Family Photographs Content Meaning And Effect:

The Familial Gaze Marianne Hirsch,1999 Contemporary artists writers and theorists challenge standard interpretations of family photographs *Family Photographs* Julia Hirsch,1981 Discusses the requirements of group portraiture and the way in which family photographs record aspects of family politics *Children Remembered* Robert Woods,2006-01-01 *Children Remembered* discusses the relationship between parents and children in the past It focuses on the ways in which adults responded to the untimely deaths of children whether and how they expressed their grief The study engages with the hypothesis of parental indifference associated with the French cultural historian Philippe Ariès by analysing the changing risk of mortality since the sixteenth century and assessing its consequences It uses paintings and poems to describe feelings and emotions in ways that are not only highly original but also challenge traditional disciplinary conventions The circumstances of infant and child mortality are considered for France and England while example portraits and poems are selected from England and America While the work is firmly grounded in demography it is especially concerned with current debates in social and cultural history with the history of childhood the way pictorial images can be read and the use as historical evidence to which literature may be put This is a wide ranging and ambitious multi disciplinary study that will add significantly to our understanding of demographic structures the ways in which they have conditioned attitudes and behaviour in the past

Doing Family Photography Gillian Rose,2016-05-13 Family photography a ubiquitous domestic tradition in the developed world is now more popular than ever thanks to the development of digital photography Once uploaded to PCs and other gadgets photographs may be stored deleted put in albums sent to relatives and friends retouched or put on display Moreover in recent years family photographs are more frequently appearing in public media on posters in newspapers and on the Internet particularly in the wake of disasters like 9 11 and in cases of missing children Here case study material drawn from the UK offers a deeper understanding of both domestic family photographs and their public display Recent work in material culture studies geography and anthropology is used to approach photographs as objects embedded in social practices which produce specific social positions relations and effects Also explored are the complex economies of gifting and exchange amongst families and the rich geographies of domestic and public spaces into which family photography offers an insight

[The African Photographic Archive](#) Christopher Morton,Darren Newbury,2020-10-15 African photography has emerged as a significant focus of research and scholarship over the last twenty years the result of a growing interest in postcolonial societies and cultures and a turn towards visual evidence across the humanities and social sciences At the same time many rich and fascinating photographic collections have come to light This volume explores the complex theoretical and practical issues involved in the study of African photographic archives based on case studies drawn from across the continent dating from the 19th century to the present day Chapters consider what constitutes an archive from the familiar mission and state archives to more local vernacular and personal accumulations of photographs the

importance of a critical and reflexive engagement with photographic collections and the question of where and what is Africa as constructed in the photographic archive Essential reading for all researchers working with photographic archives this book consolidates current thinking on the topic and sets the agenda for future research in this field Camera Clues Joe Nickell,2010-09-12 In *Camera Clues* Joe Nickell shares his methods of identifying and dating old photos and demonstrates how to distinguish originals from copies and fakes Particularly intriguing are his discussions of camera tricks darkroom manipulations retouching techniques and uses of computer technology to deceive the eye *Camera Clues* concludes with a look at allegedly paranormal photography from nineteenth century spirit photographs to UFO snapshots Doing Family in Second-Generation British Migration Literature Corinna Assmann,2018-09-24 Due to the large scale global transformations of the 20th century migration literature has become a vibrant genre over the last decades In these novels issues of transcultural identity and belonging naturally feature prominently This study takes a closer look at the ways in which the idea of family informs processes of identity construction It explores changing roles and meanings of the diasporic family as well as intergenerational family relations in a migration setting in order to identify the specific challenges problems and possibilities that arise in this context This book builds on insights from different fields of family research e g sociology psychology communication studies memory studies to provide a conceptual framework for the investigation of synchronic and diachronic family constellations and connections The approach developed in this study not only sheds new light on contemporary British migration literature but can also prove fruitful for analyses of families in literature more generally By highlighting the relevance and multifaceted nature of doing family this study also offers new perspectives for transcultural memory studies **Mass Photography** Annebella Pollen,2020-09-09 With increasingly accessible camera technology crowdsourced public media projects abound like never before Such projects often seek to secure a snapshot of a single day in order to establish communities and create visual time capsules for the future *Mass Photography* Collective Histories of Everyday Life assesses the potential of these popular moment in time projects by examining their current day prevalence and their historical predecessors Through archival research and interviews with organisers and participants it examines for the first time the vast photographic collections resulting from such projects analysing their structures and systems their aims and objectives and their claims and promises The central case study is the 55 000 photographs submitted to One Day for Life in 1987 which aimed in its own time to be the biggest photographic event the world had ever seen *The Camera Does the Rest* Peter Buse,2016-05-27 In a world where nearly everyone has a cellphone camera capable of zapping countless instant photos it can be a challenge to remember just how special and transformative Polaroid photography was in its day And yet there s still something magical for those of us who recall waiting for a Polaroid picture to develop Writing in the context of two Polaroid Corporation bankruptcies not to mention the obsolescence of its film Peter Buse argues that Polaroid was and is distinguished by its process by the fact that as the New York Times put it in 1947 the camera does the rest Polaroid was often

