## **Family Casework Diagnosis:**

*Family Casework Diagnosis* Alice L. Voiland, 1962      **Patterns of Social Functioning in Families with Marital and Parent-Child Problems** Gerson David, 1967-12-15 The work reported in this book represents the first attempt to study a sample of client families with marital and parent child problems using a systematic framework based on role theory The findings of the study are important and made more so by the consistency of the framework the dimensions of family behaviour can be accurately studied because the techniques of observation used are constant This work conducted under the auspices of the Toronto Family Diagnosis Project School of Social Work at the University of Toronto is an impressive contribution to two areas of social work it offers new observations regarding family life that will be of particular interest to professionals and researchers in the field of family and child welfare and its technical framework will be of interest to all social workers      **Family Casework Diagnosis** Alice L. Voiland, 1961      Diagnosis in Social Work Francis J

Turner, 2013-04-03 How can you make necessary professional judgments without being judgmental Assessment and diagnostic skills are essential professional tools for the social worker but all too often they are neglected or downplayed Diagnosis in Social Work argues for the reinstatement of social diagnosis to its former place as an essential concept in social work This courageous book demonstrates the detrimental impact of the loss of diagnostic skills on the quality of social work intervention Combining meticulous history with insightful analysis Diagnosis in Social Work shows how the concept of diagnosis in social work has been misunderstood It examines the negative narrow definition of diagnosis offered in commonly used texts Diagnosis in Social Work includes the tools you need to use the power of correct careful diagnosis including case examples of social work diagnoses a thorough profile of the judgments constituting a social work diagnosis suggestions to enhance diagnostic acumen an analysis of diagnosis as a process and a fact ways to use computers in diagnosis an assessment of the risks of diagnosis Diagnosis in Social Work includes everything social work practitioners need to know about the process and meaning of this sorely neglected part of the field It is an ideal textbook as well and it offers suggestions for further research      Family Therapy National Clearinghouse for Mental Health Information (U.S.), 1965

**New Developments in Casework** Eileen Younghusband, 2021-11-07 Originally published in 1966 this book gives examples of the most advanced thought about casework by well known writers in England and the United States at the time The ground covered includes the use of some current sociological theory in casework analysis of the interpersonal relationships in casework new thought about the appropriate use of authority with people whose own internal controls are weak and unreliable and recent advances in understanding and working with people who respond to action more easily than to words These articles by well known authorities illustrate the increased range of insight and skill required of modern caseworkers and at the same time are highly readable conveying complex ideas in language refreshingly free from jargon

*Family Therapy* National Institute of Mental Health (U.S.). Community Research and Services Branch, National

Clearinghouse for Mental Health Information (U.S.),1966      Family Casework Diagnosis Alice L. Voiland,1961      Kinship and Casework Hope Jensen Leichter,William E. Mitchell,Candec Rogers,Judith Lieb,1967-12-31 Reaffirms the importance of the larger kinship network through analysis of extensive data on the clients of one social agency The authors show that the less kinship oriented caseworkers often attempt to change clients kin relationships in the direction of less involvement raising questions about value differences in therapeutic practice The book also points to the importance of concepts such as those dealing with family kinship that will enable the caseworker to appraise the client s social relationships more fully The authors emphasize the benefits to be derived from a closer liaison between social work and social science      **Children**,1963      **Social Casework** Helen Harris Perlman,1957-03-15 This is a basic book in social casework Its thesis is that among all the complexities within the subject matter and operations of casework there are certain constant elements forces and processes which give coherence and unity to its practice Mrs Perlman identifies and analyzes these constants and views them within the logical framework of problem solving In turn problem solving as a casework process is examined in its likeness to normal human problem solving efforts The result is an approach to learning and thinking about casework which is at once organized synthesized and imaginative The book s usefulness is enhanced by the author s lucid and pointed style      *Some Results of Two Years' Study of Family Case Work Statistics* Ralph Gibney Hurlin,1928      **Clinical Interventions in Systemic Couple and Family Therapy** Roberto Pereira,Juan Luis Linares,2018-07-06 This timely update presents modern directions in systemic therapy practice with couples and families focusing on clinical innovations from Italy Portugal and Spain Top therapists discuss their breakthrough family work in treating familiar pathologies such as depression borderline personality disorder infidelity and addictions providing first hand insight into meeting relational dysfunction with creativity and resourcefulness The book applies novel conceptualizations and fresh techniques to complex situations including multi problem families involuntary clients disability related issues anorexia love and sex in aging and family grief From tapping into the strengths of siblingship to harnessing the therapeutic potential of the Internet the book s cases illustrate the rich variety of opportunities to improve client outcomes through systemic couple and family therapy This practical guide Demonstrates strategies for therapists to improve practice Exemplifies methods for reducing the gap between clinical theory and practice Identifies multiple dimensions of systems thinking in case formulation and therapy Offers new insights into treating classic and recent forms of psychopathology Provides a representative picture of couple and family therapy in southern Europe Clinical Interventions in Systemic Couple and Family Therapy is of particular relevance to practitioners and clinicians working within couple and family therapy and is also of interest to other professionals working in psychotherapy and professional mental health services      *Family Casework Diagnosis, Alice L.
