Family Caregiving Across The Lifespan:

Family Caregiving Across the Lifespan Eva Kahana, David E. Biegel, May Wykle, 1994-03-16 Published in cooperation with the Center for Practice Innovations Mandel School of Applied Social Sciences Case Western Reserve University

Increased life expectancy the deinstitutionalization of persons with mental illness the rise of home health care and advances in medical technology have resulted in greater numbers of dependent people requiring care by family members The frail elderly the chronically mentally ill and the physically disabled are examples of such groups who now receive their daily care in the community How do families accept the burden of this care What are the physical and emotional demands of such caregiving Are the families prepared to assume this role Family Caregiving Across the Lifespan considers the broad spectrum of chronic illnesses that necessitate family caregiving throughout the lifespan and expands the caregiving paradigm by including in its focus both members of the caregiving dyad and significant non family caregivers It also explores the social context in which care is provided an entire section of the volume is devoted to discussions of the interface between informal and formal caregivers and society at large Among the other subjects this volume addresses are the negative consequences of family caregiving the value of providing support to caregivers and caregivers of persons living with AIDS Family Caregiving Across the Lifespan is important reading for those in social work nursing family medicine and clinical psychology Family Caregiving Across the Lifespan represents a significant milestone in the continuing maturation of this vital area of long term care The title is an understatement of the authors accomplishments Rather than offering narrow boxes or labels the book invites the reader to join in a broadened perspective on caregiving so that it can more fully reflect the richness of the lives of all involved For those who encounter Family Caregiving Across the Lifespan as part of their continuing study of caregiving the book provides the integrating milestone of caregiving literature Journal of Case Management This volume is a useful compendium of articles on family caregiving The fourteen chapters in this volume address many important topics in family caregiving One of the book's major contributions is its clarification that family caregiving to frail or chronically ill people has no age limitation although there are unique issues at different points in the development of individuals and families The book has exceptional merit It expands our understanding of family caregiving provides important ideas for future research offers research findings that enhance our understanding of family care and presents a very useful review of the literature This book would be a beneficial addition to the library of all researchers in the area of caregiving They will discover worthwhile conceptualizations and gain new insights that can inform their research Practitioners should also benefit from this collection The chapters addressing interaction between formal and informal caregivers should give practitioners a deeper understanding of how to be more effective in dealing with informal caregivers and care recipients Ageing Society One paper in this volume deserves particular notice because it attempts to do what many of the authors feel is most critical in caregiving research but also most difficult namely to analyze the effectiveness of caregiving the effect of provision of care on

elder health outcomes This is an important and original conceptualization of the problem Steven M Albert Contemporary Gerontology This book is both unique and valuable because it embraces Brody s observation that family caregiving is not limited to a specific segment of the life span Moreover the book is not limited to filial caregiving but entertains an impressive variety of contexts of family caregiving This book will be a valuable text in graduate level courses Journal of Marriage and the Family **Family Caregiving Across the Lifespan** ,1994 Examining caregiving issues from a multigenerational family life cycle perspective this volume deals with the broad spectrum of chronic illnesses that necessitate family caregiving throughout the lifespan and discusses responses to these challenges by both caregiving families and caregiving systems

Family Caregiving Across the Lifespan Center for Practice Innovations,Mandel School of Applied Social Sciences (Case Western Reserve University),1994-03-16 Examining caregiving issues from a multigenerational family life cycle perspective this volume deals with the broad spectrum of chronic illnesses that necessitate family caregiving throughout the lifespan and discusses responses to these challenges by both caregiving families and caregiving systems Part One addresses the caregiving paradigm and the relationship of family caregiving research to family life studies Part Two examines conceptual aspects of caregiving ranging from the expansion of the caregiving paradigm caregiving processes and tasks to the positive aspects of caregiving Part Three emphasizes how family caregivers are affected by the connection or lack of it to macro level systems **Caregiving Across the Lifespan** Ronda C. Talley, Lydia LaGue, 2012-12-22 Most scholars do not consider the long term nature of caregiving but rather focus on a specific developmental period e g old age or a specific disability e g cancer Yet the most important lessons about caregiving may occur at any age regardless of disabilities or other limitations Caregiving is a lifelong process It begins in a mother s womb continues throughout the lifespan and ends after death Caregiving Across the Lifespan emphasizes caregiving as a process that occurs throughout one s life It discusses infant care the developmental needs of children and adolescents the many caregiving issues in adulthood and mid life and finally end of life care and bereavement Key coverage includes Examining caregiving issues across a developmental perspective Caregiving from infancy through early childhood through end of life Mid life and multigenerational bonds and responsibilities Caregiver identity in older adults Family caregiving at the end of life This must have volume offers a wealth of insights and ideas for researchers practitioners and graduate students across the caregiving fields including psychology social work public health geriatrics and gerontology and medicine as well as public and education policy makers Intellectual Disabilities: Health and Social Care Across the Lifespan Fintan Sheerin, Carmel Doyle, 2023-06-19 This textbook provides nurses allied health and social care professionals with the background knowledge necessary to support individuals with intellectual disabilities and their families It is a unique and viable resource which is particularly timely as recent decades have seen a significant change in the demographics and associated care and support needs of this population The textbook is laid into four sections to provide a logical structure for the content with chapters developing key topic areas relevant to the

