**The Falsification of Afrikan Consciousness** Afrikan World InfoSystems,2002-11-01      **The Falsification of Afrikan Consciousness** Amos N. Wilson,1993 Exposes the role Eurocentric history writing plays in rationalizing European oppression of Afrikan peoples and in the falsification of Afrikan consciousness and contends that the alleged mental and behavioral maladaptiveness of oppressed Afrikan peoples is a political economic necessity for the maintenance of White domination and imperialism Back cover      **The Racist Social Order, Mind Control, and African Americans** Yolanda Webb,2015-01-16 The divisions within colonized groups are often manifestations of a system designed to perpetuate racism and discrimination Hierarchical systems of oppression have historically been created to maintain confusion and division Whats more media images have often been used as tools to support a colonial agenda so that certain groups remain under subjugation a type of psychological warfare intended to decrease the chances of resistance Responding to this context The Racist Social Order Mind Control and African Americans presents a collection of revolutionary poetry and historical facts designed to evoke critical thinking regarding issues of social inequities Author Yolanda Webb shares her thoughts and reflections in an attempt to create solutions designed to deconstruct these inequities a necessity if we are to move toward a more democratic society She also writes on psychology inspired by research and featuring historical facts relating to a racial hierarchy intended to create division among colonized groups Speaking in a type of cross cultural dialogue that provokes both reflection and cognitive dissonance this collection encourages resistance in order to allow the beginning of the creation of pathways for improvements for future generations      **A Theory of African American Offending** James D. Unnever,Shaun L. Gabbidon,2011-03-01 A little more than a century ago the famous social scientist W E B Du Bois asserted that a true understanding of African American offending must be grounded in the real conditions of what it means to be black living in a racial stratified society Today and according to official statistics African American men about six percent of the population of the United States account for nearly sixty percent of the robbery arrests in the United States To the authors of this book this and many other glaring racial disparities in offending centered on African Americans is clearly related to their unique history and to their past and present racial subordination Inexplicably however no criminological theory exists that fully articulates the nuances of the African American experience and how they relate to their offending In readable fashion for undergraduate students the general public and criminologists alike this book for the first time presents the foundations for the development of an African American theory of offending      **Places of Cultural Memory** ,2001      **Human Services and the Afrocentric Paradigm** Jerome Schiele,Jerome H Schiele,2013-09-13 Discover how human services professionals can help to eliminate cultural oppression Human Services and the Afrocentric Paradigm presents a new way of understanding human behavior attacking social problems and exploring social issues This excellent guide shows that understanding the simultaneous forces of oppression and spiritual alienation in American society serves as a foundation for understanding the societal problems

**TRUE MYTH** Nashid Al-Amin, 2013 Why is it that encyclopedias assert the Vikings or Norsemen landed in parts of North America yet the Vikings have never been credited with its discovery Historians bestow this honor on Christopher Columbus who ventured here five hundred years after the Vikings having never set foot on the continent True Myth Black Vikings of the Middle Ages takes the reader where he or she has never been before We have always been told that Vikings or Norsemen were tall blond white and blue eyed an image that has been presented to us in books and films Now comes a book that challenges this centuries old assertion presenting evidence that these vaunted warriors were not the people popular historians have told us they were The author presents evidence that white skinned peoples in England Ireland and Wales referred to Vikings as black pagans and black devils The extent of their dominance in Europe is examined in fact the author presents a reassessment of Europe that some readers will find difficult to believe beginning with man s migrations into the continent and examining a number of black skinned peoples who called Europe home from very ancient times almost to the present The reader has never read a book like this filled with quotations from noted historians as well as from several Icelandic sagas that will take the reader on a journey he or she has never imagined A

more accurate picture of Europe has never been presented before The writer revisits the last ice age presents evidence of the heavy presence of blacks in ancient Europe and revisits ancient Greece Rome and areas of Asia discussing the presence of black skinned peoples in them before arriving in Viking age Scandinavia when Norsemen embarked on a three century long assault on the continent and began migrating to Iceland and other areas of North America Once the reader has completed True Myth Black Vikings of the Middle Ages he or she will have to question what he or she has been taught historians once thought to be trustworthy and the notion that the races were strictly divided and had never intermingled There has never been a truer picture of Europe written and the reader now has the opportunity to embark on the most thrilling journey he or she will ever take

**Reconfiguring Slavery** Benedetta Rossi,2016-02-26 A fascinating collection that advances a renewed conceptual framework for understanding slavery in West Africa today instead of retracing the end of West African slavery this work highlights the preliminary contours of its recent reconfigurations

