Family Matters E. Wayne Carp,1998 Adoption is a hot topic played out in the news and on TV talk shows in advice columns and tell all tales but for the 25 million Americans who are members of the adoption triad of adoptees adoptive parents and birth parents the true story of adoption has not been told until now Family Matters cuts through the sealed records changing policies and conflicting agendas that have obscured the history of adoption in America and reveals how the practice and attitudes about it have evolved from colonial days to the present Amid recent controversies over sealed adoption records and open adoption it is ever more apparent that secrecy and disclosure are the defining issues in American adoptions and these are also the central concerns of E Wayne Carp s book Mining a vast range of sources including for the first time confidential case records of a twentieth century adoption agency Carp makes a startling discovery openness not secrecy has been the norm in adoption for most of our history sealed records were a post World War II aberration resulting from the convergence of several unusual cultural demographic and social trends Pursuing this idea Family Matters offers surprising insights into various notions that have affected the course of adoption among them Americans complex feelings about biological kinship versus socially constructed families the stigma of adoption used at times to promote both openness and secrecy and finally suspect psychoanalytic concepts such as genealogical bewilderment and bogus medical terms such as adopted child syndrome that paint all parties to adoption as psychologically damaged With an unswerving gaze and incisive analysis Carp brings clarity to a subject often muddled by extreme emotions and competing agendas His book is essential reading for adoptees and their adoptive and biological families and for the countless others who follow their fortunes

A Forever Family John Houghton,2007 After John Houghton and his wife learned that they could not have children of their own they adopted three siblings two boys and a girl who were looking for a forever family as the adoption agencies put it What followed is all too common in adoptive families but it is rarely talked about in public and has never been described with such transparent honesty as it is in the pages of this remarkable book From the start the children were difficult but the scale of their problems only gradually became clear as the years went by Strange fears and tantrums were accompanied by much more disturbing kinds of behaviour the violence and rejection that the children had suffered were visited on their adoptive parents unpredictably and explosively This is a story of desperate wanting of anger and frustrated love It is written with a kind of plain clarity that is both restrained and emotionally powerful There is no

triumphant victory over pain and loss but there is in the end something like hope a testament to the difference that two decent people can make by sustaining their commitment to an impossible situation