field The introductory section sets the overall context for the book and considers the importance of developing an understanding of intellectual disability as a core concept identifying philosophies and models of service that underpin health and social care across the lifespan Communication as a basis for caring and the overall concept of person centred caring in a multidisciplinary context is considered The second section explores key concepts from birth to adulthood exploring the nature of intellectual disability the child with intellectual disability and other related neurodevelopmental conditions The third section explores adulthood to older age and considers specific health care needs understanding behaviour and other fundamental concepts including mental health ageing and palliative care The fourth and final section explores the integration of health and social care addressing such issues as supporting and enabling families education employment and sexuality and relationships Edited by experienced and widely respected professionals this textbook is written by international practitioners educators and researchers who all play critical roles in working with individuals with intellectual disability and their families

Family Support and Family Caregiving across Disabilities George H.S. Singer, David E. Biegel, Patricia Conway, 2014-06-11 Family members provide the majority of care for individuals with disabilities in the United States Recognition is growing that family caregiving deserves and may require societal support and evidence based practices have been established for reducing stress associated with caregiving Despite the substantial research literature on family support that has developed researchers advocates and professionals have often worked in separate categorical domains such as family support for caregiving for the frail elderly for individuals with mental illness or for people with development disabilities Family Support and Family Caregiving across Disabilities addresses this significant limitation through cross categorical and lifespan analyses of family support and family caregiving from the perspectives of theory and conceptual frameworks empirical research and frameworks and recommendations for improvements in public policy The book also examines children with disabilities children with autism adults with schizophrenia and individuals with cancer across the life cycle This book was published as a two part special issue in the Journal of Family Social Work

Feminist Perspectives on Family Care Nancy R. Hooyman, Judith Gonyea, 1995-08-29 Today women find themselves playing an ever increasing role in caring for older family members who are frail developmentally disabled or suffering from serious mental illness While this has role of women as caregivers has been documented the actual impact on the lives of women has remained largely unstudied In this volume the authors examine caregiving as a central feminist issue looking at its impact on women socially personally and economically The authors review how changing family structures the changing economy and workforce and the changing health care demands of needy adults have impacted on women s lives They critique existing public and private policies demonstrating a need for fundamental structural changes in social institutions and attitudes to improve the lives of women Finally they propose a social model of care that is oriented toward gender justice recognition of the work of caring and its impact upon women socially personally and economically For students scholars and practitioners in the field of

gerontology gender studies and social work this book is a must **Family Care in HIV/AIDS** Premilla D'Cruz, 2004-06-30

This book vividly describes family care in HIV AIDS through the lived experiences of caregivers and care receivers It contributes to our knowledge not only because of the contemporary relevance of family caregiving but also because of its focus on HIV AIDS which being a relatively new disease is little understood yet poses unique challenges due to its stigmatising long drawn debilitating and terminal nature Based on a study conducted in Mumbai Family Care in HIV AIDS captures the lived experiences of 10 caregivers and seven care receivers belonging to diverse socio economic groups and traditional as well as non traditional family settings Overall the book provides valuable insights into a range of important issues related to caregiving in family settings while identifying areas for intervention and further research In addition it overcomes many gaps identified in the substantive area of family care by Western researchers **Caregiving Across the**

Haigler, Kathryn B. Mims, Jack A. Nottingham, 1998 Caring for persons with chronic illnesses or disabilities is a rewarding endeavor but it often places extreme demands on those providing care Caregivers need both education and support to understand their caregiving roles and to cope with the difficult situations they face All too often there is a chasm between professionals who are part of the formal caregiving system and family members friends and neighbors who provide daily care The Caring for You Caring for Me education and support program is a valuable tool for use in providing caregivers with education and support The program is designed to bring formal professional and informal lay family caregivers together to gain a better understanding of each other s perspectives on what it means to be a caregiver with the hope that in the process both will learn to do it better The program is based on caregiving research and the expertise of frontline caregivers The Leader s Guide contains everything needed to conduct a ten hour education and support program for caregivers informational content layouts for overhead transparencies and suggested group activities The companion Participant s

Manual supports the presentation providing a workbook for class activities a suggested reading list and a compendium of national sources of help for caregivers Caring for You Caring for Me was developed by the Rosalynn Carter Institute under the guidance of the West Central Georgia Caregivers Network CARE NET The Rosalynn Carter Institute was established in 1987 Its mission is to understand the process of caregiving and discover new ways to benefit both formal and informal caregivers The Institute supports the premise that caregivers and care receivers can be served most effectively through the collaborative efforts of formal and informal caregivers academicians public and private services and organizations representing caregivers and recipients of care

