Live by Your Fucking Rules

Edy Bravo,2021-03-08 What if you could live life YOUR way Very often and without realizing it we go through life adopting rules conditioning and shoulds which remain as part of our behavior our life tends to inertia when we are young we normally take a path choose a destination and very rarely we get out of it or question it in depth until most of our time on this earth has passed it is never too late to change but it is better to realize it early and start living from what we really want and not from what we have been told we have to do or where consumerism tells us that life is better Happiness does not come disguised as Louis Vuitton It is about enjoying life what we are going to do while we are here and how we can more fully enjoy our short but beautiful existence living the life we want and not the one we think we have to live In this book I will talk with you about 3 fundamental points to be able to start living your life with intention on purpose and from a place of creation and not of simple administration The characters of life We adopt and adapt characteristics of our environment and people of influence over whom we create characters that help us survive or belong to certain social circles Many times we do it subconsciously the idea of this book is to help you recognize these characters bring them to your consciousness and start creating them on purpose and not as a mere automatic response Re signify your story Our stories often define and limit us create chains that bind us and do not allow us to move beyond what is expected of us what we believe is possible and what we have experienced in the past In this book I will talk to you about the methods that I have personally used and some other strategies to change the meaning of your life stories and recover the natural role of hero or heroine in your own story I will show you how those chains were not tied to anything Our rules We create rules around our behavior and that of other people many of which we adopt since we were little and carry them through life marking the way of how things should be how we should behave and behave how others have to act Many of these rules come from our environment and have been passed

from generation to generation without anyone really asking about their origin or their real usefulness In this book I want to invite you to throw away readapt and revise those old rules and to discover the tools of life that we also have forgotten in the subconscious About the author My name is Edy Bravo and I write this book because I think it is necessary at least I needed it a few years ago I learned the hard way what it means to sacrifice yourself to please others adopt new rules and beliefs in order to belong and feel included This is not my first book the first was about my spiritual concepts of everyday things The Age of Consciousness not a single rudeness the second a novel IMPERIUM The Awakening an action thriller with a story very good or at least I liked it a lot and this is my third book but it is the first that I write without self censorship where rudeness abounds there are jokes and I take it much more relax this is where I am 100% me but everything has a reason as you will discover in this book my real me was crouched hidden behind many rules masks characters and stories that today do not make sense
