Family Night:

Living Simply with Children Marie Sherlock, 2010-05-26 Raising children ranks as one of life's most rewarding adventures. Yet between Mom and Dad working full-time jobs, endless carpooling of overscheduled youngsters and the never-ending pressures to buy and consume, family life can be incredibly needlessly complex. What if you could find a way to spend more time with your children, replace unnecessary activities with meaningful ones, and teach your children an invaluable life lesson in the process? Living Simply with Children offers a realistic blueprint for zeroing in on the pleasures of family life. How and why to live simply and find more time to be with your children. Activities and rituals that bring out the best in every family member. Realistic ways to reclaim your children from corporate America. Helping children of any age deal with peer pressure. Raising kids who care about people and the planet. How to focus on the good stuff with less stuff. Including sections on limiting television, environmentally friendly practices, celebrating the holidays, and tapping into the growing community of families who embrace simplicity, this inspiring guide will show you how to raise children according to your own values and not those of the consumer culture as you enjoy both quality and quantity time with your family.

Family Night Maria Flook, 1993 *Family Night* cracks open one American family and shows us the values and the dysfunctions that make up the gothic attractions within it. At the center of this family stands a mysterious father figure whom Margaret and her stepbrother Cam have never met. All they know is that he had been a model, the last Arrow Collar Man. Tracy, Margaret's lover, ever eager to enrich his encyclopedic awareness of fixations, cajoles Margaret and Cam into a trip to find this absent father. The Arrow Collar Man as missing patriarch. Margaret, Cam, and Tracy themselves haunted by recent divorces by their own children by their undecided instincts set out in a powder blue Plymouth Duster on an unpredictable journey through the intimacies, obligations, and obsessions that bind us to each other. *Family Night* is an American family romance that neither Freud nor James Cain could have imagined.

ADHD Laura A. Riffel, Ph.D.,Jessica R. Eggleston,2016-08-29 This booklet describes techniques classroom teachers can use to do three things to ameliorate behavior for children with ADHD 1 revise the environment to set the student up for success 2 replace the behavior by teaching an alternative behavior that is socially acceptable and 3 reframing the response so the behavior is not fed by the behavior of the adult We call this the Three R s which are based on the Three T s The three T s are 1 Trigger what sets the behavior in motion 2 Target what behavior are you wanting to target for change in measurable and observable terms and 3 impacT what is the student trying to gain or escape by having this behavior So the three T s Trigger Target impacT form the basis for the three R s Revise Replace Reframe It s simple and Dr Riffel s presentation that coincides with this book is color coded to help you remember which of the sections you are addressing with each intervention

Democratic Education in Practice Matthew Knoester,2015-04-25 The Mission Hill School founded by MacArthur Award winner Deborah Meier and colleagues in 1997 is a small public school that has rethought almost everything about the process of teaching and learning Beyond richly describing and evaluating this high achieving school the author argues that democratic education is increasingly difficult in this era of testing and standardization and that a school such as Mission Hill must be continually thoughtful innovative and courageous in counteracting systemic inequality This in depth examination is

essential reading for anyone interested in how to better understand seemingly intractable problems related to urban public education in the United States Book Features An exemplary model of democratic education that shows the inner workings of a largely teacher governed school A rare example of an urban school implementing Dewey influenced progressive pedagogy In depth descriptions of an anti racist and culturally relevant pedagogy and curriculum A close examination of successful practices including shared decision making intensive problem solving and looking at student work Matthew Knoester is a National Board Certified Teacher and former teacher at the Mission Hill School in Boston He received his Ph D in Curriculum and Instruction from the University of Wisconsin Madison and is currently Assistant Professor of Education at the University of Evansville Matthew Knoester has done us an enormous favor by showing us in detail what could be one example of how schools can be the building blocks for democracy recreating community for all to taste feel hear and see From the Foreword by Deborah W Meier This is exactly the kind of book that is so necessary at this time Schools can be respectful responsive and caring places Matthew Knoester gives us a detailed picture of such a school If more people would read books such as this the national debate on education would be all the better for it Michael W Apple John Bascom Professor of Curriculum and Instruction and Educational Policy Studies University of Wisconsin Madison Knoester s account of the Mission Hill School captures the habits of mind needed if public schools are to be truly democratic in spirit and in practice centered on the children and as Deborah Meier so powerfully advocates protected from those policies and social forces that accept and perpetuate disengagement and inequality in our children s education Linda McSpadden McNeil Professor of Education Rice University author of Contradictions of School Reform To those who have never seen the Mission Hill School in Boston it may sound like a magical place The good news is that it is real and Knoester shows us through his compelling narrative how and why they have been able to achieve so much For educators students and parents this book will be a source of inspiration At a time when our policymakers and many so called reformers are actively undermining support for public education this important book will serve as a reminder that we can do a much better job at educating all children Pedro Noguera Executive Director Metropolitan Center for Urban Education New York University
