Famous Instrumentalists:

Famous Musicians of a Wandering Race Gdal Saleski, 1927 Musicians and their compositions J. R. Griffiths, 1894

Famous Female Musicians Gr. 4-8 , **Grove's Dictionary of Music and Musicians** George Grove, John Alexander Fuller-Maitland, 1904 **Frederick the Great and his Musicians: The Viola da Gamba Music of the Berlin School**

Michael O'Loghlin, 2017-07-05 After decades of stagnation during the reign of his father the Barracks King the performing arts began to flourish in Berlin under Frederick the Great Even before his coronation in 1740 the crown prince commenced recruitment of a group of musician composers who were to form the basis of a brilliant court ensemble Several composers including C P E Bach and the Graun brothers wrote music for the viola da gamba an instrument which was already becoming obsolete elsewhere They were encouraged in this endeavour by the presence in the orchestra from 1741 of Ludwig Christian Hesse one of the last gamba virtuosi who was described in 1766 as unquestionably the finest gambist in Europe This study shows how the unique situation in Berlin produced the last major corpus of music written for the viola da gamba and how the more virtuosic works were probably the result of close collaboration between Hesse and the Berlin School composers The reader is also introduced to the more approachable pieces which were written and arranged for amateur viol players including the king's nephew and ultimate successor Frederick William II O'Loghlin argues that the aesthetic circumstances which prevailed in Berlin brought forth a specific style that is reflected not only in the music for viola da gamba

Characteristics of this Berlin style are identified with reference to a broad selection of original written sources many of which are hardly accessible to English speaking readers There is also a discussion of the rather contradictory reception history of the Berlin School and some of its composers The book concludes with a complete thematic catalogue of the Berlin gamba music with a listing of original manuscript sources and modern publications The book will appeal to professional and amateur viola da gamba players as well as to scholars of eighteenth century German music **Non-Western Popular Music** Tony

Langlois, 2017-07-05 This collection provides readers with a diverse and contemporary overview of research in the field Drawing upon scholarly writing from a range of disciplines and approaches it provides case studies from a wide range of non Western musical contexts In so doing the volume attends to the central themes that have emerged in this area of popular music studies cultural politics identity and the role of technology This collection does not seek to establish a new theoretical paradigm but being primarily aimed at researchers and students offers as comprehensive a view of the research that has been carried out over the last few decades as possible given the global scope of the subject Inevitably the experience of globalisation itself runs through many of the contributions not only because musicians find themselves part of an immense flow of international culture technology and finance but also because Western scholarship can also be considered an aspect of such a flow The articles selected for the volume take different disciplinary approaches many are close ethnographic descriptions of musical practices whilst others take a more historical view of a musical scene or even a single musician Some

essays consider the effects of emerging technologies upon the production dissemination and consumption of music whilst the political context is central to other authors The collection as a whole serves as a resource for those who wish to be better acquainted with the diversity of research that has been carried out into non western pop whilst also highlighting the broader themes that have so far shaped academic approaches to the subject *How Popular Musicians Learn* Lucy Green,2017-03-02 Popular musicians acquire some or all of their skills and knowledge informally outside school or university and with little help from trained instrumental teachers How do they go about this process Despite the fact that popular music has recently entered formal music education we have as yet a limited understanding of the learning practices adopted by its musicians Nor do we know why so many popular musicians in the past turned away from music education or how young popular musicians today are responding to it Drawing on a series of interviews with musicians aged between fifteen and fifty Lucy Green explores the nature of pop musicians informal learning practices attitudes and values the extent to which these altered over the last forty years and the experiences of the musicians in formal music education Through a comparison of the characteristics of informal pop music learning with those of more formal music education the book offers insights into how we might re invigorate the musical involvement of the population Could the creation of a teaching culture that recognizes and rewards aural imitation improvisation and experimentation as well as commitment and passion encourage more people to make music Since the hardback publication of this book in 2001 the author has explored many of its themes through practical work in school classrooms Her follow up book *Music Informal Learning and the School A New Classroom Pedagogy* 2008 appears in the same Ashgate series **The Business of Opera** Anastasia Belina-Johnson,Derek B. Scott,2016-03-23 The study of the business of opera has taken on new importance in the present harsh economic climate for the arts This book presents research that sheds new light on a range of aspects concerning marketing audience development promotion arts administration and economic issues that beset professionals working in the opera world The editors aim has been to assemble a coherent collection of essays that engage with a single theme business but differ in topic and critical perspective The collection is distinguished by its concern with the business of opera here and now in a globalized market This includes newly commissioned operas sponsorship state funding and production and marketing of historic operas in the twenty first century **Church Music Review and Official Bulletin of the American Guild of Organists** ,1919 **The New Music Review and Church Music Review** ,1919 Musical Times and Singing Class Circular ,1888 **The Musical Times & Singing-class Circular** ,1918 **Music in the Chautauqua Movement** Paige Lush,2013-07-30 The chautauqua movement was a truly American phenomenon providing education and entertainment for millions of people and employing thousands of musicians in the process While scholars have previously explored various facets of the chautauqua movement this is the first book to trace the place of music in the movement from its inception through its decline Drawing upon the rich collections of ephemera left by several chautauqua bureaus this study profiles several famous musicians and introduces the

reader to lesser known musical acts that traveled the chautauqua circuits In addition it explores music s role in defining the chautauqua movement as high culture legitimizing the movement in the eyes of community leaders and setting it apart from vaudeville and other competing amusements Finally it addresses music s role in establishing chautauqua s identity as an American institution specifically in the years surrounding World War I **The Holocaust's Ghost** F. C. DeCoste, Bernard Schwartz,2000-05 Numerous scholars explore the moral aesthetic and political outcomes of the Holocaust from the perspectives of various academic backgrounds including art literature political science education and history **Gaodhal**,1901 **Arab Music: A Survey of Its History and Its Modern Practice** Leo Plenckers,2021-12-16 This book offers a comprehensive survey of the history and the development of Arab music and musical theory from its pre Islamic roots until 1970 as well as a discussion of the major genres and forms practiced today such as the Egyptian g l the Algerian ra and Palestinian hip hop it also touches upon musical instruments and folk music ***Producing Excellence*** Izabela Wagner,2015-09-25 An in depth study of nearly one hundred young children studying violin in Western Europe *Producing Excellence* illuminates the process these musicians undergo to become elite international soloists The remarkable research Izabela Wagner conducted at rehearsals lessons and in other educational settings enabled her to gain deep insight into what distinguishes these talented prodigies shedding new light on the development of exceptional musical talent **The Strad**,1912 **Transactions - Glasgow University Oriental Society** Glasgow University Oriental Society,1907 **My Musical Recollections** Wilhelm Kuhe,1896
