Subcommittee on Health,1965 The Alienist and Neurologist Charles Hamilton Hughes,1911 *Encyclopedia of African American Education* Kofi Lomotey,2010 The Encyclopedia of African American Education covers educational institutions at every level from preschool through graduate and professional training with special attention to historically black and predominantly black colleges and universities Other entries cover individuals organizations associations and publications that have had a significant impact on African American education The Encyclopedia also presents information on public policy affecting the education of African Americans including both court decisions and legislation It includes a discussion of curriculum concepts theories and alternative models of education and addresses the topics of gender and sexual orientation religion and the media The Encyclopedia also includes a

Reader's Guide provided to help readers find entries on related topics. It classifies entries in sixteen categories: Alternative Educational Models, Associations and Organizations, Biographies, Collegiate Education, Curriculum, Economics, Gender, Graduate and Professional Education, Historically Black Colleges and Universities, Legal Cases, Pre-Collegiate Education, Psychology and Human Development, Public Policy, Publications, Religious Institutions, Segregation, Desegregation. Some entries appear in more than one category. This two-volume reference work will be an invaluable resource not only for educators and students but for all readers who seek an understanding of African American education both historically and in the 21st century.

*Medicine and Other Topics* Dr Alistair Tulloch, 2023-04-19 *Medicine and Other Topics* is the story of Scottish born GP AJ Tulloch from his two-year RAF National Service in the 1950s which took him to Egypt through to his becoming a partner in a practice in Bicester, Oxfordshire. Along the way we learn of his interest in Structured Records Systems, Geriatrics and Obstetrics. A mix of political and social commentary from a retired doctor steeped in the traditions of the National Health Service, this book comes at a time when the issues discussed could not be more relevant: NHS underfunding, tax cuts for the rich, and Brexit have contributed to the crisis in health that Britons today face. In Dr Tulloch's opinion, Dr Tulloch offers a personal, vivid, warm-hearted autobiography coupled with an examination of life in Britain past and present.

**The Nebraska State Medical Journal**, 1922 **Famous American Doctors** L. Edmond Leipold, 1969 Brief biographies of ten doctors who pioneered new drugs and methods of treatment. Included are Jonas Salk, Karen Horney, and William Morton.

**Our Young People**, 1905 *Americans All - A Human Study of America's Citizens from Europe* William Seabrook, 2013-04-18 This vintage work contains an interesting and informative human study of America's citizens from Europe. It is not intended to be a statistical immigration treatise but rather it aims to show in common, close-up personal terms what kind of people Americans of foreign language origin were. It aims to show how they contributed to the American scene, how they lived in the land of their adoption, and how they were viewed and treated there. The chapters of this book include Native American, Home Town 1938 Model, Scandinavian American, German Americans, Polish Americans, and Russian Americans. We are republishing this antiquarian volume now in an affordable, modern edition complete with a specially commissioned new biography of the author.

[Science, Technology and the Cultural Cold War in Asia](#) Yuka Moriguchi Tsuchiya, 2022-07-12 Tsuchiya presents a new insight into the political roles of science and technology during the Cold War era in Asia. The Cold War was not only a battle of conflicting ideologies and economic systems but also a competition of cultures and lifestyles and a battle to win the hearts and minds of people in developing countries. Tsuchiya argues that science and technology were an integral part of how culture was deployed strategically. She discusses the 1950s and early 1960s, the Eisenhower and Kennedy presidencies in the U.S. and the decolonization and nation-building efforts in Japan, South Vietnam, Burma, and Indonesia. She also sheds light on the way U.S. technological aid programs such as Foreign Atoms for Peace and the overseas information program were

received by Asian leaders technocrats and scientists Provides valuable insight for scholars of Cold War History in Asia and US Foreign Policy

**Health and Wellness in Colonial America** Rebecca Tannenbaum Ph.D.,2012-08-17 This book provides a broad introduction to medical practices among Anglo Americans Native Americans and African Americans during the colonial period covering everything from dentistry to childcare practices to witchcraft It is ideal for college or advanced high school courses in early American history the history of medicine or general social history Health and Wellness in Colonial America covers all aspects of medicine from surgery to the role of religion in healing giving readers a comprehensive overall picture of medical practices from 1600 to 1800 a topic that speaks volumes about the living conditions during that period In this book an introductory chapter describes the ways in which all three cultures in colonial America European African and Native American thought about medicine The work covers academic and scientific medicine as well as folk practices women s role in healing and the traditions of Native Americans and African Americans Because of its broad scope the book will be highly useful to advanced high school students undergraduate students in various areas of studies such as early American history women s history and history of medicine and general readers interested in the history of medicine

**Epidemics** Samuel K. Cohn Jr.,2018-03-30 By investigating thousands of descriptions of epidemics reaching back before the fifth century BCE Plague of Athens to the distrust and violence that erupted with Ebola in 2014 Epidemics challenges a dominant hypothesis in the study of epidemics that invariably across time and space epidemics provoked hatred blaming of the other and victimizing bearers of epidemic diseases particularly when diseases were mysterious without known cures or preventive measures as with AIDS during the last two decades of the twentieth century However scholars and public intellectuals especially post AIDS have missed a fundamental aspect of the history of epidemics Instead of sparking hatred and blame this study traces epidemics socio psychological consequences across time and discovers a radically different picture that epidemic diseases have more often unified societies across class race ethnicity and religion spurring self sacrifice and compassion
