Economic Independence **Zambian Copper:**

Economic Independence and Zambian Copper Mark Bostock, Charles Harvey, 1972 Economic Independence and Zambian Copper Mark Bostock, Charles Harvey (M.A.), 1972 The legacy of the British South Africa Company the historical background Prospecting and mining activity 1895 1970 Growth and the structure of the economy The background to participation Tax reform in the mining industry The takeover The prospects for new mine investment **Economic Independence and Zambian Copper** Mark Bostock, 1972 Recent Developments in the Zambian and Zairian Copper Industries Raymond Frech Mikesell, 1972 Copper Empire Larry Butler, 2007-10-11 This is a study of the evolving relationship between the British colonial state and the copper mining industry in Northern Rhodesia from the early stages of development to decolonization encompassing depression wartime mobilization and fundamental changes in the nature and context of colonial rule Zambia's Foreign Policy Douglas G Anglin, 2021-12-12 This volume examines Zambia's role in the search for African independence unity and development particularly in the context of southern Africa It also analyses the problems of dependence and underdevelopment and their impact on foreign policymaking By concentrating on the key issues and major crises that confronted Zambia's decision makers during the nation's first years the authors explain the country's current preoccupations and future prospects Although their primary focus is on Zambia they also treat a range of substantive and theoretical issues **The Politics and Economics of Decolonization in Africa** Andrew Cohen, 2017-05-26 The slow collapse of the European colonial empires after 1945 provides one of the great turning points of twentieth century history With the loss of India however the British under Harold Macmillan attempted to enforce a second colonial occupation supporting the efforts of Sir Andrew Cohen of the Colonial Office to create a Central African Federation Drawing on newly released archival material *The Politics and Economics of Decolonization* offers a fresh examination of Britain's central African territories in the late colonial period and provides a detailed assessment of how events in Britain Africa and the UN shaped the process of decolonization The author situates the Central African Federation which consisted of modern day Zambia Zimbabwe and Malawi in its wider international context shedding light on the Federation's complex relationships with South Africa with US Presidents Dwight Eisenhower and John F Kennedy and with the expanding United Nations The result is an important history of the last days of the British Empire and the beginnings of a more independent African continent

Indigenization of African Economies Adebayo Adedeji, 2023-08-18 Originally published in 1981 this book examines the progress of a number of national efforts to move towards economic self reliance It consists of case studies from Egypt Zambia Ghana Nigeria Kenya Tanzania Ethiopia Botswana Lesotho and Swaziland and Senegal The studies are set in a framework that outlines the historical background to African economic dependence and they discuss the theoretical and practical implications of that dependence It makes an important contribution to the study of indigenization bringing together a group of African specialists writing from the inside and articulating the continent's challenges with convincing authority *Copper*

King in Central Africa Hyden Munene, 2022-01-31 *Copper King in Central Africa* offers a detailed account of the corporate history of the Rhokana Rokana Corporation and its Nkana mine Thematically and chronologically organised it explores the discovery of viable ores on the Northern Rhodesian Zambian Copperbelt in the late 1920s which attracted foreign capital from South Africa Britain and the USA prompting the development of the Nkana mine and the formation of the Rhokana Corporation in the early 1930s It follows through the evolution of the copper mining industry up to the re privatisation of the Zambian mining sector in 1991 The book ties into a single narrative the disparate themes of corporate organisation labour relations and profitability of Rhokana demonstrating how the firm was for a time the most important mining entity in the Northern Rhodesian Zambian mining industry Rhokana was both an investment firm on the Copperbelt and a mining company through Nkana mine Thus the Corporation was central to the development and profitability of the copper industry in Zambia Its corporate and labour policies influenced the Copperbelt as a whole Employing the largest labour force in the mining sector Rhokana spearheaded the labour movement on the Copperbelt Its Nkana mine was also the largest producer of copper in the Northern Rhodesian mining industry between 1940 and 1953 and contributed hugely to the war economies of Britain and the USA Throughout its history Nkana was also a major source of cobalt After nationalisation of the mining sector in 1970 Rhokana surrendered its investments in the wider copper industry but remained central to the Copperbelt's smelting and refining operations owning the biggest metallurgical facilities in the industry **Commerce Today**, 1972 Policy Signals and Market Responses Stuart John Barton, 2016-01-26 The study presents archival evidence to show how President Kaunda raised political and economic exclusivity in Zambia in the early years of Zambia's independence and how this retarded capital investment Despite formal reforms and a new government this institutional mechanism still dominates and constrains Zambia's political economy today Administration in Zambia William Tordoff, 1980 **Zambia** Marcia Burdette, 2021-12-12 This accessible case study offers a fully rounded picture of Zambia's course since independence chronicling the periods of boom and decline after the fall in the price of copper around the mid 1970s The author advocates an internally oriented economic strategy to retain industries and livelihoods and investigates the ability of the current leadership to achieve this *Africanisation, Nationalisation and Inequality* Philip Daniel, 1979-09-27 Monograph examining employment and wages changes affecting copper miners and the copperbelt of Zambia following indigenization zambianization and partial nationalization outlines historical aspects including the approach to zambian independence and the following decade to 1975 discusses unemployment income distribution labour supply labour costs labour demand and wage rates and considers prospects in relation to various economic policies Diagrams graphs references and statistical tables *Dynamic Investment Planning (Routledge Revivals)* Mohammed H. Dore, 2015-03-26 In dynamic investment planning the time of investment is a significant issue By simplifying the mathematical notation the author of this book seeks to make control theory a practical tool that can be applied to the problem of timing The book first published in 1977 begins with an

