia has produced visions of alterity which renegotiate, subvert and transcend existing places. Early in the twentieth century H. G. Wells linked utopia to the World State whose post-national, post-Westphalian emergence he predicated on English national discourse. This critical study examines how the discursive representations of England's geography, continuity and character become foundational to the Wellsian utopia and elicit competing response from Wells's contemporaries, particularly Robert Hugh Benson and Aldous Huxley, with further ramifications throughout the twentieth century. Contextualized alongside modern theories of nationalism and utopia, as well as read jointly with contemporary projections of England as place, reactions to Wells demonstrate a shift from disavowal to retrieval of England on the one hand and from endorsement to rejection of the World State on the other. Attempts to salvage the residual traces of English culture from their degradation in the World State have taken increasing precedence over the imagination of a post-national order. This trend continues in the work of George Orwell, Anthony Burgess, J. G. Ballard and Julian Barnes whose future scenarios warn against a world without England. *The Nationality of Utopia* investigates utopia's capacity to deconstruct and redeploy national discourse in ways that surpass fear and nostalgia. *In the Name of God* Youssef Hamouda, 2023-08-08

This book is a quest to look at the history of mankind to answer questions that humans wondered about for centuries: What does God want from us? Why are there so many religions? Who did the ancients worship if it wasn't God? This book is a quest through history, religion and science to answer these questions and more. It will prove beyond any doubt that there is a creator and he's one and the message he's been sending through the times using prophets and messengers is one and the same. Religions are used to teach people common values that will help them coexist in peace. Unfortunately, humans used it to launch wars against each other in the name of God. Each one wants to prove that their religion is the only one that God accepts and recognizes. God created us equal but different. *Phantoms on the Bookshelves* Jacques Bonnet, 2012-07-05

A charming book full of erudition and wit that explores the human impulse to accumulate books. Literary Review: Jacques Bonnet, a lifelong accumulator of books, ancient and modern, lives in a house large enough to accommodate his tens of thousands of volumes, as well as some overspill from the libraries of his friends. While his musings on the habits of collectors from the earliest known libraries are learned, amusing and instructive, his advice on cataloging may even save lives. Ranging from classical Greece to contemporary Iceland, from Balzac to Moby Dick and Google, *Phantoms on the Bookshelves*

is a blend of memoir history and love letter that will be a lasting delight for all who treasure books John Greaves, Pyramidographia and Other Writings, with Birch's Life of John Greaves John Anthony Butler, 2019-01-22 This is a modern spelling edition of John Greaves's *Pyramidographia* 1646 together with some miscellaneous travel writings letters and a biography of Greaves by Thomas Birch It includes a full scholarly introduction and detailed notes This book is the first of its kind in English and undertakes a scientific evaluation of the pyramids through metrics using state of the art instruments and drawing on both ancient and modern authorities amongst which is included Arab and Persian writers as well as Western sources Greaves's work is distinguished from others by his refusal to be drawn into mystical or theological speculation and is an excellent example of how seventeenth century scientists may be said to have pioneered modern methods of scientific inquiry Greaves discusses the age of the pyramids their purpose the nature of their builders and the methods he believes were used to erect them It may be said that he is probably the earliest genuine English Egyptologist and that *Pyramidographia* is indeed the earliest scientific treatise on the subject Greaves's travel writings which also contain a great deal of measurement show readers how he approached his sojourn in foreign lands and his letters give some measure of the man and his relationships with fellow scientists and patrons The biography by Thomas Birch further fills out Greaves's life and career

The Radicalization of Pedagogy Simon Springer, Marcelo Lopes de Souza, Richard J. White, 2016-05-27 How do activists learn radical politics Does the increasing neoliberalisation of education limit the possibilities of transgressive pedagogies And in what contexts have anarchist geographers successfully shaped alternative pedagogic practices Pedagogy is central to geographical knowledge and represents one of the key sites of contact where anarchist approaches can inform and revitalize contemporary geographical thought This book looks at how anarchist geographers have shaped pedagogies that move towards bottom up organic transformations of societies spaces subjectivities and modes of organizing where the importance of direct action and prefigurative politics take precedence over concerns about the state Examining contemporary and historical case studies across the world from formal and informal contexts the chapters show the potential for new imaginaries of anarchist geographies that will challenge and inspire geographers to travel beyond the traditional frontiers of geographical knowledge

American Philosophy John Kaag, 2016-10-11 The epic wisdom contained in a lost library helps the author turn his life around John Kaag is a dispirited young philosopher at sea in his marriage and his career when he stumbles upon West Wind a ruin of an estate in the hinterlands of New Hampshire that belonged to the eminent Harvard philosopher William Ernest Hocking Hocking was one of the last true giants of American philosophy and a direct intellectual descendent of William James the father of American philosophy and psychology with whom Kaag feels a deep kinship It is James's question Is life worth living that guides this remarkable book The books Kaag discovers in the Hocking library are crawling with insects and full of mold But he resolves to restore them as he immediately recognizes their importance Not only does the library at West Wind contain handwritten notes from Whitman and

inscriptions from Frost but there are startlingly rare first editions of Hobbes Descartes and Kant As Kaag begins to catalog and read through these priceless volumes he embarks on a thrilling journey that leads him to the life affirming tenets of American philosophy self reliance pragmatism and transcendence and to a brilliant young Kantian who joins him in the restoration of the Hocking books Part intellectual history part memoir American Philosophy is ultimately about love freedom and the role that wisdom can play in turning one s life around The Holy Bible ... Collin Cornell, 2020-03-16 The Bible says that YHWH alone is God and that there is none like him but texts and artwork from antiquity show that many gods looked very similar In this volume scholars of the Hebrew Bible and its historical contexts address the problem of YHWH's ancient look-alikes providing recommendations for how Jews and Christians can think theologically about this challenge Sooner or later whether in a religion class or a seminary course students bump up against the fact that God the biblical God was one among other comparable gods The ancient world was full of gods including great gods of conquering empires dynastic gods of petty kingdoms goddesses of fertility and personal spirit guardians And in various ways these gods look like the biblical God Like the God of the Bible they too controlled the fates of nations chose kings bestowed fecundity and blessing and cared for their individual human charges They spoke and acted They experienced wrath and delight They inspired praise All of this leaves Jews and Christians in a bind how can they confess that the God named YHWH was and is the true and living God in view of this God's profound similarities to all these others The essays in this volume address the theological challenge these parallels create providing reflections on how Jews and Christians can keep faith in YHWH as God while acknowledging the reality of YHWH's divine doppelgängers It will be welcomed by undergraduates studying religion seminarians and graduate students of Bible theology and the ancient world and adult education classes
