Family Law Casebook 4th:

The Psychology of Family Law Eve M. Brank, 2019-04-09 Winner 2021 Lawrence S Wrightsman Book Award given by the American Psychology Law Society Bridges family law and current psychological research to shape understanding of legal doctrine and policy Family law encompasses legislation related to domestic relationships marriages parenthood civil unions guardianship and more No other area of law touches so closely to home or is changing at such a rapid pace in fact family law is so dynamic precisely because it is inextricably intertwined with psychological issues such as human behavior attitudes and social norms However although psychology and family law may seem a natural partnership both fields have much to learn from each other Our laws often fail to take into account our empirical knowledge of psychology falling back instead on faulty assumptions about human behavior This book encourages our use of psychological research and methods to inform understandings of family law It considers issues including child custody intimate partner violence marriage and divorce and child and elder maltreatment For each topic discussed Eve Brank presents a case statute or legal principle that highlights the psychological issues involved illuminating how psychological research either supports or opposes the legal principles in question and placing particular emphasis on the areas that are still in need of further research The volume identifies areas where psychology practice and research already have been or could be useful in molding legal doctrine and policy and by providing psychology researchers with new ideas for legally relevant research Problems, Readings, and Materials on the Lawyer as a Negotiator Harry T. Edwards, James J. White, 1977 The Oxford Handbook of Psychology and Law David DeMatteo, Kyle C. Scherr, 2023-02-17 The Oxford Handbook of Psychology and Law offers an up to date scholarly and broad overview of psychology law topics David DeMatteo and Kyle C Scherr have brought together a diverse group of highly esteemed applied and experimental researchers and scholars to discuss key topics in the field from both national and international perspectives A comprehensive coverage of both applied and experimental topic areas with chapters written by a diverse group of well established psychology law scholars and emerging future leaders this Handbook presents emerging cutting edge topics in psychology law that will continue to grow and meaningfully shape future research programs and policy reform "When Brothers Dwell in Unity" Stephen Morris, 2016-01-14 In the world of early Byzantine Christianity monastic rules acknowledged but discouraged the homosexual impulses of adult males What most disturbed monastic leaders was adolescent males being accepted as novices adult men were considered unable to control their sexual desires for these beautiful boys John Chrysostom the Archbishop of Constantinople 397 407 virulently denounced homosexuality but was virtually the only Byzantine cleric to do so Penances traditionally attached to heterosexual sins including remarriage after divorce or widowhood have always been much more severe than those for a variety of homosexual acts or relationships Just as Byzantine churches have found ways to accommodate sequential marriages and other behavior once stridently condemned this book argues it is possible for Byzantine Christianity to make pastoral accommodations for gay relationships and same sex

marriage **After Marriage** Elizabeth Brake, 2016 Provides a collection of essays by liberal and feminist philosophers addressing the question of whether marriage reform ought to stop with same sex marriage Taken together these essays challenge contemporary understandings of marriage and the state's role in it From publisher description **Prenuptial Agreements and the Presumption of Free Choice** Sharon Thompson, 2015-08-27 This book provides an alternative perspective on an issue fraught with difficulty the enforcement of prenuptial agreements Such agreements are enforced because the law acknowledges the rights of spouses to make autonomous decisions about the division of their property on divorce Yet this book demonstrates that in the attempt to promote autonomy other issues such as imbalance of power between the parties become obscured This book offers an academic and practical analysis of the real impact of prenuptial agreements on the relationships of those involved Using a feminist and contractual theoretical framework it attempts to produce a more nuanced understanding of the autonomy exercised by parties entering into prenuptial agreements This book also draws on an empirical study of the experiences and views of practitioners skilled in the formation and litigation of prenuptial agreements in New York Lastly it explores how the court might address concerns regarding power and autonomy during the drafting and enforcement processes of prenuptial agreements which in turn may enhance the role that prenups can play in the judicial allocation of spousal property on the breakdown of marriage *Child Support* Robert M. Obligations in Roman Law Thomas McGinn, 2013-01-23 Long a major element of classical studies the examination of the laws of the ancient Romans has gained momentum in recent years as interdisciplinary work in legal studies has spread Two resulting issues have arisen on one hand concerning Roman laws as intellectual achievements and historical artifacts and on the other about how we should consequently conceptualize Roman law Drawn from a conference convened by the volume s editor at the American Academy in Rome addressing these concerns and others this volume investigates in detail the Roman law of obligations a subset of private law together with its subordinate fields contracts and delicts torts A centuries old and highly influential discipline Roman law has traditionally been studied in the context of law schools rather than humanities faculties This book opens a window on that world Roman law despite intense interest in the United States and elsewhere in the English speaking world remains largely a continental European enterprise in terms of scholarly publications and access to such publications This volume offers a collection of specialist essays by leading scholars Nikolaus

