National Resources Committee,1938 *Consumer Incomes in the United States* United States. National Resources Committee. Industrial Committee,Hildegarde Kneeland,1938 **From Slavery to Poverty** Gunja SenGupta,2010-11 The racially charged stereotype of welfare queen an allegedly promiscuous waster who uses her children as meal tickets funded by tax payers is a familiar icon in modern America but as Gunja SenGupta reveals in From Slavery to Poverty her historical roots run deep For SenGupta argues the language and institutions of poor relief and reform have historically served as forums for inventing and negotiating identity Mining a broad array of sources on nineteenth century New York City s interlocking network of private benevolence and municipal relief SenGupta shows that these institutions promoted a racialized definition of poverty and citizenship But they also offered a framework within which working poor New Yorkers recently freed slaves and disfranchised free blacks Afro Caribbean sojourners and Irish immigrants sex workers and unemployed laborers and mothers and children could challenge stereotypes and offer alternative visions of community Thus

SenGupta argues long before the advent of the twentieth century welfare state the discourse of welfare in its nineteenth century incarnation created a space to talk about community race and nation about what it meant to be American who belonged and who did not Her work provides historical context for understanding why today the notion of welfare with all its derogatory un American connotations is associated not with middle class entitlements like Social Security and Medicare but rather with programs targeted at the poor which are wrongly assumed to benefit primarily urban African Americans