Caring and Competent Caregivers Robert Moroney,1998 Chronic health conditions are the leading cause of illness disability and death in the United States today affecting nearly one hundred million citizens These conditions cost the economy more than 470 billion a year in direct medical costs and more than 230 billion in lost productivity While Americans pride themselves on living in a caring country society as a whole has not fully prepared for the many challenges presented by chronic illness This timely book illustrates the caregiving needs to be faced in the next century Written by individuals associated with the National Quality Caregiving Coalition NQCC of the Rosalynn Carter Institute Caring and Competent Caregivers is a foundation book for use by academicians conducting professional training programs diverse health care and social service providers on the front lines providing assistance to others and students entering the field Incorporating philosophy social science research and impressionistic evidence this book provides a basis for education and practice that is both inspirational and practical

Chronic Illness Ilene Morof Lubkin,Pamala D. Larsen,2002 Focuses on the various aspects of chronic illness that influence both patients and their families Topics include the sociological psychological ethical organizational and financial factors as well as individual and system outcomes

Bridging the Family Care Gap Joseph E. Gaugler,2021-01-09 Bridging the Family Care Gap explores expected future shortages of family caregivers of older persons and identifies potential solutions The book examines the sustainability and

availability of care management models and whether they can be effectively scaled up to meet community needs It identifies newly emerging policy initiatives at local state and federal levels The book addresses the state of family caregiving science dissemination and implementation of promising programs and supports technological innovations and other strategies to offset the family care gap This edited volume also explores lay healthcare workers as guides interpreters and advocates in healthcare systems that provide continuity of contact for family caregivers Details threats to family caregiving sociodemographic chronic disease and socioeconomic challenges Presents solutions to the caregiving gap in a systematic synthesized manner Addresses the intersection of family caregiving and technology Discusses chronic disease management to offset and reduce the need for family caregiving Describes models of caregiver support in work settings Reimagines the delivery of long term services and supports with novel initiatives *Family Caregiving* Whitney A. Bailey, Amanda W. Harrist, 2017-10-28 This comprehensive resource offers a detailed framework for fostering resilience in families caring for their older members Its aim is to improve the quality of life for both the caregivers themselves as much as for those they support Robust interventions are presented to guide family members through chronic and acute challenges in areas such as emotional health physical comfort financial aspects of care dealing with health systems and adjusting to transition Examples models interviews and an extended case study identify core concerns of caregiving families and avenues for nurturing positive adaptation Throughout contributors provide practical applications for therapists and other service providers in diverse disciplines and for advancing family resilience as a field Included in the coverage Therapeutic interventions for caregiving families Facilitating older adults resilience through meeting nutritional needs Improving ergonomics for the safety comfort and health of caregivers Hope as a coping resource for caregiver resilience and well being Perspectives on navigating care transitions with individuals with dementia Planning for and managing costs related to caregiving Family Caregiving offers a new depth of knowledge and real world utility to social workers mental health professionals and practitioners educators and researchers in the field of family resilience as well as scholars in the intersecting disciplines of family studies human development psychology sociology social work education law and medicine *Understanding Family Care* Mike Nolan, Gordon Grant, John Keady, 1996 How are the burdens and difficulties of caregiving balanced by the satisfactions experienced How do the demands of caregiving change over time and what are the policy and practice implications of such changes How is a balance achieved between the needs of the caregiver and the cared for person The importance of family informal care both in making a reality of community care policies and in helping to sustain the quality of life of people who require support to remain within their homes is beyond doubt However whilst a considerable research and practice literature has developed in this area over the last ten years there remains much to learn about caring at both conceptual and practice levels There is in particular a need to develop more dynamic models which account for the changing nature of care over time and integrates the perspectives of carer cared for person and the formal service network Based on

several years research conducted by the authors Understanding Family Care integrates a number of theories and perspectives in order to provide a more holistic understanding of the needs of carers Emphasis is placed on providing a balanced picture which recognizes both the burdens and satisfactions of caring in addition to the coping efforts that carers employ A new longitudinal model of caring is described and the various stages and processes are explored Although the focus is primarily on the carer the perspectives of the cared for person are not ignored and a model is presented which aids the integration of disparate viewpoints In addition to theoretical and methodological debates implications for policy and practice are fully explored Understanding Family Care is recommended reading for practitioners and managers in the health and social services as well as students of social science nursing gerontology and social work

Health Assessment & Promotion Strategies Through the Life Span Ruth Beckmann Murray, Judith Proctor Zentner, 1997 A holistic approach to the health care of individuals and families this indispensable resource offers specific guidelines for nursing assessment with suggested interventions and health promotion strategies at each developmental stage from birth to death The sixth edition of this popular book provides a critical pathway paradigm for health
