Family and Kinship in East London Michael Young, Peter Willmott, 2011 First published in 1957 and reprinted with a new introduction in 1986 Michael Young and Peter Willmott's book on family and kinship in Bethnal Green in the 1950s is a classic in urban studies A standard text in planning housing family studies and sociology it predicted the failure in social terms of the great rehousing campaign which was getting under way in the 1950s The tall flats built to replace the old slum houses were unpopular Social networks were broken up The book had an immediate impact when it appeared extracts were published in the newspapers the sales were a record for a report of a sociological study Government ministers quoted it But the approach it advocated was not accepted until the late 1960s and by then it was too late This Routledge Revivals reissue includes the authors introduction from the 1986 reissue reviewing the impact of the book and its ideas thirty years on They argue that if the lessons implicit in the book had been learned in the 1950s London and other British cities might not have suffered the anomie and violence manifested in the urban riots of the 1980s

Family and Kinship in East London

Michael Young, Peter Willmott, 1992-03-09 A wonderfully vivid accurately observed portrait of a way of life whose value as a historical document increases as the East End of small factories docks and busy streets of row houses disappears and with it the culture of the old Bethnal Green Dolores Hayden author of *The Grand Domestic Revolution*

The New East End Michael Young, Kate Gavron, Geoff Dench, 2011-09-30 This is non fiction Brick Lane what life is really like around Brick Lane and the East End One of the most influential non fiction books of the 1950s was *Family and Kinship in East London* which examined in great depth the life of people living in the dockland areas that had been so comprehensively destroyed in the blitz What

has happened since In the 50 years since the whole area has gone into terrible decline has been comprehensively redeveloped sometimes more than once and most important of all has seen the traditional families largely leave to be replaced by a huge influx of Bangladeshi families many of whom are now into the second generation What are their lives like How is the community coping with the radical change What are relations like between the old white population and the new Asian population Does government policy affect racism Here the authors show startlingly that housing policies have made race relations much worse and must be changed This will be very controversial The book is a comprehensive examination of life in one of the most intriguing parts of England but it stands for all Britain and indeed everywhere in the world with large new immigrant populations

Family and Kinship in East London Michael Young, Peter Willmott, 1969 **Housing and Young Families in East London** Anthea Holme, 2023-08-09 Originally published in 1985 Anthea Holme focuses her study on Bethnal Green in East London and Wanstead and Woodford in outer East London the areas covered by Michael Young and Peter Willmott in their celebrated books *Family and Kinship in East London* and *Family and Class in a London Suburb* Her aim was to discover how things had changed in the twenty five years or so since the publication of these classic studies She makes a four way comparison between then and now and between two neighbourhoods of the present a relatively prosperous outer London suburb and a London East End district carrying its full quota of inner city problems The book takes as its starting point a crucial event in a family's history the birth of the first child Housing may contribute to the happiness or the stress of the family at this time The author looks at the present housing and the housing history of families who have just had their first child and discusses their satisfactions problems and aspirations She draws attention to the contrasts in housing in tenure dwelling type condition surroundings and in the opportunity to acquire a home in the first place already evident twenty five years ago She also shows that while in many ways in patterns of consumption for instance change has brought the two places together housing has driven them further apart Owner occupation dominant in Woodford and council tenancy dominant in Bethnal Green are rapidly becoming the respective symbols of the have and the have nots Anthea Holme concludes that in the present political economic and social climate this division can only grow wider unless or until housing is regarded as the vitally important component it is in inner city life

Michael Young and Peter Willmott. *Family and Kinship in East London* Michael Young, Peter Willmott, 1962 Michael Young, *Social Science, and the British Left, 1945-1970* Lise Butler, 2020-09-02 In post war Britain left wing policy maker and sociologist Michael Young played a major role in shaping British intellectual political and cultural life using his study of the social sciences to inform his political thought In the mid twentieth century the social sciences significantly expanded and played a major role in shaping British intellectual political and cultural life Central to this intellectual shift was the left wing policy maker and sociologist Michael Young As a Labour Party policy maker in the 1940s Young was a key architect of the Party's 1945 election manifesto *Let Us Face the Future* He became a sociologist in the 1950s publishing a classic study of the East London working class *Family and*

Kinship in East London with Peter Willmott in 1957 which he followed up with a dystopian satire *The Rise of the Meritocracy* about a future society in which social status was determined entirely by intelligence Young was also a prolific social innovator founding or inspiring dozens of organisations including the Institute of Community Studies the Consumers Association Which magazine the Social Science Research Council and the Open University Moving between politics social science and activism Young believed that disciplines like sociology psychology and anthropology could help policy makers and politicians understand human nature which in turn could help them to build better political and social institutions This book examines the relationship between social science and public policy in left wing politics between the end of the Second World War and the end of the first Wilson government through the figure of Michael Young Drawing on Young's prolific writings and his intellectual and political networks it argues that he and other social scientists and policy makers drew on contemporary ideas from the social sciences to challenge key Labour values like full employment and nationalisation and to argue that the Labour Party should put more emphasis on relationships family and community Showing that the social sciences were embedded in the project of social democratic governance in post war Britain it argues that historians and scholars should take their role in British politics and political thought seriously *Histories of Everyday Life* Laura Carter, 2021 This book is a social history of popular history in Britain between the end of the First World War and the 1970s It considers how ordinary people were taught history through books in school and museums and on BBC radio Historical Anthropology of the Family Martine Segalen, 1986-11-28 Over the past decade or so the social scientific sociological analysis of the family has been obliged to reconsider its traditional view that industrialisation triggered a shift within society from the large family which fulfilled all social functions from socialising the children to caring for the sick and the old to the modern nuclear family which was regarded solely as being the locus for emotional relationships Historians have shown that in the past there was a variety of family structures within a range of varying demographic economic and cultural frameworks distinctive for each society At the same time the interaction between sociology and social anthropology has led to a clearer conceptual analysis of that vague polysemic term family and notions of dwelling place descent marriage the relative roles of husband and wife and parent child relations as well as the more general relations between generations have in a variety of past and present social contexts been taken apart and analysed In this book the author synthesises European and North American historical and social anthropological material on the family that shows the reversal of the frequently held view of the family as an institution in decline showing it instead to be both dynamic and resistant **Routledge Library Editions: British Sociological Association** Various, 2021-07-14 The volumes in this set originally published between 1969 and 2001 is comprised of original books published in conjunction with the British Sociological Association The set draws together original research by leading academics based on study groups and conference papers in the areas of youth race the sociology of work gender social research urban studies class deviance and social control law development and health Each volume

