Building a Strong Christian Family Foundation Romy Baylon,2003 This generation of parents are better educated and most probably the richest in history but most parents have grown to embrace the fact that the material gain from their labour outweighs everything to the point of setting aside their godly responsibility to their family The sphere of materialism is so strong that they become disillusioned about the importance of moral and spiritual values The original intention of building a strong Christian family foundation becomes secondary Do not ignore the signs of the times the Christian family is in extreme danger of losing its identity We need help The Christian family needs help The book covers those vital elements in building and maintaining a strong Christian family foundation You ll discover how to reinforce relationships by clearly illustrating the complementary roles of each member of the family use your God given responsibility to build a strong foundation for your home on the rock solid wisdom love and understanding promote the total development and preservation of the family identify potential family problems and overcome crisis and learn act and teach family values and create strong Christian legacy Unless we go back to the very foundation of a loving home ruled with wisdom and understanding with Jesus Christ and the center the proliferation of commercialism peer pressure and the obligations imposed by society will press on You need to invest time and do your homework
