Family And Citizenship Values In Contemporary Britain:

Family and Citizenship Noel Timms,1992 Based on work carried out in conjunction with the European Values System Study Group this book addresses a range of questions concerning the nature of contemporary social bonds *The Blackwell Companion to Sociology of Religion* Richard K. Fenn,2008-04-15 The Blackwell Companion to Sociology of Religion is presented in three comprehensive parts Written by a range of outstanding academics the volume explores the current status of the sociology of religion and how it might look in future Explores the current status of the sociology of religion and how it might look at the beginning of the next millennium Traces the boundaries between sociology and other closely related disciplines such as theology and social anthropology Edited by one of the best known and most widely respected sociologists of religion Accessibly presented in three comprehensive parts **Moral Leadership in a Postmodern Age** Robin Gill,1997-02-01 Robin Gill examines the issues that connect faith and moral leadership in an increasingly fragmented and relativistic world Rethinking Multiculturalism Bhikhu C. Parekh,2002 Bhikhu Parekh argues for a pluralist perspective on cultural diversity Writing from both within the liberal tradition and outside of it as a critic he challenges what he calls the moral monism of much of traditional moral philosophy including contemporary liberalism its tendency to assert that only one way of life or set of values is worthwhile and to dismiss the rest as misguided or false He defends his pluralist perspective both at the level of theory and in subtle nuanced analyses of recent controversies Thus he offers careful and clear accounts of why cultural differences should be respected and publicly affirmed why the separation of church and state cannot be used to justify the separation of religion and politics and why the initial critique of Salman Rushdie before a Fatwa threatened his life deserved more serious attention than it received Rejecting naturalism which posits that humans have a relatively fixed nature and that culture is an incidental and culturalism which posits that they are socially and culturally constructed with only a minimal set of features in common he argues for a dialogic interplay between human commonalities and cultural differences This will allow Parekh argues genuinely balanced and thoughtful compromises on even the most controversial cultural issues in the new multicultural world in which we live *Human Values and Beliefs* Ronald F. Inglehart,Miguel Basanez,Alejandro Moreno,1998-05-18 Provides a wealth of information about values and beliefs of people all over the world *Religion in Modern Europe* Grace Davie,2000-08-03 Religion in Modern Europe examines religion as a form of collective memory This is a memory held in place by Europe s institutional churches educational systems and the mass media all of which are themselves responding to rapid social and economic change Europe s religious memory is approached in the following ways as vicarious a particularly European characteristic as precarious especially among young people and as it is portrayed by the media The memory may fragment be disputed and in extreme cases disappear Alternatives may emerge The challenge for European societies is to affirm healthy mutations in religious memory and discourage others The book also examines the increasing diversity of Europe s religious life European Societies Series Series Editor Colin Crouch Very few of the existing

sociological texts which compare different European societies on specific topics are accessible to a broad range of scholars and students The European Societies series will help fill this gap in the literature and attempt to answer questions such as Is there really such a thing as a European model of society Do the economic and political integration processes of the European Union also imply convergence in more general aspects of social life like family or religious behaviour What do the societies of Western Europe have in common with those further to the east This series will cover the main social institutions although not every author will cover the full range of European countries As well as surveying existing knowledge in a way that will be useful to students each book will also seek to contribute to our growing knowledge of what remains in many respects a sociologically unknown continent

Society Shaped by Theology Robin Gill, 2017-05-15 Over the last thirty years a number of theologians have been using aspects of sociology alongside the more traditional resources of philosophy In turn sociologists with an interest in theology have also contributed to an interaction between theology and sociology The time is right to revisit the dialogue between theologians and sociologists In his new trilogy on Sociological Theology Robin Gill makes a renewed contribution to the mapping of three abiding ways of relating theology and sociology with the three volumes covering Theology in a Social Context Theology Shaped by Society Society Shaped by Theology Society Shaped by Theology explores the possibility that theological concepts may sometimes still be influential in the modern world It follows in the tradition of Max Weber arguing that theological virtues and debates can at times be transposed wittingly or unwittingly into society at large Robin Gill examines the unusual instance of the public debate about Honest to God in the 1960s but then turns to the current debate about faith and social capital adding fresh and unexpected evidence Finally Gill argues that bioethics in the public domain especially on global issues such as AIDS can be enriched and deepened by a judicious use of theological virtues

The Salt of the Earth Martyn Percy, 2016-10-06 This is a sparkling collection of essays by one of Britain's best known and acute commentators of the church scene and of contemporary religious life Martyn Percy explores new liberalism the churches and human rights in the European Union football and religion pilgrimage demonology common spirituality religious attitudes to nudity and the relationship between religion and advertising The argument running throughout this book is that despite claims and the appearance of increasing secularity the influence of religious themes and values on our everyday life remains pervasive