The Case against Afrocentrism Tunde Adeleke,2011-01-05 Postcolonial discourses on African Diaspora history and relations have traditionally focused intensely on highlighting the common experiences and links between black Africans and African Americans This is especially true of Afrocentric scholars and supporters who use Africa to construct and validate a monolithic racial and culturally essentialist worldview Publications by Afrocentric scholars such as Molefi Asante Marimba Ani Maulana Karenga and the late John Henrik Clarke have emphasized the centrality of Africa to the construction of Afrocentric essentialism In the last fifteen years however countervailing critical scholarship has challenged essentialist interpretations of Diaspora history Critics such as Stephen Howe Yaacov Shavit and Clarence Walker have questioned and refuted the intellectual and cultural underpinnings of Afrocentric essentialist ideology Tunde Adeleke deconstructs Afrocentric essentialism by illuminating and interrogating the problematic situation of Africa as the foundation of a racialized worldwide African Diaspora He attempts to fill an intellectual gap by analyzing the contradictions in Afrocentric representations of the continent These include multiple conflicting and ambivalent portraits of Africa the use of the continent as a global unifying identity for all blacks the de emphasizing and nullification of New World acculturation and the ahistoric construction of a monolithic African Diaspora worldwide

*Black Male Violence in Perspective* , P. Tony Jackson,2015-05-08 Black Male Violence in Perspective Towards Afrocentric Intervention represents a synthesis of lived experience authoritative research and Afro centric perspective on one of the most controversial topics of our day It examines violence by and among Black men as it is inextricably tied to its context the history of violence in America including colonialism expansionism and concepts of manifest destiny Acknowledging important concepts like Michelle Alexander s The New Jim Crow and Joy DeGruy Leary s Post Traumatic Stress Syndrome and chronicling the devastating and injurious effects of racism the text moves in a clinical direction It identifies and addresses the resulting dangerous triad of frustration anger and depression and how they come together clinically to impact young Black men resulting in violent outcomes It explores the psychology underlying violent behavior delving into the socioeconomic

realities that are very much a part of the landscape of violence in America Tony Jackson utilizes cases from his career as a therapist as well as examples from actual life experience to illustrate challenging concepts More importantly Black Male Violence in Perspective proposes a theory of intervention and treatment with a discussion on quantitative and qualitative research methods **United We Stand** Dannielle Joy Davis,2021-01-01 Segments of society are drawing upon their faith and spirituality to develop strategies to mend social relationships and fragmented communities The Contemporary Perspectives on Spirituality in Education book series will feature volumes geared towards understanding and exploring the role of spirituality in addressing challenge conflict and marginalization within education in the U S and internationally

Matlou,2012 Collected papers from the first Scramble for Africa conference held from 25 27 May 2011 **Bearing Witness** Karen O'Donnell,Katie Cross,2022-08-31 Much like theology itself the experience of trauma has the potential to reach into almost any aspect of life refusing to fit within the tramlines A follow up to the 2020 volume Feminist Trauma Theologies Bearing Witness explores further into global intersectional and as yet relatively unexplored perspectives With a particular focus on poverty gender and sexualities race and ethnicity and health in dialogue with trauma theology the book seeks to demonstrate both the far reaching and intersectional nature of trauma encouraging creative and ground breaking theological reflections on trauma and constructions of theology in the light of the trauma experience A unique set of insights into the real life experience of trauma the book includes chapters authored by a diverse group of academic theologians practitioners and activists The result is a theology which extend far into the public square **The Race Controversy in American Education** Lillian Dowdell Drakeford Ph.D.,2015-07-28 In this unique two volume work expert scholars and practitioners examine race and racism in public education tackling controversial educational issues such as the school to prison pipeline charter schools school funding affirmative action and racialized curricula This work is built on the premise that recent efforts to advance color blind race neutral educational policies and reforms have not only proven ineffective in achieving racial equity and equality of educational opportunities and outcomes in America s public schools but also exacerbated existing inequalities That point is made through a collection of essays that examine the consequences of racial inequality on the school experience and success of students of color and other historically marginalized populations Addressing K 12 education and higher education in historically black as well as predominantly white institutions the work probes the impact of race and racism on education policies and reforms to determine the role schools school processes and school structures play in the perpetuation of racial inequality in American education Each volume validates the impact of race on teaching and learning and exposes the ways in which racism manifests itself in U S schools In addition practical recommendations are presented that may be used to confront and eradicate racism in education By exposing what happens when issues of race and racism are marginalized or ignored this collection will prepare readers to resist and perhaps finally overcome the racial inequality that plagues America

