Family Therapy Of Drug Abuse And Addiction:

The Family Therapy of Drug Abuse and Addiction M. Duncan Stanton, Thomas C. Todd, 1982-03-29 The Family Therapy of Drug Abuse and Addiction **Counseling Addicted Families** Gerald A. Juhnke, W. Bryce Hagedorn, 2013-08-16 In Counseling Addicted Families Gerald A Juhnke and William Bryce Hagedorn recognize that even those treatment providers who understand the importance of the familial context of addiction are often stymied by the variety of family treatment theories and their often imperfect fit for cases of addiction In this book Juhnke and Hagedorn provide a truly integrated model for assessment and treatment Based upon the authors combined twenty three years of experience in clinical and treatment supervision the Integrated Family Addictions Model consists of six progressive treatment tiers which organize the relevant family treatment theories into a graduated and coherent sequence beginning with the briefest and least costly forms of therapy *Family Solutions for Substance Abuse* Eric E. Mccollum, Terry S Trepper, 2014-02-25 Use goal oriented techniques for successful family therapy with substance abusers Family therapy is an essential core competency for substance abuse counselors according to the Substance Abuse and Mental Health Services Administration Family Solutions for Substance Abuse Clinical and Counseling Approaches delivers the information and techniques you need to effectively treat addicts and their families By understanding and changing the dynamics of the family system you will be better able to guide your clients to adopt strategies and behaviors that sustain recovery and maintain healthy relationships Family Solutions for Substance Abuse provides clear models of diagnosis and intervention for families whether that means couples teenagers and their parents or Mom Dad and the kids The theoretical background on family systems will help you understand the context of the client s addiction and the way it affects and is affected by other family members Numerous case studies and figures bring the expert advice and theory into the practical realm so you can choose the best strategies for helping the shattered family heal Family Solutions for Substance Abuse will teach you useful therapeutic skills and strategies including understanding interdependence joining with different family members negotiating goals and contracts dealing with family violence assessing motivation handling relapses ending treatment Treating addictions is notoriously difficult for even the most skilled therapist working with the most motivated client Using the techniques in Family Solutions for Substance Abuse offers you and your clients a better chance at success because addicts whose families share their treatment are much more likely to stay in counseling and remain clean and sober **Substance Abuse** Joyce H. Lowinson, 2005 The premier text on substance abuse and addictive behaviors is now in its updated and expanded Fourth Edition with up to the minute insights from more than 150 experts at the front lines of patient management and research This edition features expanded coverage of the neurobiology of abused substances new pharmacologic therapies for addictions and complete information on club drugs such as Ecstasy New sections focus on addiction in children adolescents adults and the elderly and women s health issues including pregnancy The expanded behavioral addictions section now includes hoarding shopping and computer

Internet abuse Includes access to a Companion website that has fully searchable text *Family Therapy and the Treatment of Substance Use Disorders* Melody Bacon, 2019-04-09 This accessible guide offers a much needed integration of family therapy into the treatment of substance use disorders By proposing a means by which family therapy can be moved to the forefront of addiction treatment it places the family perspective at the center of its approach and provides a multifaceted alternative to the prevalent individual focused model Drawing from Bowen Family Systems Theory and the principles of the 12 step program the book presents a model of integration that addresses the needs of families struggling with addiction Illustrated with discussion questions and case narratives of former addicts the text guides both practitioners and families towards a goal of creating an environment that supports recovery Offering an overview of the history and current models of addiction treatment chapters also outline a 6 week Family Matters Program with accompanying treatment interventions and case studies The book concludes with an examination of how this program can be implemented by practitioners in a variety of clinical settings *Family Therapy and the Treatment of Substance Use Disorders* is essential reading for anyone with an interest in understanding the diverse ways in which addiction affects families It will be particularly relevant to students of family therapy but clinicians who work across the fields of substance abuse treatment or family counseling will also benefit from reading this book

