*Behind Ghetto Walls* Michael Novak, 2017-09-08 This book is about the family lives of some 10 000 children and adults who live in an all Negro public housing project in St Louis The Pruitt Igoe project is only one of the many environments in which urban Negro Americans lived in the 1960s but the character of the family life there shares much with the family life of lower class Negroes as it has been described by other investigators in other cities and at other times in Harlem Chicago New Orleans or Washington D C This book is primarily concerned with private life as it is lived from day to day in a federally built and supported slum The questions which are treated here have to do with the kinds of interpersonal relationships that develop in nuclear families the socialization processes that operate in families as children grow up in a slum environment the informal relationships of children and adolescents and adults with each other and finally the world views the existential framework arising from the life experiences of the Pruitt Igoeans and the ways they make use of this framework to order their experiences and make sense out of them The lives of these persons are examined in terms of life cycles Each child there is born into a constricted world the world of lower class Negro existence and as he grows he is shaped and directed by that existence through the day to day experiences and relationships available to him The crucial transition from child of a family to progenitor of a new family begins in adolescence and for this reason the book pays particular attention to how each new generation of parents expresses the cultural and social structural forces that formed it and continue to constrain its behavior This book in short is about intimate personal life in a particular ghetto setting It does

not analyze the larger institutional social structural and ideological forces that provide the social economic and political context in which lower class Negro life is lived These larger macro sociological forces are treated in another volume based on research in the Pruitt Igoe community However this book does draw on the large body of literature on the structural position of Negroes in American society as background for its analysis of Pruitt Igoe private life *The Blackwell Companion to the Sociology of Families* Jacqueline Scott, Judith Treas, Martin Richards, 2008-04-15 Tackling issues relevant to family life today this authoritative Companion shows why studying social change in families is fundamental for understanding the transformations in individual and social life across the globe Contains original essays by expert contributors on a wide range of topics relating to the sociology of families Includes coverage of social inequality parenting practices children's work the changing patterns of citizenship and multi cultural families Gives special attention to European and North American examples Discusses previously neglected groups including immigrant families and gays and lesbians Explores how revolutionary changes in aging longevity and sexual behavior have radically affected the experience of different generations and the relationships between them **Gender, Families, and State** Jyl J. Josephson, 1997 This insightful and original book is the first to examine the relationship between families and the state in the United States both in theory and in practice using child support policy as a lens of analysis Josephson cogently presents the origins evolution and organization of federal child support programs and persuasively demonstrates how some child support enforcement policies rather than increasing women's access to economic resources expand government and social control over the beneficiaries Drawing on the literature of both feminist political theory and public policy implementation Josephson analyzes the impact of family law and social welfare policies through several empirical case studies This is important reading for anyone interested in political theory public policy and women's relationship to the state **In the Child's Best Interest?** Jonathan Baum, 2010-10 Congress is considering a comprehensive overhaul of the nation's immigration laws more than a decade after the enactment of strict immigration measures Current U S immigration laws mandate deportation of lawful permanent resident LPR parents of thousands of U S citizen children without providing these parents an opportunity to challenge their forced separations Through a multi disciplinary analysis this policy brief examines the experiences of U S citizen children impacted by the forced deportation of their LPR parents and proposes ways to reform U S law consistent with domestic and international standards aimed to improve the lives of children Charts and tables *Constructing the Child Viewer* Carmen Luke, 1990-12-11 Beginning from a poststructuralist position *Constructing the Child Viewer* examines three decades of U S research on television and children The book concludes that historical concepts of the child television viewer are products of discourse and cannot be taken to reflect objective scientific truths about the child viewer Widely disseminated constructs of the passive viewer the active viewer the interactive viewer and the media literate viewer are seen as problematic Nearly all academic studies published from 1948 to 1979 on the subject are included in this volume Each receives close textual analysis

making this a useful bibliographic resource and reference book Methodologically and theoretically this is the first text of its kind to read the history of research on television and children as an archaeology of knowledge Constructing the Child Viewer is an extensive bibliographical resource a preliminary introduction to Foucault's discourse theory and an experimental application of that theory to one major strand of the discourse of mass communications research Students of educational psychology sociology and communications media will find this work invaluable

