**Fathers' Rights Activism and Law Reform in Comparative Perspective** Richard Collier, Sally Sheldon, 2006-10-10 The legal status, responsibilities and rights of men who are fathers married or unmarried cohabiting or separated biological or social in nature is a topic with a long and well documented history. Yet recent developments in a number of countries suggest a growing politicisation of the relationship between law and fatherhood. In some countries an increasingly vocal, visible and well organised fathers rights movement has been credited with influencing perceptions of the politics of family justice. Fathers, it is argued, have become the new victims of family law justice systems that have swung too far in favour of mothers. Armed with such claims, fathers

rights activists have set out to achieve a range of legal reforms most notably in the areas of child support law and contact and residence rights following separation This book presents an attempt to understand these developments Bringing together leading international commentators it provides a careful critical and comparative analysis of the work of fathers rights activists the role law has played in their campaigning their legal strategies their success or otherwise in achieving legal reform similarities and divergences with the women s movement and the relationship between fathers rights movements and the societies that frame them In addition to Collier and Sheldon contributors include Susan B Boyd University of British Columbia Canada Jocelyn Crowley Rutgers University USA Maria Eriksson Goteborg University Sweden Keith Pringle Aalborg University Denmark Helen Rhoades Melbourne University Australia and Carol Smart Manchester University UK

Ghosh, 2018-05-11 The viability of the Uniform Civil Code UCC has always been a bone of contention in socially and politically plural South Asia It is entangled within the polemics of identity politics minority rights women s rights national integration uniform citizenry and of late global Islamic politics and universal human rights While champions of each category view the issue from their own perspectives making the debate extremely complex this book takes up the challenge of providing a holistic political analysis As most of the South Asian states today subscribe to a decentralised view and share a common history this study is an excellent comparative analysis of the applicability of the UCC In this work India figures prominently being the most plural and vibrant democracy as well as accounting for almost three fourths of the region s population This provides the backdrop for an analysis of the other states in the region This second edition will be indispensable for scholars researchers and students of law political science and South Asian Studies

kinship Rising rates of divorce and of alternative modes of partnership have raised questions about the care and well being of children while increasing longevity and mobility together with lower birth rates and changes in our economic circumstances have led to a reconsideration of duties and responsibilities towards the care of elderly people In addition globalisation trends and international flows of migrants and refugees have confronted us with alternative constructions of kinship and with the challenges of maintaining kinship ties transnationally Finally new developments in genetics research and the growing use of assisted reproductive technologies may raise questions about our notions of kinship and of kin rights and responsibilities The book explores these changes from various perspectives and draws on theoretical and empirical data to describe practices of kinship in contemporary Britain
