Res. 234 ... , August 9 ... October 5, 1949 United States. Congress. House. Committee on Armed Services, 1949 Paris '44 William Mortimer Moore, 2020-01-10 A fine racy account of the Occupation and Liberation of Paris a rattlingly good read Giles MacDonogh author of *After the Reich* During the fall of 1944 once the Western Allies had gained military advantage over the Nazis the crown jewel of Allied

strategy became the liberation of Paris the capital of France so long held in captivity This event however was steeped in more complexity when the Allies returned than in 1940 when Hitler's legions first marched in In 1944 the city was beset by cross currents about who was to reclaim it the French Resistance the long suffering Parisians themselves or the Anglo American armies which had indeed won the victory This book punctures the myth parlayed by *Is Paris Burning* and other works that describe the city's liberation as mostly the result of the Resistance insurrection in the capital Amidst the swirling streams of self interest and intrigue that beset Paris on the eve of its liberation this book makes clear that Gen Leclerc and his 2nd Armored Division were the real heroes of the liberation and that marching on their capital city was their *raison d'être* At issue was the reconstitution of France itself after the dark night of its soul under the Germans and despite the demands of the Anglo Americans and France's own insurrectionists That a great power was restored is now manifest with this book explaining how it was ensured Gets the full five stars The prose here really does bring wartime France to life War History Online
