American Book Publishing Record ,2005

Second International Handbook on the Demography of Sexuality Amanda K. Baumle,Zelma Oyarvide Tuthill,2025-06-18 A decade after the publication of the first International Handbook on the Demography of Sexuality there have been fundamental shifts in how we measure sexual and gender identities and the breadth of available population level sexuality data The chapters in this second edition of this handbook provide guidance on methodological approaches involved in studying population sexuality as well as insight into the ways that sexuality shapes key demographic outcomes Chapters

examine how we measure sexual identities and behaviors on surveys sexuality changes across the life course international perspectives on sexual behaviors and identities and the ways that sexual identities shape families labor market experiences and health outcomes Despite these developments we still know relatively little about key demographic questions related to fertility and migration for sexual minorities as well as about understudied topics of sexuality that fall outside of risk focused analyses In particular much of our understanding of sexuality has been motivated by controlling the spread of sexually transmitted infections or adolescent pregnancies rather than understanding motivations for sexual interactions such as pleasure Accordingly although the research set forth in this book provides insight into existing knowledge of sexual behavior and of sexual minority populations the chapters also point researchers and policymakers toward needed areas of research and data collection

Same-Sex Partners Amanda K. Baumle, D'Lane Compton, Dudley L. Poston Jr., 2009-03-09 Addressing the lack of understanding regarding the lives of same sex couples this book examines the sociodemographic characteristics of partnered gay men and lesbians The authors draw on U S census data to present quantitative analyses of topics pertaining to gay men and lesbians that have previously been relatively unexamined or assessed mainly through qualitative studies They explore where gay men and lesbians live why they choose those residences income inequality occupations dimensions of family attachments relationship commitments and family structures The census data allows the authors to provide a more detailed representation of many of the essential features in the lives of gay men and lesbians compared to those of married and cohabiting heterosexuals In certain cases the data and analyses reinforce current stereotypes while in other cases they challenge preexisting beliefs Ultimately this book provides a foundation for future research policy law and understanding regarding gay men and lesbians

A Field Guide to Community Literacy Laurie A. Henry, Norman A. Stahl, 2022-04-27 This practical guidebook presents trends research grounded strategies and field based solutions to challenges of working in community based literacy initiatives A comprehensive guide for practitioners this book addresses best practices for implementing maintaining expanding and evaluating community based literacy initiatives The contributors in this volume help readers shift thinking from merely considering How can communities support literacy to How can literacy help us create support and strengthen communities Organized into four parts on building community through literacy program design case studies from the field and program evaluation chapters cover research based and innovative practices in a diverse range of populations and settings including family services adult literacy initiatives community centers and tutoring programs With an abundance of praxis oriented examples and real world strategies from top scholars and practitioners the book serves as a roadmap for essential topics including funding writing grant proposals handling audits and conducting research within program settings With templates models planning tools and checklists ready for immediate use this book is an invaluable field manual for individuals involved in community literacy work researchers and students in literacy oriented courses either at the undergraduate or graduate levels

After the Revolution David J. Ayers, 2022-06-01 Equipping the church to

recover from sexual confusion In *After the Revolution* David J Ayers provides the Christian heirs of the sexual revolution a resource to understand their challenges and social context to find a way forward Drawing on social sciences and history Ayers traces recent worldview shifts in North America and Europe The historic Christian understanding of sex and marriage has been supplanted And sexual confusion has infiltrated the church especially influencing younger Christians The church can uniquely and compassionately support sexual faithfulness and flourishing but we need to reject formulas surefire methods and judgmentalism Instead we must recover a positive vision for Christian sexuality singleness and marriage that is firmly grounded in God s word *Forthcoming Books* Rose Army,2001 **Books In Print 2004-2005** Ed Bowker Staff,Staff Bowker, Ed,2004 *Encyclopedia of Historical Archaeology* Charles E. Orser Jnr,2002-09-11 The Encyclopedia of Historical Archaeology is a ground breaking compendium of information about this ever growing field Concentrating on the post 1400 period as well as containing generic explanations of historical archaeology where needed the encyclopedia is compiled by over 120 experts from around the world and contains more than 370 entries covering important concepts and sites **Handbook of Research-Based Practice in Early Education** D. Ray Reutzell,2014-07-09 Written expressly for early childhood educators and those who support their professional development this handbook distills essential knowledge about how to help all PreK 3 learners succeed Leading experts describe doable ways to create effective learning environments and implement instructional practices with a strong evidence base Engaging vignettes illustrate discussions of such topics as differentiated instruction response to intervention the Common Core standards social and emotional learning assessment and teaching across the curriculum Each chapter links cutting edge research to practical applications examples and professional development activities *Bandwidth Recovery For Schools* Cia Verschelden,2023-07-03 Are students coming to your class lacking focus having difficulty connecting with you and their peers falling behind or acting out when you instinctively feel they could do better Do you sometimes feel like you don t have the capacity as a teacher or school leader to give students the support they need to learn and thrive This book makes the case that societal realities such as poverty racism and social marginalization result in depleted cognitive resources for students and for those who are trying to help them succeed Each of us has a finite amount of mental bandwidth the cognitive resources that are available for learning development work taking care of ourselves and our families and everything else we have to do These attentional resources are not about how smart we are but about how much of our brain power is available to us for the task at hand When bandwidth is taken up by the stress of persistent economic insecurity or the negative experiences of racism classism homophobia religious intolerance sexism ableism etc there is less available for learning and growth This is as true for young children and youth as for their parents and teachers The first half of the book makes the case that poverty and these differentisms deplete the bandwidth of students parents and teachers The second sets out concepts and strategies that help people recover the bandwidth they need to learn and thrive Cia Verschelden describes strategies that can help students