Joseph, Jean Eddy Saint Paul, Glodel Mezilas, 2018-02-07 Between Two Worlds Jean Price Mars Haiti and Africa is a special volume on Jean Price Mars that reassesses the importance of his thought and legacy and the implications of his ideas in the twenty first century s culture of political correctness the continuing challenge of race and racism and imperial hegemony in the modern world Price Mars s thought is also significant for the renewed scholarly interests in Haiti and Haitian Studies in North America and the meaning of contemporary Africa in the world today This volume explores various dimensions in Price Mars thought and his role as historian anthropologist cultural critic public intellectual religious scholar pan Africanist and humanist The goal of this book is fourfold it explores the contributions of Jean Price Mars to Haitian history and culture it studies Price Mars engagement with Western history and the problem of the racist narrative it interprets Price Mars connections with Black Internationalism Harlem Renaissance and the Negritude Movement and finally the book underscores Price Mars contributions to post colonialism religious studies Africana Studies and Pan Africanism      **We Can't Go Home Again** Clarence E. Walker, 2001-06-14 Afrocentrism has been a controversial but popular movement in schools and universities across America as well as in black communities But in We Can t Go Home Again historian Clarence E Walker puts Afrocentrism to the acid test in a thoughtful passionate and often blisteringly funny analysis that melts away the pretensions of this therapeutic mythology As expounded by Molefi Kete Asante Yosef Ben Jochannan and others Afrocentrism encourages black Americans to discard their recent history with its inescapable white presence and to embrace instead an empowering vision of their African specifically Egyptian ancestors as the source of western civilization Walker marshals a phalanx of serious scholarship to rout these ideas He shows for instance that ancient Egyptian society was not black but a melange of ethnic groups and questions whether in any case the pharaonic regime offers a model for blacks today asking if everybody was a King who built the pyramids But for Walker Afrocentrism is more than simply bad history it substitutes a feel good myth of the past for an attempt to grapple with the problems that still confront blacks in a racist society The modern American black identity is the product of centuries of real history as Africans and their descendants created new hybrid cultures mixing many African ethnic influences with native and European elements Afrocentrism replaces this complex history with a dubious claim to distant glory Afrocentrism offers not an empowering understanding of black Americans past Walker concludes but a pastiche of alien traditions held together by simplistic fantasies More to the point this specious history denies to black Americans the dignity and power that springs from an honest understanding of their real history      **Decolonisation, Africanisation and the Philosophy Curriculum** Edwin Etieyibo, 2019-10-23 This book appropriately titled Decolonisation Africanisation and the Philosophy Curriculum signposts and captures issues about philosophy the philosophy curriculum and its decolonisation and Africanisation This topic is of critical importance at present for the discipline of philosophy not the least because philosophy and the current philosophical canons are perceived to be improvised by virtue of their historical marginalisation and exclusion of other valuable and

important philosophical traditions and perspectives The continued marginalisation and exclusion of one such philosophical tradition and perspective i e African philosophy connects to issues of space contestations and raise questions of justice The chapters in this book engage with all of these issues and they also attempt to make sense of what it will mean for philosophy and the philosophy curriculum to be decolonised and Africanised how to go about achieving this task and what the challenges and problems are that confront efforts to decolonise and Africanise the philosophy curriculum Furthermore the contributors initiate discussions on the value and importance of non western philosophical traditions and perspectives and by so doing challenge the dormant and triumphant narrative and hegemony of Western philosophy as well as the centrality accorded to it in philosophical discourse The chapters in this book were originally published as articles in the South African Journal of Philosophy

Race, Ethnicity, Crime, and Justice Shaun L. Gabbidon, 2010 This book provides case studies from countries around the world regarding the nature and scope of concerns related to race ethnicity crime and justice The text centres primarily on English speaking countries where they have encountered problems related to race ethnicity crime and justice The book is designed to be used as either a main or supplementary text for courses focusing on race and crime minorities and crime and diversity in criminal justice Additionally it can also be used in sociology and ethnic studies courses that focus on race and crime

**Handbook of Research on Teachers of Color and Indigenous Teachers** Conra D. Gist, Travis J. *Themes Out of School* Stanley Cavell, 1988-08-15 In the first essay of this book Stanley Cavell characterizes philosophy as a willingness to think not about something other than what ordinary human beings think about but rather to learn to think undistractedly about things that ordinary human beings cannot help thinking about or anyway cannot help having occur to them sometimes in fantasy sometimes as a flash across a landscape Fantasies of film and television and literature flashes across the landscape of literary theory philosophical discourse and French historiography

give Cavell his starting points in these twelve essays Here is philosophy in and out of school understood as a discipline in itself or thought through the works of Shakespeare Moli re Kierkegaard Thoreau Brecht Makavejev Bergman Hitchcock Astaire and Keaton
