When Leaders Learn and When They Don't Akan Malici,2009-01-01 When Leaders Learn and When They Don't investigates two extraordinary leaders Mikhail Gorbachev and Kim Il Sung by employing sophisticated methodologies and advancing a new theory of foreign policy decision making Both leaders redefined the theory and practice of international relations and left a heritage that we face today a unipolar world in which security threats no longer emanate from the rivalry of two superpowers but rather from the existence of rogue states such as North Korea Akan Malici demonstrates how Gorbachev moved the antagonistic superpower relationship toward a Kantian world of friends while Kim reified a Hobbesian world of enemies at the end of the Cold War The book carries implications about declining and newly emerging threats as the configuration of the international system changes

The Arab-Israeli Conflict Transformed Hemda Ben-Yehuda,Shmuel Sandler,2012-02-01 The Middle East conflict be it between the state of Israel and Arab states or between Jews and Palestinians is a staple of international news Utilizing both theoretical approaches and empirical evidence Hemda Ben Yehuda and Shmuel Sandler argue that despite the recent upswing in violence particularly over the Palestinian issue conflict has gradually been giving way since the 1970s to a more orderly regime of conflict management By integrating ethnonational theoretical literature into their analysis the authors move beyond the current International Relations debate over the relative merits of realist neo realist approaches versus neo liberal institutional approaches Ethnic state disputes are the primary source for failing to terminate the Arab Israeli conflict

United We Stand? Aaron Belkin,2012-02-01 It has long been assumed that leaders engage in international conflict to unify their followers what is often called the rally round the flag hypothesis Despite its intuitive appeal however this hypothesis does not always provide a compelling explanation of the relationship between domestic politics and international conflict In *United We Stand* Aaron Belkin shows that in one important realm civil military relations leaders often prefer divisiveness over cohesion When they feel domestically vulnerable leaders use international conflict in order to create and exacerbate rivalries among their own military forces to lower the risk of a coup and to contribute to the consolidation and stability of the political order Case studies include post Soviet Georgia and Syria

Imperialism and Internationalism in the Discipline of International Relations David Long,Brian C.

Schmidt,2006-01-01 What were the guiding themes of the discipline of International Relations before World War II The traditional disciplinary history has long viewed this time period as one guided by idealism and then challenged by realism This book reconstructs in detail some of the formative episodes of the field s early development and arrives at the conclusion that in actuality the early years of International Relations were preoccupied not with idealism and realism but with the dual themes of imperialism and internationalism Thus the beginnings of the discipline have resonance with the recently revived discourse of empire and the global status and policies of the United States as the world s sole superpower Democratizing Global Politics Rodger A. Samuel Barkin,2012-02-01 While other studies of international leadership have looked at a variety of measures to predict behavior this book demonstrates that the key factor is international finance J Samuel Barkin uses an innovative blend of rationalist and constructivist methodologies approaches to international political economy that normally exist in isolation from one another Barkin argues that the level of a country s involvement in international finance specifically motivates it to lead This is particularly relevant today given the on going discussions on how to respond to local and global financial crises Barkin illustrates his theory with an episodic history of international monetary leadership over the last four centuries Dutch leadership in the seventeenth century British leadership in the nineteenth the failure of leadership in the interwar era and Great Depression and the role of the U S in the construction of an international economic infrastructure since World War II
