drawing and design discourse and patronage were interests shared by many women in the eighteenth century Far from being the preserve of elite men architecture was a passion shared by both sexes intellectually and practically as long as they possessed sufficient wealth and autonomy In an accessible readable account Hidden Patrons uncovers the role of women as important patrons and designers of architecture and interiors in eighteenth century Britain and Ireland Exploring country houses Georgian townhouses villas estates and gardens it analyses female patronage from across the architectural spectrum and examines the work of a range of pioneering women from grand duchesses to businesswomen to lowly courtesans Re-examining well known Georgian masterpieces alongside lesser known architectural gems Hidden Patrons unearths unseen archival material to provide a fascinating new view of the role of women in the architecture of the Georgian era **Two**