dismissed as a toy but Buse takes it seriously showing how it encouraged photographic play as well as new forms of artistic practice Drawing on unprecedented access to the archives of the Polaroid Corporation Buse reveals Polaroid as photography at its most intimate where the photographer photograph and subject sit in close proximity in both time and space making Polaroid not only the perfect party camera but also the tool for frankly salacious pictures taking Along the way Buse tells the story of the Polaroid Corporation and its ultimately doomed hard copy wager against the rising tide of digital imaging technology He explores the continuities and the differences between Polaroid and digital reflecting on what Polaroid can tell us about how we snap photos today Richly illustrated The Camera Does the Rest will delight historians art critics analog fanatics photographers and all those who miss the thrill of waiting to see what develops **Motherhood and Space** C. Wiedmer, S. Hardy, 2016-04-30 This is a collection of essays on the spatial dimensions of motherhood Engaging both theoretical and empirical perspectives contributors describe the intersection of space and gender across a variety of contexts with both familiar and unexpected territories explored School Photos in Liquid Time Marianne Hirsch, Leo Spitzer, 2019-12-30 From clandestine images of Jewish children isolated in Nazi ghettos and Japanese American children incarcerated in camps to images of Native children removed to North American boarding schools classroom photographs of schoolchildren are pervasive even in repressive historical and political contexts School Photos in Liquid Time offers a closer look at this genre of vernacular photography tracing how photography advances ideologies of social assimilation as well as those of hierarchy and exclusion In Marianne Hirsch and Leo Spitzer's deft analysis school photographs reveal connections between the histories of persecuted subjects in different national and imperial centers Exploring what this ubiquitous and mundane but understudied genre tells us about domination as well as resistance the authors examine school photos as documents of social life and agents of transformation They place them in dialogue with works by contemporary artists who reframe remediate and elucidate them Ambitious yet accessible School Photos in Liquid Time presents school photography as a new access point into institutions of power revealing the capacity of past and present actors to disrupt and reinvent them

Anthony,2023-03-07 This book illuminates the fascinating story and visual legacy of Florestine Perrault Collins who documented African American life in New Orleans between 1920 and 1949 *The Qualified Self* Lee Humphreys,2018-04-13 How sharing the mundane details of daily life did not start with Facebook Twitter and YouTube but with pocket diaries photo albums and baby books Social critiques argue that social media have made us narcissistic that Facebook Twitter Instagram and YouTube are all vehicles for me promotion In *The Qualified Self* Lee Humphreys offers a different view She shows that sharing the mundane details of our lives what we ate for lunch where we went on vacation who dropped in for a visit didn t begin with mobile devices and social media People have used media to catalog and share their lives for several centuries Pocket diaries photo albums and baby books are the predigital precursors of today s digital and mobile platforms for posting text and images The ability to take selfies has not turned us into needy narcissists it s part of a longer story about how people account for everyday life Humphreys refers to diaries in which eighteenth century daily life is documented with the brevity and precision of a tweet and cites a nineteenth century travel diary in which a young woman complains that her breakfast didn t agree with her Diaries Humphreys explains were often written to be shared with family and friends Pocket diaries were as mobile as smartphones allowing the diarist to record life in real time Humphreys calls this chronicling in both digital and nondigital forms media accounting The sense of self that emerges from media accounting is not the purely statistics driven quantified self but the more well rounded qualified self We come to understand ourselves in a new way through the representations of ourselves that we create to be consumed **The People of the Book and the Camera** Ofra Amihay,2022-06-30 Amihay offers a pioneering study of the unique nexus between literature and photography in the works of Hebrew authors Exploring the use of photography both as a textual element and through the inclusion of actual images Amihay shows how the presence of visual elements in a textual work of fiction has a powerful subversive function Contemporary Hebrew authors have turned to photography as a tool to disrupt narratives and give voice to marginalized sectors in Israel including women immigrants Mizrahi Israelis LGBTQ individuals second generation Holocaust survivors and traumatized army veterans Amihay discusses standard novels alongside graphic novels challenging the dominance of the written word in literature In addition to providing a poetic analysis of imagetext pages Amihay addresses the social and political issues authors are responding to including gender roles Zionism the ethnic divide in Israel and its Palestinian minority In exploring these avant garde novels and their authors Amihay elevates their significance and calls for a more expansive definition of canonical Hebrew literature

