Falling Chips A Deconstruction Of The Singlebullet Theory Of The Jfk Assassination:

Falling Chips Rodger A. Remington, 2005-01-01 *Honest Answers about the Murder of President John F. Kennedy*
Vincent Michael Palamara, 2021-03-19 Thousands of books and articles have been written about the murder of JFK many of which are large in volume and short on facts Quite often these works try to reinvent the wheel attempting to cover every single area of the assassination as well as many tangential and unessential points as well The reader is often left exhausted and confused The sheer volume of pages conflicting facts and theories leaves one unsatisfied and quite frankly not sure exactly what did happen on 11 22 63 This book seeks to separate the wheat from the chaff It is 55 plus years later it is time for real honest answers in an easy to read and understand format Proof of a conspiracy no theories to the point a perspective on the assassination for the millennial age and beyond Based on years decades of primary source research and having read countless books on the subject

Undeniable Truths Ed Souza, 2014-08 Since we forget the implications of the assassination of President John F Kennedy at our peril I welcome and support the recent work of Ed Souza s Undeniable Truths Welcome aboard Mr Souza Mark Lane Author of Rush to Judgment To many the murder of President John F Kennedy was the defining tragedy of the twentieth century To many the intricate and pervasive veil of lies generated by the Warren Commission and some of our own government agencies is an egregious and continuing insult to our collective intelligence integrity and dignity To many there are more questions than plausible answers But for one former LA cop private investigator and professor of criminal justice the time has come to put forth the clear and plausible answers too many have craved for too long In Undeniable Truths Professor Ed Souza applies modern investigative techniques and theories to present the clear and simple facts surrounding this infamous murder His approach exposes the lies cover ups and misinformation involved in this case He explores some of the murder s most enduring mysteries Why was President Kennedy really murdered Who really did and did not want Kennedy eliminated Why and how was Oswald chosen as the scapegoat Through the use of time tested police strategies the author puts decades of professional research to the task of solving one of history s most enduring unsolved crimes

The Single-bullet Theory and the Assassination of John F. Kennedy Gerard Alexander Selby, 1989

The Assassination of JFK Robert A. Wagner, 2017-03-07 The Assassination of JFK Perspectives Half a Century Later is the result of a reconciliation of widely divergent views of the assassination and who was responsible For more than fifty years the JFK assassination has ignited impassioned argument from those who believe the Warren Commission s conclusion that one man Lee Harvey Oswald acted alone in killing President John F Kennedy and those who believe that the assassination was spearheaded by the KGB Castro the mob anti Castro revolutionaries the military complex the CIA or even Kennedy s successor Lyndon Baines Johnson to name only a few The conspiracy theories are almost too numerous to list and even include the fervent belief that Kennedy s body was stolen prior to autopsy on the very evening of the assassination for the purpose of doctoring the body to frame Oswald Bob Wagner digs into the enormous record of the assassination created by

two government investigations and thousands of books and articles written by investigators researchers and historians Bob describes the divergent views as being akin to two groups dividing the pieces of a jigsaw puzzle in half and attempting to produce complete pictures with their incomplete pieces Once all the puzzle pieces are organized and properly fit together however as Bob's painstaking work shows a real picture emerges and the truth comes into focus Bob thoroughly reviews the head spinning morass of fact conjecture and conspiracy theories regarding the assassination of JFK and makes them understandable to those knowing little about the assassination much less all of the conspiracy theories that abound *The Assassination of JFK Perspectives Half a Century Later* presents the clearest case against Arlen Specter's infamous single bullet theory while also demonstrating why it is clear that Lee Harvey Oswald fired the only shots in Dealey Plaza on November 22 1963 Visit JFKassassinationperspectives.com for more information and to comment [The Case Against the Single Bullet Theory](#) Roy L. Schaeffer, 2014 *The Zapruder Film* David R. Wrone, 2003-11-22 It is the most famous home movie of all time the most closely analyzed 26 seconds of film ever shot the most disturbing visual record of what many have called the crime of the century In 486 frames a mere six feet of celluloid Abraham Zapruder's iconic film captures from beginning to end the murder of President John F Kennedy in broad daylight An essential piece of evidence the film has become nearly synonymous with the assassination itself and has generated decades of debate among conspiracy theorists and defenders of the Warren Commission's official report Until now however no scholar has produced a comprehensive book length study of the film and its relation to the tragic events of November 22 1963 David Wrone one of our nation's foremost authorities on the assassination re-examines Zapruder's film with a fresh eye and a deep knowledge of the forensic evidence He traces the film's history from its creation on the grassy knoll by Dallas dressmaker Zapruder through its initial sale to Life magazine and early reproductions and its analysis by the Warren Commission and countless assassination researchers licensing by the Zapruder family legal battles over bootleg copies and sale to the federal government for sixteen million dollars Wrone's major contribution however is to demonstrate how a close examination of the film itself necessarily refutes the Warren Commission's lone gunman and single bullet theories The film as he reminds us provides a scientifically precise timeline of events as well as crucial clues regarding the timing number origins and impact of the shots fired that day Analyzing the film frame by frame in relation to other evidence including two key photos by Phil Willis and Ike Altgens he builds a convincing case against the official findings Without fanfare he concludes that more than three gunshots were fired from more than one direction and that most likely none were fired by alleged assassin Lee Harvey Oswald If true then JFK's death was the result of a conspiracy for the Commission's nonconspiracy conclusion requires a maximum of three shots and one gunman Wrone however does not speculate as to who actually shot JFK or why or even if Oswald was a part of the conspiracy In fact he is no fan of conspiracy think and is just as critical of the legion of conspiracy theorists as he is of the Warren Commission which he reveals crushed dissent within its own ranks Doggedly pursuing the evidence wherever it leads

