Diverse settings from the jungles of Africa in *Heart of Darkness* to the tumultuous seas in *Nostromo* serve as both literal and metaphorical landscapes through which he explores the challenges of modernity and the darkness that lies within humanity. Joseph Conrad, born in 1857 in the Polish region of Ukraine, experienced a peripatetic life marked by voyages that ignited his deep interest in maritime and colonial affairs. His early career as a sailor provided him with firsthand experience of the imperial enterprises that later fueled the rich tapestries of conflict and introspection in his narratives. This unique blend of personal adventure and philosophical reflection culminated in a body of work that continues to resonate with readers and scholars alike. This comprehensive volume is essential for enthusiasts of literary exploration as it not only showcases Conrad's mastery of the novel form but also prompts critical reflection on ethical dilemmas and the complexity of human emotion. Readers are invited to immerse themselves in the uncanny depths of Conrad's storytelling, uncovering timeless questions about civilization and the human condition.

Charlotte Riddell's City Novels and Victorian Business Silvana Colella, 2016-03-22 In spite of the popularity she enjoyed during her lifetime, Charlotte Riddell (1832-1906) has received little attention from scholars. Silvana Colella makes a strong case for the relevance of Riddell's novels as narrative experiments that shed new light on the troubled experience of Victorian capitalism. Drawing on her impressive knowledge of commerce and finance, Riddell produced several novels that narrate the fate of individuals: manufacturers, accountants, entrepreneurs, city men, and their female companions who pursue the liberal dream of self-determination in the unstable world of London business. Colella situates novels such as *Too Much Alone*, *George Geith*, *The Race for Wealth*, *Austin Friars*, and *The Senior Partner* in the broader cultural context, examining business manuals, commercial biographies, and essays to highlight Victorian constructions of the business ideal and the changing cultural status of the City of London. Combining historicist and formalist readings, Colella charts the progression of Riddell's imaginative commitment to the business world, focusing on the author's gendered awareness of the promises and disenchantments associated with the changing dynamics of capitalist modernisation. Her book enriches our understanding of Victorian business culture, the literary history of capitalism, and the intersections of gender, genre, and economics.
