Families and Societies Betty Yorburg,1983      Journal of Human Services Abstracts ,1984      Introducción al asesoramiento pastoral de la familia AETH Jorge E. Maldonado,2004-05-01 La pérdida de valores morales que llevan a considerar todo desde una perspectiva groseramente relativista la situación social y económica tan crítica que lleva a tratar de protegernos de cualquier manera posible el materialismo contemporáneo que nos hace creer que teniendo más cosas seremos más felices y otros muchos aspectos similares han provocado una crisis que se refleja y tiene sus efectos en la pareja y familia contemporánea La sociedad ha contagiado su enfermedad a la familia Así pues esta unidad básica sufre los devastadores efectos del tiempo y sociedad en que nos ha tocado vivir Hay algo que se pueda hacer Hay remedio que alivie esa enfermedad El Dr Maldonado nos muestra que para que la familia pueda procesar cualquier situación crítica que esté viviendo y salir adelante por el camino de la recuperación y el crecimiento la mayor parte del tiempo requiere de orientación consejo o asesora Así pues y desde la perspectiva cristiana en este libro el Dr Maldonado presenta los elementos básicos de la asesora los criterios que servirán para identificar a una familia sana e ir hacia ella y las metas que se deben perseguir al asesorar y que servirán al asesor o consejero para promover el sano crecimiento tanto de la pareja como de la familia Porque a final de cuentas la familia no es solamente el lugar donde encontramos refugio y alimento La familia por sobre todo es el lugar donde nos formamos como y donde somos verdaderamente humanos y cristianos

**The Dynamic Society** Graeme Snooks,2002-09-11 This book discusses the nature and process of change in human society over the past two million years The author draws on economic historical and biological concepts to examine the driving forces of change and looks to likely developments in the future This analysis produces some very thought provoking and controversial conclusions      Christ's New Homeland - Africa Francis A. Arinze,2015 In June of 2015 five cardinals and forty five bishops representing fifty African countries met in Accra Ghana to prepare for the October 2015 Synod on the Family In his opening remarks included in this volume Robert Cardinal Sarah encouraged the bishops of Africa to speak with one voice during the synod I encourage you to speak with clarity and with one credible voice and with filial love of the Church Be conscious of the mission of the Church protect the sacredness of marriage which is now being attacked by all forms of ideologies that intend to destroy the family in Africa Do not be afraid to stress the teaching of the Church on marriage In a major six page interview released during the same period in the French magazine Famille Chr tienne Cardinal Sarah said At the synod next October we will address I hope the question of marriage in an entirely positive manner seeking to promote the family and the values that it bears The African bishops will act to support that which God asks of man concerning the family and to receive that which the Church has always taught Why should we think that only the Western vision of man of the world of society is good just universal The Church must fight to say no to this new colonization These African pastors provide much food for thought and reflection about modern Western culture and our personal lives as well as an introduction to the Synod The title of the book comes from a phrase used by Blessed Pope Paul VI which in our time beautifully expresses the universality of the Church and the increasing role played by African Church leaders Among the contributing cardinals and bishops are Robert Cardinal Sarah Francis Cardinal Arinze Christian Cardinal Tumi Th odore Cardinal Sarr Archbishop Samuel Kleda and more      **Diversity in Families** Maxine Baca Zinn,D. Stanley Eitzen,1996 This highly regarded book treats diversity as the norm in family life exploring the many varieties of familiar relationships in society today This exploration of the socio economic cultural and ethnic diversities in families views the family on both the macro and micro levels examining the influence of larger social trends on personal experience with particular focus on gender race class and economic factors      **The Family in Global Perspective** Elaine J. Leeder,2004 The Family in Global Perspective is an exciting new cross cultural text that should be adopted for classroom use in universities nationwide Elaine Leeder has created a readable interesting textbook for undergraduates that reveals the historical socio cultural and gender realities of family life Real life examples from 42 countries support student understandings of sociological theory and build a comprehensive awareness of family as a way of being for people throughout the world Peter Phillips Sonoma State University I think it would be a great book for a class in Family Studies In the Family Studies field we have come to realize that the family as we see it is not how peoples of the world necessarily see it I think exposing all Family Studies students to this text

would greatly enhance their educational development written in very comprehensible language for undergraduates Yvonne M Caldera Ph D Texas Tech University I find the book overall is well done it is very readable for undergraduates the author is good at interweaving interesting research and travel notes with theories and discussions about families in a global perspective in various places The style is refreshing particularly enticing for undergraduate readers Heying Jenny Zahn Georgia State University The book is rather unique in the sense that there are few works that place the U S family within a larger global framework The comparisons that are made across societies serve to enhance understanding of family patterns in the United States I also should mention that the book is well written and in an interesting way too It successfully combines important academic material with a thought provoking style of presentation Sharon K Houseknecht Ohio State University

What is a family In the context of biology the answer may be fairly simple However in the social context the family is a far more complex form with a meaning that is multilayered The Family in Global Perspective A Gendered Journey examines the continually changing face of family life in the United States and from culture to culture Written in an engaging style the book provides a global viewpoint about family issues enabling readers to think critically about family life in cultures beyond their own In The Family in Global Perspective author Elaine Leeder uses various historical theoretical and comparative perspectives to develop a cross cultural understanding of family life The book examines a variety of family lives in western countries and contrasts them with those of families in parts of Africa Asia and Latin America After comparing the history of the family in various parts of the globe the author then looks at the impact of globalization on family structures gendered behavior intergenerational relationships relationship dissolution race ethnicity and class issues violence and social policy Features of this text Expresses a feminist view of family life and includes case examples from the author's own experiences visiting and studying families in 42 countries Organized topically rather than by country or culture to facilitate instruction on a particular component of family life Pedagogical features such as an accessible format chapter introductions vignettes and photos highlighted key terms and chapter summaries enhance students understanding The Family in Global Perspective is an ideal supplementary textbook for courses on marriage and the family in a variety of disciplines including Family Studies Sociology Social Work Psychology and Women's Studies