Wrone has produced a meticulous clear eyed and provocative new reading of this remarkable cinematic Rosetta Stone

The Guns of Dealey Plaza -- Weapons and the Kennedy Assassination John Craig, 2016-02-09 This study investigates the numerous sightings and sounds of weapons in and around Dealey Plaza on November 22 1963 as well as bullets and bullet fragments found in Dealey Plaza and experiments that employed 21st century technology to investigate details of the JFK assassination that were unavailable to the Warren Commission and the House Select Committee on Assassinations HSCA investigations High definition television high speed cameras and 3D laser scans that create accurate virtual worlds are some of the latest technical instruments used to dissect the nature of the shots fired in Dealey Plaza **22 November 1963** Jeremy Bojczuk, 2014-10-28 These days almost no one takes seriously the notion that one person without assistance killed President Kennedy Even the official US government position for the last 40 years has been that JFK was probably killed as the result of a conspiracy in the words of the House Select Committee on Assassinations report 22 November 1963 A Brief Guide to the JFK Assassination leads you expertly through the complex and contradictory evidence so that you can make up your own mind about who killed President Kennedy and why he was assassinated This essential book is fully referenced and provides a clear and readable account of all the central issues in this controversial subject including Lee Harvey Oswald lone assassin conspirator or patsy Oswald s longstanding links to US intelligence agencies Oswald s apparent visit to Mexico City a few weeks before the assassination the crucial event which caused the Warren Commission to be set up the official investigations and why their answers are not widely believed the medical evidence the reason why the case remains controversial the political context of the JFK assassination and the pros and cons of the main theories associated with the event The e book edition contains more than 500 links to sources such as witness testimony and experts technical reports It is perhaps the first JFK assassination e book to allow readers to check the essential documentation for themselves

Head Shot G. Paul Chambers, 2010 What more can be said about the assassination of President John F Kennedy A great deal according to this author a physicist and ballistics expert Drawing on his fifteen years experience as an experimental

physicist for the US Navy the author demonstrates that the commonly accepted view of the assassination is fundamentally flawed from a scientific perspective He claims that the physics behind lone gunmen theories is not only wrong but impossible The author devotes separate chapters to the Warren Commission challenges to the single bullet theory the witnesses how science arrives at the truth the medical and acoustic evidence the Zapruder film and evidence for at least a second rifleman in Dealey Plaza

