Grief After Suicide John R. Jordan,John L. McIntosh,2011-01-19 here are over 38 000 suicide deaths each year in the

United States alone and the numbers in other countries suggest that suicide is a major public health problem around the world. A suicide leaves behind more victims than just the individual as family, friends, co-workers, and the community can be impacted in many different and unique ways following a suicide. And yet there are very few professional resources that provide the necessary background, research, and tools to effectively work with the survivors of a suicide. This edited volume addresses the need for an up-to-date professionally oriented summary of the clinical and research literature on the impact of suicide bereavement on survivors. It is geared towards mental health professionals, grief counselors, clergy, and others who work with survivors in a professional capacity. Topics covered include the impact of suicide on survivors, interventions to provide bereavement care for survivors, examples of promising support programs for survivors, and developing a research, clinical, and programmatic agenda for survivors over the next 5 years and beyond. *American Book Publishing Record*, 1999.

The Local History of Bennington, 1860-1883 Hiland Hall, 1900. *Song Lyrics and Literary History* Gunilla Hermansson, 2025-06-12. Paving new paths for the study of the history of literature, this study explores the intricate networks of one single poem across two centuries: the *Vrvindar friska*, a poem meant to be sung. The Swedish song *Vrvindar friska* (Fresh Spring Breezes) started its public life in 1828 between the covers of a book as a poem written to a traditional melody. Since then, it has been reprinted, translated, performed, and used in the most surprising contexts in different corners of the world. This particular case may be rather exceptional, but Gunilla Hermansson argues that the underlying dynamics are not, and yet they have been underexposed in studies of literary history. This exploration of *Vrvindar friska* reveals the rich and intricate network of one text and uncovers new facets of how people have engaged with word art in their everyday lives in the modern era. This network includes untraditional yet widespread uses of poetry and lyrics in lonely hearts columns and railway work and seemingly strange bedfellows such as a constellation of Nordic folk songs and American plantation songs. The afterlives of this song evoke questions concerning class, gender, race, citizenship, technology, and modernity from new angles as well as theoretical and methodological questions of circulation, textual instability, canonization, paradigmatic turns, uses, and misuses. *Song Lyrics and Literary History* demonstrates how poetry is transformed when shared across time, borders, media, and social and ideological divides. Being attentive to poetry meant to be sung, Hermansson argues, opens to a fuller and more representative picture of the cultural history of literature. *The Thomas Lamont Family* Corliss Lamont, 1962.