Picturing the Family Silke Arnold-de Simine,Joanne Leal,2020-08-04 Whether pasted into an album framed or shared

on social media the family photograph simultaneously offers a private and public insight into the identity and past of its subject Long considered a model for understanding individual identity the idea of the family has increasingly formed the basis for exploring collective pasts and cultural memory *Picturing the Family* investigates how visual representations of the family reveal both personal and shared histories evaluating the testimonial and social value of photography and film Combining academic and creative practice based approaches this collection of essays introduces a dialogue between scholars and artists working at the intersection between family memory and visual media Many of the authors are both researchers and practitioners whose chapters engage with their own work and that of others informed by critical frameworks From the act of revisiting old personal photographs to the sale of family albums through internet auction the twelve chapters each present a different collection of photographs or artwork as case studies for understanding how these visual representations of the family perform memory and identity Building on extensive research into family photographs and memory the book considers the implications of new cultural forms for how the family is perceived and how we relate to the past While focusing on the forms of visual representation above all photographs the authors also reflect on the contextualization and remediation of photography in albums films museums and online

Beyond the Traveller's Gaze Giorgia Alù, 2008 This book offers a stimulating analysis of three non canonical texts in different genres written by British women who lived in Sicily in the second half of the nineteenth and the beginning of the twentieth centuries These texts cover a series of crucial political events as well as social and cultural changes which affected the history of Sicily during the period in question all seen through the direct and indirect experiences of the authors The book offers a historical perspective on the late Victorian and Edwardian representations of post Unification Italy At the same time the author challenges current critical literature on travel writing which tends to analyse travel texts without making substantial distinction between works written during a brief visit to a foreign country and those produced during a long term or permanent residence The book adopts an interdisciplinary comparative approach The three texts are studied by looking at patterns of connection in other written and visual works produced during or after an experience in Italy By drawing on theories of travel writing genre and gender along with visual and cultural studies the author aims to verify how the three texts respond to being analysed as a distinct group and hence define the specific roles and functions of expatriate women's writing

Gender, Violence and Power in Indonesia Katharine McGregor, Ana Dragojlovic, Hannah Loney, 2020-03-13 This book uses an interdisciplinary approach to chart how various forms of violence domestic military legal and political are not separate instances of violence but rather embedded in structural inequalities brought about by colonialism occupation and state violence The book explores both case studies of individuals and of groups

to examine experiences of violence within the context of gender and structures of power in modern Indonesian history and Indonesia related diasporas It argues that gendered violence is particularly important to consider in this region because of its complex history of armed conflict and authoritarian rule the diversity of people that have been affected by violence as well as the complexity of the religious and cultural communities involved The book focuses in particular on textual narratives of violence visualisations of violence commemorations of violence and the politics of care **Images of Childhood** Paul

Duncum, 2023-07-13 Drawing on a rich legacy of pictorial evidence *Images of Childhood* examines historical constructions of childhood and how they reinforce or challenge the prevailing view of childhood as a state of innocence Each chapter explores how visual elements such as framing points of view and lighting as well as clothes accessories and body language help to construct our many different conceptions of children from members of the family unit and assumed gender roles to schooling and aesthetic objects through to their economic value and use in political propaganda Skillfully navigating a multitude of perspectives on this topic Paul Duncum considers both how our ideas beliefs and values have changed throughout history and how some have remained unchanged He also explores the cultural notion of the child within and how this has contributed to the way adults perceive children The result is a text far broader in scope than any other in its field as art history is interweaved with contemporary popular culture to explore how we visually represent childhood In doing so the book highlights the real life implications that these representations have on children's rights