provides a rigorous examination of related key issues This set will be of particular interest to students and academics in the field of sociology health and social care gender studies and criminology respectively **Family Secrets** Deborah Cohen,2013 What did families hide in the past and why By delving into the familial dynamics of shame and guilt Family Secrets investigates the part that families so often regarded as the agents of repression have played in the transformation of social mores from the Victorian era to the present day **The Family and Industrial Society** C. C. Harris,2021-10-17 Originally published in 1983 the origin of this book is to be found in C C Harris s Changing conceptions of the relation between family and societal form in Scase Industrial Society Class Cleavage and Control In that article Harris attempted to relate traditional research on the family to recent developments in historical enquiry and Marxist scholarship The aim of The Family and Industrial Society is to explain the character of the contemporary family by placing it in a wider historical and theoretical perspective It is therefore directed at the undergraduate student for whom the sociology of the family as a topic has for too long been relatively unrelated to those contemporary developments in sociological thought and practice which inform other substantive areas of sociological work The late C C Harris is perhaps best known for his best selling introductory text The Family An Introduction first published in 1969 This new text was not however a straightforward replacement of an earlier book by a more up to date volume Far too much had happened in sociology in social studies and in family life itself for a simple updating to make any sense The Family was primarily a descriptive introduction and was a presentation albeit critical of an orthodoxy While this new book retains an introductory element based upon The Family s earlier chapters the greater part of it is exploratory and assumes a higher level of sophistication and sociological understanding it is also substantially longer Dr Harris was singularly well qualified to write a volume of this kind Not only had he conducted and was conducting empirical research into the family but his wide theoretical interests rendered him uniquely well placed to contribute to the theoretical development of his field Few sociologists shared his familiarity with both anthropological and historical work He was thoroughly familiar with the now unfashionable structural functional approach of which he had always been critical but was enthusiastic about the potentialities of contemporary developments The result is a sophisticated text which combines instruction criticism interpretation and exploration in one volume which familiarises the student with the fundamental work of the past too often neglected and explores exciting new developments for the future It also includes the only general discussion of change in the British family since the last edition of Fletcher s The Family and Marriage in Britain **Family and Class in a London Suburb** Peter Willmott,Michael Young,2023-08-09 Originally published in 1960 the authors of Family and Kinship in East London then made an intensive study of a middle class dormitory suburb Here families were more often on their own than in the East End but despite the differences between the districts there were some similarities The bond between mother and married daughter was almost as strong in the suburb as in the city Most old people too were cared for in both places by their children and other relatives though the authors show how

serious were the special problems of the aged in this suburban setting The enquiry examined the influence of social class upon community life This is reviewed in relation to club and church membership and to friendship patterns and the behaviour of middle and working class people to each other is discussed Class tensions and their effect on the otherwise friendly and neighbourly atmosphere that the authors found in the suburb provide the main theme of the final chapters *Pathways to Data* Robert Wesley Habenstein, It is much better observed C Wright Mills in an essay on intellectual craftsmanship to have one account by a working student of how he is going about his work than a dozen codifications of procedure by specialists who often as not have never done much work of consequence This observation underscores the premise of this book that there is a need for students to communicate the procedures and strategies of field research they have found consequential in their own studies to the less instructed or less experienced The contributors to this book are well known researchers and share their field developed techniques of research craftsmanship The pathways to data they describe wind in a common direction toward a concern with research happenings in situations in agencies associations institutions campaigns demonstrations and goal directed social movements The selections included in *Pathways to Data* are neither biographies of research projects nor subjective evaluations of personal experiences Rather the writers emphasize techniques operations and know how *Pathways to Data* s chapters are collateral cousins to the collection of research biographies found in *Sociologists at Work* another classic in the field But the lineage or progression of thought traces back to the Webbs *Methods of Social Study* and is most closely related to the Glaser and Strauss volume *The Discovery of Grounded Theory* The contributors to this book reflect a common concern with organization in the down home sense of social bonds opening and closing of self involvement and most importantly social structure Process is stressed above system becoming over being Seen programatically field methods deliver data to concepts and techniques are grounded in the heuristic value such data display Theory is grounded in concepts validated by the effectiveness with which they give meaning to the data The production of social knowledge is symmetrical reciprocal but analyti Provided by publisher Family and Marriage Mogey,2022-09-12