Minorities and Family Therapy Betty Mackune-Karrer, Kenneth Hardy, George Saba, 2014-02-25 *Minorities and Family Therapy* highlights the work of experienced sensitive clinicians who along with minority families have found creative solutions to the problems minority families present Until now the field of family therapy has paid little attention to the specific clinical needs and strengths of minority families Without sufficient exploration and training family therapists risk treating minority families from a narrow incomplete perspective filtering out their inner resources values legacies history and wisdom and underestimating the influence of the social settings in which they live This unique and highly valuable book explores how systems oriented clinicians presently work with ethnic and racial minority families The chapters cover a wide range of clinical issues including pitfalls of misunderstanding and discrimination innovative strategies for treating drug abuse and AIDS and skills needed in caring for particular minority groups such as Native Americans blacks Latinos and Asian Americans The authors go beyond simply spelling out cultural similarities and differences They provide clear clinical suggestions to be applied in family and community contexts Not just another book on ethnicity *Minorities and Family Therapy* looks at families who because of their race and cultural background have had to struggle with racism discrimination limited access to health care economic bankruptcy and educational barriers Written for family therapists and health care providers who work with minority families and look for creative alternatives to improve their care this landmark volume is a celebration of the strengths that minority families demonstrate in coping with long term adversity *Alcoholism and Substance Abuse* Gary G. Forrest, 1985 *Family Transitions* Celia Jaes Falicov, 1991-07-01 Of all concepts used by family therapists the family development framework is among the least studied in spite of its relevance to understanding

spontaneous family change and to facilitating therapeutic intervention The notion that a developmental difficulty underlies the appearance of clinical symptoms has become a time honored tradition in family therapy just as it has been in individual therapy Yet unlike the well established and well researched models of child and adult development those in family development are rudimentary Despite increasing interest in the family life cycle as a framework for family therapy relatively little has been done to elucidate the specific dimensions and processes of spontaneous and therapeutically induced change over the family life cycle This volume gathers original contributions of some of the most prominent family theorists researchers and clinicians of our time to improve our understanding of these important and hitherto neglected domains The book opens with a comprehensive overview by the editor that outlines contributions to the family life cycle framework from family sociology and crisis theory This is followed by a comparative analysis of developmental thinking explicit or implicit in the theory and interventions of the major family therapy approaches Then divided into four parts FAMILY TRANSITIONS introduces new conceptual models that integrate the temporality of the life cycle approach with systems theory By their very nature these models cut across therapeutic orientations and have important clinical applications In Part II family therapy s views of development are freed from the confines of the therapist s office and placed in the context of other disciplines Chapters provide analysis of changing or static sociocultural values that can affect conceptions of development potential misuse of the concept of cultural identity in health mental health and education how family identity operates as a vehicle for cultural transmission over generations and family therapists assumptions about women s development The role of expected and unexpected events in the family life cycle is the focus of Part III Chapters on clinical approaches geared to dislocations of life cycle occurrences due to unexpected crises chronic illnesses loss or drug abuse provide illustrations of interventions that utilize enhance or potentially detract from the family s developmental flow Part IV explores the articulation of the life cycle framework within four major family therapy orientations intergenerational structural systemic and symbolic experiential Each of these chapters endeavors to elucidate what is the place of family development in each orientation concepts of continuity and change use of the concept of stages transitions or developmental tasks the specific dimensions that change in most families over time and the links between family dysfunction and life cycle issues Finally each chapter illustrates through clinical example assessment strategies formulation of treatment goals and interventions as these emerge from a particular life cycle model FAMILY TRANSITIONS presents a significant advance in our understanding of functional and dysfunctional family development and offers a range of interventions to promote developmental change It is an invaluable resource for clinical psychologists psychiatrists social workers and counselors that will also interest human development professionals family sociologists and family researchers FAMILY TRANSITIONS can serve as a developmentally oriented textbook for teaching family therapy in academic and professional settings