Encyclopedia of Global Religion Mark Juergensmeyer, Wade Clark Roof, 2012 Presents entries A to L of a two volume encyclopedia discussing religion around the globe including biographies concepts and theories places social issues movements texts and traditions

The 'Empty' Church Revisited Robin Gill, 2018-01-12 This title was first published in 2003 When did churches start to appear more empty than full and why The very physicality of largely empty churches and chapels in Britain plays a powerful role in popular perceptions of religion Empty churches are frequently cited in the media as

evidence of large scale religious decline The Empty Church Revisited presents a systematic account of British churchgoing patterns over the last two hundred years uncovering the factors and the statistics behind the considerable process of decline in church attendance Dispelling as myth the commonly held views that the process of secularization in British culture has led to the decline in churchgoing and resulted in the predominantly empty churches of today Gill points to physical factors economics and issues of social space to shed new light on the origins of empty churches This thoroughly updated edition of Robin Gill s earlier work The Myth of the Empty Church presents new data throughout to explore afresh the paradox of church building activity in a context of decline the patterns of urbanisation followed by sub urbanisation affecting churches changes in patterns of worship and changes within the sociology of religion in the last decade A Europe of Neighbours? Andrew Queen Morton,1999 *Social Europe* Joe Bailey,2014-06-03 Since the first edition of Social Europe was published in 1992 profound social changes have occurred throughout Europe as a result of conflicting pressures on the one hand to become more integrated and on the other to protect national interests and identity This second edition of Social Europe has been fully revised to provide a comprehensive and focused account of basic social issues and structures which provide the context for these changes Each chapter covers a key topic such as education crime gender health and religion and provides valuable comparisons between the key nation states of Western Europe How to Make Sense of God J. N. M. Wijngaards,John N. Wijngaards,1995 Does God exist In this modern scientific age is it still reasonable to believe in God Does God cause evil How can an all good God allow the suffering of innocent children In 65 brief readable chapters How to Make Sense of God answers these and many other basic questions about God s love and care the pgift of human freedom and the real power of prayer Wijngaards shows clearly and convincingly why belief is in fact eminently reasonable in the modern world **Modern France** Malcolm Cook,Grace Davie,1999 Modern France is an up to date and accessible introduction to the nature of French society at the end of the twentieth century The book examines the transition of France and French life as the nation moves from an industrial to a post industrial economy and the cultural and social dislocations that such an evolution implies Sociological concepts and categories of class race gender age and region are discussed as well as how they combine together to produce inequalities and identities These concepts are then applied to a range of issues such as work politics education health religion and leisure Modern France reveals the nature of French society at a critical moment in her evolution and how a member of the European Union reflects distinctiveness and commonality in the development of Europe as a whole British Social Attitudes Roger Jowell,1992 Britain is on the whole a well documented nation We know or are able to find out a great deal about our characteristics as a society who we are and what we do But we know muc less about our character what we think about our world and ourselves Very little systematic material is publicly available on the nation s values whether or how they have been changing and the extent to which different sections of the population vary in their attitudes and beliefs British Social Attitudes compiles describes and comments upon a wide range of current social attitudes

The information is obtained from around 3000 interviews carried out by SCPR among a nationwide sample in an annual series of surveys. The series seeks to chart changes in British social values during the 1980s and 1990s in relation to other changes in society and is core funded by the Sainsbury Family Charitable Trusts. *Changing Family Policies in the Member States of the European Union* W. A. Dumon, 1994

Women Writers and the Early Modern British Political Tradition Hilda L. Smith, 1998-03-26

This collection of essays includes studies of women's political writings from Christine de Pizan to Mary Wollstonecraft and explores in depth the political ideas of the writers in their historical and intellectual context. The volume illuminates the limitations placed on women's political writings and their broader political role by the social and scholarly institutions of early modern Europe. In so doing, the authors probe legal and political restraints, distinct national and state organisation and assumptions concerning women's proper intellectual interests. In this endeavour, the volume explores questions and subjects traditionally ignored by historians of political thought and little considered even by current feminist theorists: groups who give slight attention to women's political ideas or place women's writings within the social and intellectual structures from which they emerged and which they helped to shape.

Religion in Contemporary Europe John Fulton, Peter Gee, 1994

In this volume, leading academic authorities on the social analysis of religion examine its contemporary role in Europe. The book traces the shifting shape of European religion and reviews the interaction of theology and politics in shaping European cultural identity.
