

A person is seen from behind, sitting on a dark, rocky shore. They are wearing a dark jacket and a light-colored scarf. The sun is low on the horizon, creating a warm, golden glow that silhouettes the person and the distant mountains. The water is dark and calm, reflecting the light from the sun. The overall mood is contemplative and serene.

False Hope:

Causes of War Stephen Van Evera, 2013-01-15 What causes war How can military conflicts best be prevented In this book Stephen Van Evera frames five conditions that increase the risk of interstate war false optimism about the likely outcome of a war a first strike advantage fluctuation in the relative power of states circumstances that allow nations to parlay one conquest into another and circumstances that make conquest easy According to Van Evera all but one of these conditions false optimism rarely occur today but policymakers often erroneously believe in their existence He argues that these misperceptions are responsible for many modern wars and explores both World Wars the Korean War and the 1967 Mideast War as test cases Finally he assesses the possibility of nuclear war by applying all five hypotheses to its potential onset Van Evera's book demonstrates that ideas from the Realist paradigm can offer strong explanations for international conflict and valuable prescriptions for its control

Here's Hoping Stuart McAlpine, 2023-03-13 Here's Hoping The title is tongue in cheek By saying here's hoping we usually fake hope because in reality we are not that hopeful It is spoken without much confidence or hope at all and betrays uncertainty We say it as we cast our wants and wishes without much conviction into the winds of fortune and the whims of the future but without any sense of a guarantee for the desired result Here's hoping speaks of longing that is not firing on all cylinders of a dream or desire that is likely to stay that way unrealized and unrequited When we say it we do not think cross my heart and hope to die That kind of vigorous assurance and commitment is not usually prompting the phrase It is less about crossing the heart and more about crossing the fingers It is less about surety and more about good luck To say here's hoping is to prepare oneself for potential disappointment Ironically it is more an expression of hopelessness than hope This book gives the reasons we can say Here's hoping with assured anticipation and confidence

Exploiting Hope Jeremy Snyder, 2020-09-03 In a range of contexts including human smuggling employment and medicine we often hear claims that a person has exploited someone else's hopes Despite this it remains unclear what it means to exploit hope what is wrong with doing so and what to do about it In this book Jeremy Snyder offers an account of the ethical nature of exploiting hope understood as taking advantage of a vulnerability in which one is partially entrusted He then discusses how hope is exploited when individuals seek out unproven medical interventions through clinical trials stem cell interventions right to try legislation and crowdfunding

Clanton,2022-07-07 Does bible prophecy revolve around antichrist and Israel or Christ and His Church Does Jesus return to defeat Antichrist and vast armies or does he come in victory to defeat Death These questions and more will be answered in this book As it is Written is a labor of love that seeks to challenge the mainstream modern views of eschatology which is the study of the end times In this book readers will learn where the modern teachings came from and learn that the modern views are less than 200 years old This book will compile a list of all the modern teachings and then compare them to what Christ and the Apostles taught This will show a stark difference between what the early church taught and what we teach today The book concludes by analyzing several key passages that have been misinterpreted by modern teachers and looks back on how our forefathers understood them and

sees which interpretation is more accurate to the texts When all is done readers will be left with a hopeful outlook on the future and the promise of a glorious reign of Christ culminating in His victorious Second Coming This is all done without prophecy charts or going back to the Greek rather it takes the simple approach of asking the question what did Jesus say about His Second Coming and what did his disciples teach It turns to the bible and lets them answer this question from their own testimony This will also reveal how these things were promised even in the Old Testament Faith and Health Paul D. Hopeful Pessimism Mara van der Lugt,2025-01-21 Why hopeful pessimism is not a contradiction in terms but a powerful source of moral and political commitment The climate debate is rife with calls for optimism While temperatures rise and disasters intensify we are asked to maintain optimism and hope as if the real threat is pessimism and despair In this erudite and engaging book Mara van der Lugt argues that this is a mistake crude optimism can no longer be a virtue in a breaking world and may well prove to be our besetting vice In an age of climate change and ecological devastation the virtue we need is hopeful pessimism Drawing on thinkers that range from J R R Tolkien and Mary Shelley to Albert Camus and Jonathan Lear van der Lugt invites us to rethink what we thought we knew about optimism and pessimism hope and despair activism and grief She shows that pessimism is closely linked to a tradition of moral and political activism and offers a different way to think about pessimism not as synonymous with despair but as compatible with hope Gently yet fiercely van der Lugt argues that what we need to avoid is not pessimism but fatalism or self serving resignation Pessimism does not imply the loss of courage or the lack of a desire to strive for a better world on the contrary these are the very gifts that pessimism can bestow What Hopeful Pessimism asks instead is that we strive for change without certainties without expecting anything from our efforts other than the knowledge that we have done what we are called upon to do as moral agents in a time of change *Dreamcrafting* Paul Levesque,Art McNeil,2003-02-16 Many people set out to achieve a dream starting a business or learning to play the piano or publishing a book but they don t succeed and the dream fizzles away In many cases these people have lots of skills and expertise such as deep knowledge of the business or career they are interested in so why don t they succeed Paul Levesque and Art McNeil have discovered that making a dream come true requires cultivating skills of a higher order macroskills that inevitably spell the difference between success and failure no matter what the specifics of a person s dreams are These are the skills Dreamcrafting outlines in detail The Philosophy of Palliative Care Fiona Randall,R S Downie,2006-02-23 The philosophy of palliative care has long remained undisputed by

health care professionals and philosophers This unique book reviews the ethical problems inherent within care of the terminally ill It suggests a new philosophy statement that could improve clinical care and take the specialty forward

Virtues in Action M. Austin, 2013-10-10 In recent decades many philosophers have considered the strengths and weaknesses of a virtue centered approach to moral theory Much less attention has been given to how such an approach bears on issues in applied ethics The essays in this volume apply a virtue centered perspective to a variety of contemporary moral issues and in so doing offer a fresh and illuminating perspective Some of the essays focus on a particular virtue and its application to one or more realms of applied ethics such as temperance and sex or humility and environmental ethics Other chapters focus on an issue in applied ethics and bring several virtues into a discussion of that issue or realm of life such as sport education and business Finally several of the chapters engage relevant psychological research as well as current neuroscience which enhances the strength of the philosophical arguments
