Familiar Medicine:

Familiar Medicine David Craig, 2002-06-30 One of the first medical ethnographies to be written on contemporary Vietnam Familiar Medicine examines the practical ways in which people of the Red River Delta make sense of their bodies illness and medicine Traditional knowledge and practices have persisted but are now expressed through and alongside global medical knowledge and commodities Western medicine has been eagerly adopted and incorporated into everyday life in Vietnam but not entirely on its own terms Familiar Medicine takes a conjectural interdisciplinary approach to its subject weaving together history ethnography cultural geography and survey materials to provide a rich and readable account of local practices in the context of an increasingly globalized world and growing microbial resistance to antibiotics Theoretically it draws on current critical and cultural theory in particular applying Pierre Bourdieu's work on habitus and practical logics in innovative but approachable ways David Craig addresses a range of contemporary fascinations in medical anthropology and the sociology of health and illness from the trafficking of medical commodities and ideas under globalization to the hybridization of local cultural formations knowledge and practices His book will be required reading for international workers in health and development in Vietnam and a rich resource for courses in cultural geography anthropology medical sociology regional studies and public and international health American Medicine As Culture Howard F. Stein, 2019-03-01

This book situates biomedicine within American culture and argues that the very organization and practice of medicine are themselves cultural It demonstrates the symbolic construction of clinical reality within American biomedicine and shows how biomedicine never leaves the realm of the personal **Clinical Methods in Medical Family Therapy** Tai

Oxford Textbook of Primary Medical Care Roger Jones (Prof.), 2005 *The National Real Estate Journal*, 1924 *Inclusion of private family physicians in mixed health systems* World Health Organization, 2025-02-14 Primary care is foundational to health service delivery and a primary health care PHC approach It is the core of the service fronting component of PHC and refers to essential health and social services that meet most of people s health needs delivered close to home In PHC oriented systems primary care enables first contact access continuity comprehensiveness and coordination This brief explores the role of family physicians within the delivery of primary care with a specific focus on those working in private practice It considers the development of the profession and the organization and contribution of family physicians in private practice to person oriented high quality primary care The literature suggests that expanding opportunities for family physicians to apply their

specialized skills and take on leadership roles within primary care teams can enhance the effectiveness of care delivery This should take cognizance of the context in which they operate in relation to the overall health system and be guided by national policy

The Family in America Joseph M. Hawes, Elizabeth F. Shores, 2002-05-22 An incisive multidisciplinary look at the American family over the past 200 years written by respected scholars and researchers Family in America offers two powerful antidotes to popular misconceptions about American family life historical perspective and scientific objectivity When we look back at our early history we discover that the idealized 1950s family characterized by a rising birthrate a stable divorce rate and a declining age of marriage was a historical aberration out of line with long term historical trends Working mothers we learn are not a 20th century invention most families throughout American history have needed more than one breadwinner In the exciting new scholarship described here readers will learn precisely what is new in American family life and what is not and acquire the perspective they need to appreciate both the genuine improvements and the losses that come with change
