Families Politics And The Law Perspectives For East And West Europe:

Families, Politics and the Law Mavis Maclean, Jacek Kurczewski, 2023 This study examines the recent political shift from interventionist policies on family welfare to one of freedom from interference The contributors discuss factors contributing to the debate such as economics religious fundamentalism gender roles and access to divorce or abortions **Political and Legal Perspectives of the EU Eastern Partnership Policy** Tanel Kerikmäe, Archil Chocia, 2016-01-23 This book examines EU Eastern Partnership taking into account geopolitical challenges of EU integration It highlights reasons for limited success such as systematic conflict of EU External Action In addition the book analyses country specific issues and discusses EaP influence on them investigating political economic and social factors while seeking for potential solutions to existing problems The reluctance of the Eastern countries to the European reforms should not reduce political pro activeness of the EU The authors suggest that EaP strategies should be reviewed to be more reciprocal and not based solely on the EU laden agenda This book is one of the good examples of cooperation between scholars not only from EaP and EU countries but also from different disciplines bringing diversity to the discussion process Families, Politics and the Law Mavis Maclean, Jacek Kurczewski, 1994 The family has become a political battleground in both East and West In the West interventionist policies designed to encourage equality of opportunity and to eliminate the problems encountered by disadvantaged members of the traditional family usually women children and the elderly have been replaced by a fresh quest for individual freedom from interference by the State Once again inequality of economic power is determining decisions such as whether or if at all to seek divorce or abortion in situations where previously the State regulated by means of offering economic support The process of rolling back the influence of the State has been dubbed privatisation of the family and the consequences of this shift by the State are here examined in considerable detail by a group of experts The same examination of family in the East throws up similar terminology privatisation for instance appears frequently but the motivating forces and processes are intriguingly different In the East concern to retain welfare provision to reject the past and to reflect national values without reducing individual liberty now requires a balancing act of extreme delicacy State withdrawal from the family leaving the family as a private sphere seems to be accompanied by a new emphasis on fundamental religious roles which tend to stress differences between gender roles and to limit access to divorce or abortion in order to strengthen the traditional family The authors of this book examine this evolutionary process and ask what can be found of value in the exaggerated collectivism of the former communist regimes **Ibss: Political Science: 1994** British Library of Political and Economic Science at the London School of Economics, 1995-12-08 The IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences **Women and Gender in Central and Eastern Europe, Russia, and Eurasia** Mary Zirin, Irina Livezeanu, Christine D. Worobec, June Pachuta Farris, 2015-03-26 This is the first comprehensive multidisciplinary and

multilingual bibliography on Women and Gender in East Central Europe and the Balkans Vol 1 and The Lands of the Former Soviet Union Vol 2 over the past millennium The coverage encompasses the relevant territories of the Russian Hapsburg and Ottoman empires Germany and Greece and the Jewish and Roma diasporas Topics range from legal status and marital customs to economic participation and gender roles plus unparalleled documentation of women writers and artists and autobiographical works of all kinds The volumes include approximately 30 000 bibliographic entries on works published through the end of 2000 as well as web sites and unpublished dissertations Many of the individual entries are annotated with brief descriptions of major works and the tables of contents for collections and anthologies The entries are cross referenced and each volume includes indexes

Theorising Social Change in Post-Soviet Countries Balihar Sanghera, Sarah Amsler, Tatiana Yarkova, 2007 The book traces
 three main approaches to the sociology of post Soviet societies studies guided by neoliberal theory and or practice work
 which may be termed neoconservative in orientation and which is often a response to the first and a third type of work that is
 considered both critical and reflexive and which seeks to transcend the limitations of the other approaches The book is
 divided into three parts addressing polity culture and economy In each section authors endeavour to transcend both
 neoliberalism and neoconservatism and reach for a third approach critical social science This is a broad movement and the
 authors vary in their own explanatory and normative ideas as they carve out frameworks that will enable them to develop a
 more rigorous and at the same time more comprehensive and critical understanding of social change Children, Family

 improving your understanding of what examiners are looking for helping you to focus in on the question being asked and
 showing you how to make even a strong answer stand out **Family Law, Gender and the State** Alison Diduck, Felicity
 Kaganas, 2012-02-07 The third edition of this work on family law comprising text cases and materials provides not only an
 explication of legal principle but also explores primarily from a feminist perspective some of the assumptions about and
 constructions of gender sexual orientation class and culture that underlie the law It examines the ideology of the family and

in particular the role of the law in contributing to and reproducing that ideology Structured around the themes of equality welfare and family privacy the book aims to offer the benefits of a textbook while also giving students a wide ranging set of materials for classroom discussion As well as providing a firm grounding in family law the text sets the law in its social and historical context and encourages a critical approach by students to the subject It provides an ideal introduction to family law for undergraduates but will be equally helpful for postgraduate students of family law for whom it provides a challenging selection of materials set within a theoretical framework rich in ideas and arguments Review of the second edition Diduck and Kaganas examine legal developments to shed light on society principally by investigating the ways in which family law constructs and regulates family life and responsibilities Theirs is an important and ambitious book that aims ultimately at a feminist restatement of family law The book is written and referenced in such depth that it is a useful resource for legal as well as social science researchers at all levels whether looking for theoretical inspiration or drawing up a literature review The range of diverse sources that Diduck and Kaganas draw on is impressive they seem to have included every bit of material that helps feminists make sense of family law There is a well pitched selection of further reading of such material at the end of each chapter What s more they undersell themselves by describing their book as Text Cases and Materials because they have woven by far the largest proportion of the cases and materials into the text Helen Reece Times Higher Education May 2007 Reviews of first edition A stimulating work which attempts to situate family law in its social historical and political context Its appeal should not be confined to family law students as its commitment to a critical and analytical approach offers insights and ideas with broader significance Mary Childs Child and Family Law Quarterly September 2002 The arguments are provocative the analysis is stimulating and the materials amassed strongly support the authors aim to question the axiomatic status of what is traditionally designated as the family Fiona E Raitt Infant and Child Development September 2002 It is not often that one can say of a textbook in Law that it makes interesting reading with quite the enthusiasm that can be expressed for this text This new publication offers something that few textbooks seem to offer a book you CAN open up virtually anywhere and find an interesting piece on almost any aspect of the broad family law spectrum Penny Booth The Law Teacher September 2002 All the major themes in feminist and constructionist perspectives in family law are presented together with a wealth of readings and extensive references As a teaching manual it is excellent a coherent feminist perspective across the entire range of family law Marty Slaughter Feminist Legal Studies July 2003
