Family Realities:

The Changing Realities of Work and Family Amy Marcus-Newhall, Diane F. Halpern, Sherylle J. Tan, 2009-01-30 Changing Realities of Work and Family is an interdisciplinary volume that examines the multiple realities of work and family from academic, commercial, and political perspectives. The book brings together works by an extraordinary list of contributors including Jane Swift, former governor of Massachusetts; practitioners from industry; the leading attorney in discrimination against mothers and pregnant women; and outstanding academics from psychology, business, economics, and human relations. Examines work and family in the political arena; gay and lesbian workers; work and family as it relates to age; single mothers; and the role of culture and community. Includes original empirical articles written expressly for this work in which the most current research on the field of work and family will be presented. Provides real world examples of the intersection of work and family in such fields as business, government, and the law.

Family Realities Betty Yorburg, 2002 This comprehensive introduction to the sociology of family helps integrate a vast amount of subject within a unifying theoretical perspective. Applying the latest social science research, the text compares and explains current trends in family life and provides an interdisciplinary analysis of changing family realities in major societies both historically and today. The text defines the basic concepts of changing family realities, finding a partner, transitions, and the probable and the possible families of the future. For individuals interested in exploring the family structure of past, present, and future.

Aging and Family Therapy George Hughston, Victor Christopherson, Marilyn Bojean, 2013-04-15 Enhance the intervention strategies you use in therapy with older adults and their families. This significant new book provides practitioners with information, insight, reference sources, and other valuable tools that will contribute to more effective intervention with the elderly and their families. Outstanding scholars have contributed original material that addresses the major issues in treating the elderly from the practitioner's point of view. The biological, psychological, social, and spiritual concerns of the aged are examined in order to formulate a systemic and comprehensive treatment plan. Destined to become a classic in a challenging new area of psychotherapy, the unique Aging and Family Therapy promises to guide and inform practitioners who will be called upon to provide assistance to the increasing number of older adults who will be in need of mental health services.