**Undermining Race** Phylis Cancilla Martinelli, 2015-10-19 Undermining Race rewrites the history of race immigration and labor in the copper industry in Arizona The book focuses on the case of Italian immigrants in their relationships with Anglo Mexican and Spanish miners and at times with blacks Asian Americans and Native Americans requiring a reinterpretation of the way race was formed and figured across place and time Phylis Martinelli argues that the case of Italians in Arizona provides insight into in between racial and ethnic categories demonstrating that the categorizing of Italians varied from camp to camp depending on local conditions such as management practices in structuring labor markets and workers housing and the choices made by immigrants in forging communities of language and mutual support Italians even light skinned northern Italians were not considered completely white in Arizona at this historical moment yet neither were they consistently racialized as non white and tactics used to control them ranged from micro to macro level violence To make her argument Martinelli looks closely at two white camps in Globe and Bisbee and at the Mexican camp of Clifton Morenci Comparing and contrasting the placement of Italians in these three camps shows how the usual binary system of race relations became complicated which in turn affected the existing race based labor hierarchy especially during strikes The book provides additional case studies to argue that the biracial stratification system in the United States was in fact triracial at times According to Martinelli this system determined the nature of the associations among laborers as well as the way Americans came to construct whiteness

**The Law and Practice of Expulsion and Exclusion from the United Kingdom** Eric Fripp, Rowena Moffatt, Ellis Wilford, 2014-12-04 Resort by the state to measures of exclusion and expulsion from the territory of the UK and or from British citizenship have multiplied over the past decade following the so called War on Terror increased globalisation and the growing politicisation of national policies concerning immigration and citizenship This book which focuses on the law and practice governing deportation removal and exclusion from the UK the denial of British citizenship and deprivation of that citizenship represents the first attempt by practitioners to provide a cohesive assessment of UK law and practice in these areas The undertaking is a vital one because whilst these areas of law and practice have long existed as the hard edge of immigration and nationality laws in recent years the use of some powers in this area has greatly increased and such powers have arguably expanded beyond secondary existence as mere mechanisms of enforcement The body of law practice and policy created by this process is one which justifies treatment as a primary concern for public lawyers The book provides a comprehensive analysis of the law in these areas and its background This involves a consideration of interlocking international and regional rights instruments EU law and the domestic regime It is a clear and comprehensive everyday guide for practitioners and offers an invaluable insight into likely developments in this dynamic area of public law deserves to

be on the bookshelves of all those who seek to practise within this carefully defined area of immigration and nationality law

From the Foreword by Lord Hope of Craighead KT      **Feminism And Philosophy** Nancy Tuana, 2018-02-06 The past twenty years have seen an explosion of work by feminist philosophers and several surveys of this work have documented the richness of the many different ways of doing feminist philosophy But this major new anthology is the first broad and inclusive selection of the most important work in this field There are many unanswered questions about the future of feminist philosophy Which of the many varieties of feminist philosophy will last and which will fade away What kinds of accommodations will be possible with mainstream non feminist philosophy Which will separate themselves and flourish on their own To what extent will feminists change the topics philosophers address To what extent will they change the very way in which philosophy is done However these questions are answered it is clear that feminist philosophy is having and will continue to have a major impact on the discipline of philosophy This volume is the first to allow the scholar the student and other interested readers to sample this diverse literature and to ponder these questions for themselves Organized around nine traditional types of feminist philosophy **Feminism and Philosophy** is an imaginatively edited volume that will stimulate readers to explore many new pathways of understanding It marks a defining moment in feminist philosophy and it will be an essential text for philosophers and for feminist theorists in many other fields      **European Intellectual Property Law** Justine Pila, Paul Torremans, 2016 **European Intellectual Property Law** offers a full account of the main areas of substantive European IP law and a discussion of their wider context and effect The amount and reach of European law and decision making in the field of intellectual property has grown exponentially since the 1960 s making it increasingly difficult to treat European law as an adjunct to domestic intellectual property regimes **European Intellectual Property Law** responds to this reality by presenting a clear and detailed account of each of the main areas of substantive EU intellectual property law situated in the context of both the EU legal system and international IP law including EU constitutional law the law of the European Patent Convention 1973 2000 and private international law It draws selectively on examples from domestic IP regimes to illustrate substantive differences between those regimes and to demonstrate the impact of European law and decision making on EU Member States This unique thoroughly modern approach goes beyond a discussion of the provisions of European legal instruments to consider their wider context and effect **European Intellectual Property Law** is the ideal guide for any student wishing to gain a full and critical understanding of the substantive European law of intellectual property      *Publication of the American Sociological Society* American Sociological Association, 1929 List of members in v 1 5 25 28 supplemental list in v 26 27      **Living Church Quarterly** , 1887
