The Law of Falling Bodies Duff Brenna, 2007 Fifteen year old Virgil Foggy is trying to survive on a failing dairy farm in Minnesota Virgil's mother is pregnant an unwelcome addition to the family Virgil's older brother joins the army and goes to war but warfare is also close to home much of it between Virgil and his stepfather The Law of Falling Bodies is a novel about the schizophrenic ubiquitous and cyclical nature of all wars within and between men women and nations *The Law of Falling Bodies* Edmond DeJesus, 2001-10 **Falling Bodies** Sue Kaufman, 1975 *The Law of Falling Bodies* Edmund DeJesus, 2001-10-23 The Law of Falling Bodies A professor is murdered An eyewitness sees the whole thing The only suspect confesses So what's the problem It is physically impossible for the suspect to have committed the murder that way To unravel this mystery it will take a naive young scientist who is no one's idea of a hero Sure Mark is a wizard at solving puzzles but he hardly knows one end of a gun from the other At first the murder is an enticing riddle with the added spice of a beautiful but single minded police detective But soon he'll have to face a belligerent FBI agent with his own ideas about right and wrong not to mention a shadowy killer who'll stop at nothing to eliminate him Mark may have a lot to learn about life but he already knows enough about The Law of Falling Bodies Love and hate Life and death Math and physics [The Time Falling Bodies Take To Light](#) William Irwin Thompson, 1996-04-15 In the opening passages of his classic book The Time Falling Bodies Take To Light William Irwin Thompson asks the question But what is myth that it returns to mind even when we would most escape it Acknowledging the pervasive power of myth to create and inform culture Thompson answers this question by weaving descriptions of the human abilities to create life and to communicate through symbolic myths based on male and female forms of power Taking us from the earliest periods of prehistory through the time of female goddess worship to the rise of the male dominated warrior state Thompson shows the passage of humankind's relationship to nature from initial awe to persistent conquest At the end of his journey Thompson finds an answer to his original question myth is the history of the soul its creation is ongoing and its power is never ending This is a beautiful and fascinating book now being reissued for a new generation of readers as well as for those it inspired originally **The Law of Falling Bodies** Jill Ciment, 1993 An unlikely utterly beguiling love story by the author of the highly praised Small Claims Gloria is a modern day snake oil saleswoman a quixotic entrepreneur who sells everything from metal detectors to aphrodisiac perfumes but whose real stock in trade is hope She and her teenage daughter Kim move from town to town until Kim falls in love with a widower 30 years her senior **Terrorizing Images** Charles Ivan Armstrong, Unni Langas, 2020-09-07 It is broadly accepted that terrorizing images are often instrumentalized in periods of conflict to serve political interests This volume proposes that paying attention to how images of trauma and conflict are described in literary texts i.e. to the rhetorical practice known as ekphrasis is crucial to our understanding of how such images work The volume's contributors discuss verbal images of trauma and terror in literary texts both from a contemporary perspective and as historical artefacts in order to illuminate the many different

functions of ekphrasis in literature The articles in this volume reflect the vast developments in the field of trauma studies since the 1990s a field that has recently broadened to include genres beyond the memoir and testimony and that lends itself well to new postcolonial feminist and multimedia approaches By expanding the scholarly understanding of how images of trauma are described interpreted and acted out in literary texts this collected volume makes a significant contribution to both trauma and memory studies as well as more broadly to cultural studies **Realist Ecstasy** Lindsay V.

Reckson,2020-01-28 Honorable Mention Barnard Hewitt Award from the American Society for Theater Research Explores the intersection and history of American literary realism and the performance of spiritual and racial embodiment Recovering a series of ecstatic performances in late nineteenth and early twentieth century American realism Realist Ecstasy travels from camp meetings to Native American ghost dances to storefront church revivals to explore realism s relationship to spiritual experience In her approach to realism as both an unruly archive of performance and a wide ranging repertoire of media practices including literature photography audio recording and early film Lindsay V Reckson argues that the real was repetitively enacted and reenacted through bodily practice Realist Ecstasy demonstrates how the realist imagining of possessed bodies helped construct and naturalize racial difference while excavating the complex shifting and dynamic possibilities embedded in ecstatic performance its production of new and immanent forms of being beside Across her readings of Stephen Crane James Weldon Johnson and Nella Larsen among others Reckson triangulates secularism realism and racial formation in the post Reconstruction moment Realist Ecstasy shows how post Reconstruction realist texts mobilized gestures especially the gestures associated with religious ecstasy to racialize secularism itself Reckson offers us a distinctly new vision of American realism as a performative practice a sustained account of how performance lives in and through literary archives and a rich sense of how closely secularization and racialization were linked in Jim Crow America