introduction to one important approach to control theory dynamic programming Then some of the relevant literature that deals with investment decision making is reviewed This is followed by a mathematically formulated planning model The computational aspects of the model are discussed and a complete computer flow chart is given The second part of the book gives a thorough application of the theory by means of a detailed case study the planning of a steel industry The case study illustrates how a fairly abstract dynamic analysis can be effectively integrated with practical decision making concerns This book is ideal for students of economics and business *Governments And Mining Companies In Developing Countries* James H. Cobbe, 2019-03-13 This book examines the relationship between the governments of less developed countries LDCs and foreign owned firms engaged in the extraction of minerals for export With an approach that synthesizes economic theory technical considerations and political factors Cobbe provides a fresh look at the policy aspects of the resource bargaining pro

Mining and Development Ciaran O'Faircheallaigh, 2017-10-17 This book first published in 1984 examines the economics and political issues raised by foreign investment in mineral development It is an attempt to identify as far as possible what occurs in and between countries when foreign investments are made in mineral development concentrating on two main themes on the nature of the transactions which constitute the process of foreign investment on the physical level money and instruments of credit objects information and people as they cross national boundaries and on the nature of the relationships which are created between foreign investors and governments in the countries where the investments are made The author argues that the nature of physical transactions plays a crucial role in determining the character of host country foreign investor relations and the policies and attitudes adopted by host country authorities exercise an important influence in turn on the physical effects of foreign investments As such the book constitutes a comprehensive overview of the economic and political factors involved in mining and its development Politics in Zambia William Tordoff, 2023-04-28 This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1974 Africa Army Library (U.S.), 1973 Scarcity, Choice and Public Policy in Middle Africa Donald Rothchild, Robert L. Curry Jr., 2023-11-15 New challenges and opportunities have come to the fore as the middle African States have consolidated their independence In grappling with economic scarcity and restricted choice decision makers must transform domestic institutions and practices and reformulate their relationship to the global economy The authors of this book believe that their efforts can be advanced by resorting to a problem solving focus Such an approach will in their opinion allow social scientists to remain true to their professional disciplines while permitting them to embrace African designated objectives By inquiring into decision processes and results policy analysis seeks to identify optimal courses of action in the context of prevailing societal demands and constraints In general African decision makers have

adopted three choice strategies with an eye to reducing scarcity and expanding alternatives accommodation reorganization and transformation When these choice strategies are related to system goals striking variations in preferences and priorities emerge the most significant of which concern decision on mobilizing and distributing resources and achieving freedom from external control In various trade off situations involving negotiations by producer cartels bargaining between multinational companies and African host countries and external economic assistance diverse policy patters among the groups in relating to the benefits and costs of particular lines of action appear Each choice strategy has its own benefit cost combination Since no approach may be equally valid cross nationally the decision elites of each country are left with the responsibility for determining their own goals and priorities New challenges and opportunities have come to the fore as the middle African States have consolidated their independence In grappling with economic scarcity and restricted choice decision makers must transform domestic institutions and practices and ref