Benke Cosimo Cascione Maria Floriana Cursi Paul du Plessis Roberto Fiori Dennis Kehoe Carla Masi Doria Ernest Metzger Federico Procchi J Michael Rainer Salvo Randazzo and Bernard Stolte many of whom have not published before in English as well as opening and concluding chapters by editor Thomas A J McGinn **Reimagining the Court of Protection** Jaime Lindsey, 2022-09-15 Combines original empirical data with theoretical and normative analysis of access to justice in the Court of Protection **Feminism Confronts Homo Economicus** Martha Fineman, Terence Dougherty, 2018-08-06 The essays in this volume confront the inroads that economics has made into the legal academy Law and Economics uses principles of neoclassical economics to develop laws and social policies that maintain if not bolster current allocations of power from the Introduction The Law and Economics school has had a significant impact on the legal and governmental landscape in the United States It posits a perfectly rational economic man homo economicus who is unconstrained by familial and communal ties and who can and should make decisions solely in light of considerations of economic value Feminism Confronts Homo Economicus offers a major intervention in debates about how law has come under the influence of economic principles Drawing on the latest thinking in the fields of feminist legal theory critical legal studies and feminist economics the essays critique the notion that legal and policy decisions should be made solely through the lens of economics While the contributors question the wholesale incorporation of the neoclassical economic model into legal analysis they do not all discard economic analysis and theory Situated at the intersection of feminism law and economics Feminism Confronts Homo Economicus will appeal to scholars and students of these disciplines as well as policy analysts and social theorists interested in family education labor and welfare Women and Equality in Iran Leila Alikarami, 2019-05-30 Iran's continued retention of discriminatory laws stands in stark contrast to the advances Iranian women have made in other spheres since the Revolution in 1979 Leila Alikarami here aims to determine the extent to which the actions of women's rights activists have led to a significant change in their legal status She argues that while Iranian women have not yet obtained legal equality the gender bias of the Iranian legal system has been successfully challenged and has lost its legitimacy More pertinently the social context has become more prepared to accommodate legal rights for women Highlighting the key challenges that proponents of gender equality face in the Muslim context Alikarami attempts to ascertain the causes of Iran's failure to ratify the CEDAW and questions whether and to what extent interpretations of Islamic principles prevent Iran from doing so Applying feminist legal theory to contemporary Iran Alikarami's approach re-evaluates the underlying principles that have shaped the struggle for equal rights between the sexes **Textbook On Contract Law Including Specific Relief** Meena R.L., 2008

International Medical Malpractice Law Dieter Giesen, 1988-09 This monograph is the most comprehensive comparative law study of legal responsibility arising from medical care presently available It is written for doctors as well as health care administrators and legal professionals Focusing on the problems of civil liability it presents the development points of contact with and differences between the modern law of medical liability stemming from both the Common Law and

Civil Law traditions of England Scotland Eire New Zealand Australia Canada the United States South Africa France Belgium West Germany Switzerland and Austria It demonstrates the extent to which both problems of medical law and trends towards their solution are already familiar in these legal systems The work describes principles and trends not by confronting the reader with national reports and separate chapters on different legal systems rather the relevant legal problems are analyzed from an integrative comparative viewpoint The main thrust of the presentation is the analysis of numerous court decisions the number of which is rising ominously in the United States on the civil liability of doctors and hospitals for damages arising from substandard treatment or inadequate disclosure of information to the patient References to the legal and medical literature indexes and a refined system of cross references together with an important collection of appendices covering legal and ethical declarations make this work accessible as a handbook and reference work for the legal and social problems encountered today in the wide area of law ethics and medicine *Textbook on Indian Partnership Act with Limited Liability Partnership Act* Dr. Madhusudan Saharay, Paul and the Stories of Israel A. Andrew Das, 2016-06-01 Much recent scholarship on Paul has searched for implicit narratives behind Paul s scriptural allusions especially in the wake of Richard B Hays s groundbreaking work on the apostle s appropriation of Scripture A Andrew Das reviews six proposals for grand thematic narratives behind the logic of Galatians potentially six explanations for the fabric of Paul s theology the covenant N T Wright the influx of nations to Zion Terence Donaldson Isaac s near sacrifice Scott Hahn Alan Segal the Spirit as cloud in the wilderness William Wilder the Exodus James Scott Sylvia Keesmaat and the imperial cult Bruce Winter et al Das weighs each of these proposals exegetically and finds them wanting more examples of what Samuel Sandmel famously labeled parallelomania than of sound exegetical method He turns at last to reflect on the risks of admittedly alluring totalizing methods and lifts up a seventh proposal with greater claim to evidence in the text of Galatians Paul s allusions to Isaiah s servant passages