recover bandwidth including acknowledging the funds of knowledge of students and their families promoting growth mindsets using reflective practices to build a sense of belonging for all students fostering peer collaboration and implementing restorative practices in lieu of punitive measures to deal with problematic behavior as well as a rich selection of Ideas in Practice contributed by experienced teachers and school leaders Cia recognizes that many teachers are working in schools with inadequate support systems and facilities and with scarce materials and may be spending their often inadequate pay on school supplies for their classrooms and food for their hungry students She offers practical ideas for creating more teacher supportive systems and addresses how principals and administrators can harness teachers ideas and energies to create inclusive and successful learning environments for all students The book includes a case study of Rochester New York where the economy has been decimated with the closure of major employers and how its financially strapped school system worked with colleagues at the University of Rochester to use the distributed leadership of its teachers with the active support of principals and superintendents to revitalize its schools to better serve its diverse and low income student population This book is for teachers parents school leaders and members of communities who are interested in the well being of children and youth and the education of all our children All of us have a stake in a public school system from which students emerge as fully formed learners and thinkers and who believe in their ability to affect what happens to them and their communities

Off to College Roger H. Martin, 2015-08-04 What should parents expect during their child's first year of college Roger Martin double president emeritus of two colleges spent a year visiting five diverse colleges public and private large and small elite and non elite in order to offer the parents of college bound seniors a comprehensive overview of the first year college experience In addition to a stint with dorm life and time with students and professors Martin draws from conversations with a wide variety of campus administrators and staff members in financial aid campus police sports health care and disabilities accommodations We join Martin for example as he and a campus safety officer walk around campus on a busy Saturday night While Off to College deals with more traditional topics such as the financial challenges of college homesickness and time management it also tackles more complex contemporary issues that college freshman may encounter There are sections devoted to date rape drinking campus shootings and depression as well as chapters targeted at athletes minorities and first generation students We can boast in this book not only a most appropriate and uniquely positioned author but also one full of information and good advice from campus sources Off to College promises to be an encouraging and extremely well informed guide for any parent sending their child off to a four year residential college

Handbook of Disaster Research Havidán Rodríguez, William Donner, Joseph E. Trainor, 2017-11-16 This timely Handbook is based on the principle that disasters are social constructions and focuses on social science disaster research It provides an interdisciplinary approach to disasters with theoretical methodological and practical applications Attention is given to conceptual issues dealing with the concept disaster and to methodological issues relating to research on disasters These include Geographic Information Systems as a useful research tool and its implications for future research This seminal work is the first interdisciplinary collection of disaster research as it stands now while outlining how the field will continue to grow

Intercultural Experience in Narrative Michał Wilczewski, 2019-11-28 This book systematically investigates intercultural experiences of Polish managers and specialists delegated by their multinational company MNC on an international assignment to China The book employs narrative inquiry to explore language intercultural communication collaboration learning and expatriate adjustment in the MNC This approach offers new insights into intercultural experiences communication and cultural challenges faced by an under researched group of professionals exposed to intensive collaborations with the local managers and employees The findings also illustrate how the expatriates learned to better navigate the multicultural and multilingual business context and what factors facilitated and inhibited their learning and adjustment Encouraging the qualitative context sensitive examination of expatriate local personnel interactions the book will be an invaluable source for scholars and practitioners interested in among others novel approaches to investigating language and intercultural communication in international business cross cultural management qualitative cross cultural research as well as for lecturers and students interested in Central Europe and China

An Archaeology of Nineteenth-Century Consumer Behavior in Melbourne, Australia, and Buenos Aires, Argentina Pamela Ricardi, 2019-07-23 This book compares consumer behavior in two nineteenth century peripheral cities Melbourne Australia and Buenos Aires Argentina It provides an analysis of domestic archaeological assemblages from two inner city working class neighborhood sites that were largely populated by recently arrived immigrants The book also uses primary historical documents to assess the place of these cities within global trade networks and explores the types of goods arriving into each city By comparing the assemblages and archival data it is possible to explore the role of choice ethnicity and class on consumer behavior This

approach is significant as it provides an archaeological assessment of consumer behavior which crosses socio political divides comparing a site within a British colony to a site in a former Spanish colony in South America As two geographically politically and ethnically distinct cities it was expected that archaeological and archival data would reveal substantial variation In reality differences although noted were small Broad similarities point to the far reaching impact of colonialism and consumerism and widespread interconnectedness during the nineteenth century This book demonstrates the wealth of information that can be gained from international comparisons that include sites outside the British Empire