The JFK Assassination Debates Michael L. Kurtz, 2006-11-08 Who killed JFK Ever since that fateful day in Dallas theories about President Kennedy's murder have proliferated running the gamut from the official lone gunman verdict to both serious and utterly screwball conspiracy theories Michael Kurtz a distinguished historian who has plumbed every crevice of this controversial case for more than thirty years now sums up and critiques four decades of debate while also offering provocative new perspectives Kurtz presents an objective accounting of what we actually know and don't know about the assassination underlining both the logic and the limitations of the major theories about the case He then offers unique interpretations of the physical and forensic evidence and of existing areas of controversy leading him to new conclusions that readers will find hard to dismiss Kurtz shows how the official investigation's egregious mishandling of the crime scene evidence related to virtually every aspect of the case is largely responsible for the lone gunman conspiracy schism that confronts us today Those responsible for that investigation including the Dallas police the FBI and the Warren Commission failed so miserably in their efforts that they would have been laughed off the air if they had been portrayed on any of TV's popular CSI series One of the few experts writing on the subject who actually met Oswald Kurtz also provides new information about the accused assassin's activities around the time of the assassination and about his double life analyzing Oswald's ties to the intelligence community to organized crime and to both anti and pro Castro Cuban activists Mustering extraordinary documentation including exclusive interviews with key figures and extensive materials declassified by the Assassination Records Review Board he both confirms and alters much previous speculation about Oswald and other aspects of the case Who really killed JFK Forty years later most Americans still feel they don't know the truth and that their own government isn't telling them the whole story This book offers a corrective to even the most recent final verdicts and establishes a sound baseline for future research

Investigation of the Assassination of President John F. Kennedy United States. Congress. House. Select Committee on Assassinations, 1978

Proper Assessment of the JFK Assassination Bullet Lead Evidence from Metallurgical and Statistical Perspectives Lawrence Livermore National Laboratory, 2014-10-17 The bullet evidence in the JFK assassination investigation was reexamined from metallurgical and statistical standpoints The questioned specimens are comprised of soft lead possibly from full metal jacketed Mannlicher Carcano 6.5 mm ammunition During lead refining contaminant elements are removed to specified levels for a desired alloy or composition Microsegregation of trace and minor elements during lead casting and processing can account for the experimental variabilities measured in various evidentiary and comparison samples by laboratory analysts Thus elevated concentrations of

antimony and copper at crystallographic grain boundaries the widely varying sizes of grains in Mannlicher Carcano bullet lead and the 5 60 mg bullet samples analyzed for assassination intelligence effectively resulted in operational sampling error for the analyses This deficiency was not considered in the original data interpretation and resulted in an invalid conclusion in favor of the single bullet theory of the assassination Alternate statistical calculations based on the historic analytical data incorporating weighted averaging and propagation of experimental uncertainties also considerably weaken support for the single bullet theory In effect this assessment of the material composition of the lead specimens from the assassination concludes that the extant evidence is consistent with any number between two and five rounds fired in Dealey Plaza during the shooting

Rendezvous with Death H. R. Underwood, 2013-02-01 After extensive research the author presents some of the frequently conflicting findings of investigators and government committees over the decades along with many of the minute details associated with the case In all Underwood has constructed a highly readable and fact filled compendium that should prove very useful to students of the tragedy The US Review of Books *Rendezvous with Death* The Assassination of President John F Kennedy presents the facts surrounding the assassination of President John F Kennedy and a detailed explanation of the shooting as it occurred according to the factual evidence A considerable amount of false trails and leads exist in the evidence turning the case into a quagmire of contradictory and unreliable assertions The major task undertaken was to sort out as much as possible fact from fiction and determine truth from rumor and speculation Numerous sources and materials were researched to provide the reader with a thorough and well documented review of the facts presented in the JFK assassination literature Still the conclusions presented are my own and are not intended to be presumptuous in claiming a definitive or conclusive solution to the case Therefore the purpose of this book is not to convince the reader that I have finally found the answers for most of the puzzling and perplexing questions surrounding this highly controversial case Rather my intention was twofold 1 to provide the reader with a comprehensive study that presented as many facts as possible regarding the JFK assassination gleaned from a wide variety of sources and 2 devise a plausible explanation of the assassination based upon that factual information My conclusions are based primarily on a close examination of the Zapruder film with documentation provided by numerous sources Although the Zapruder film shows evidence of splicing it still remains as one of the most significant pieces of JFK assassination evidence It is hoped that this study will move us closer to the truth

Proper Assessment of the JFK Assassination Bullet Lead Evidence from Metallurgical and Statistical Perspectives P. M. Grant, E. Randich, 2006 The bullet evidence in the JFK assassination investigation was reexamined from metallurgical and statistical standpoints The questioned specimens are comprised of soft lead possibly from full metal jacketed Mannlicher Carcano 6 5 mm ammunition During lead refining contaminant elements are removed to specified levels for a desired alloy or composition Microsegregation of trace and minor elements during lead casting and processing can account for the experimental variabilities measured in various evidentiary and comparison samples by laboratory analysts Thus elevated
