The Sidney Family Romance Gary Fredric Waller, 1993 William Herbert 1580 1630 third earl of Pembroke and Lady Mary Wroth 1587 1653 were first cousins the nephew and niece of Sir Philip Sidney whose family was one of remarkable literary and political importance Herbert was a poet a voluminous letter writer and one of the Jacobean court s richest and most powerful courtiers and politicians Wroth was arguably the most important woman writer of the period she authored the first Petrarchan poetic sequence the first prose romance and one of the first plays in English by a woman In addition to their connections as cousins and as writers they were lovers and the parents of two illegitimate children The Sidney Family Romance is both a cultural biography and a symptomatic reading of the sexual and textual relationships of Herbert and Wroth Waller s analysis of their letters and literary works relies on a variety of critical apparatuses social history current political and social theories of the Jacobean period and most notably feminist psychoanalytic theory In both his

biographical information and interpretive comments Waller focuses on subject construction and gender construction of the early modern period to find that Herbert's poems proceed from his life at court to engage in the gender politics of Petrarchan poetry while Wroth's work proceeds from her disempowered position to project a desire for an autonomy which would lead to mutuality between the sexes Waller tries to find ways of analyzing the inner lives of his subjects in the absence of direct evidence and with a paucity of documentation He examines historical documents including the writings of the two cousins and recent historical research along with contemporary studies of family interactions and gender construction and detailed case histories drawn from nearly a century of clinical and therapeutic studies The author concludes with a discussion of the crisis of gender in the seventeenth century as a contemporary crisis as well Family history has long been central to Renaissance studies The Sidney Family Romance proceeds far beyond any previous works in bringing to bear the very rich and complicated network of ideas observations and literary images in the works of Herbert and Wroth

date translations by award winning translators Manet and the Family Romance Nancy Locke, 2001 douard Manet's paintings have long been recognized for being visually compelling and uniquely recalcitrant While critics have noted the presence of family members and intimates in paintings such as *Le Djeuner sur l herbe* Nancy Locke takes an unprecedented look at the significance of the artist's family relationships for his art Locke argues that a kind of mythology of the family or Freudian family romance frequently structures Manet's compositional decisions and choice of models By looking at the representation of the family as a volatile mechanism for the development of sexuality and of repression conflict and desire Locke brings powerful new interpretations to some of Manet's most complex works Locke considers for example the impact of a father son drama rooted in a closely guarded family secret the adultery of Manet's pre and the status of Léon Leenhoff Her nuanced exploration of the implications of this story that Manet in fact married his father's mistress makes us look afresh at even well known paintings such as *Olympia* This book sheds new light on Manet's infamous interest in gypsies street musicians and itinerants as Locke analyzes the activities of Manet's father as a civil judge She also reexamines the close friendship between Manet and the Impressionist painter Berthe Morisot who married Manet's brother Morisot becomes the subject of a series of meditations on the elusiveness of the self the transience of identity and conflicting concerns with appearances and respectability Manet and the Family Romance offers an entirely new set of arguments about the cultural forces that shaped these alluring paintings Borderwork Margaret R. Higonnet, 1994 The first book to assess the impact of feminist criticism on comparative literature Borderwork recharts the intellectual and institutional boundaries on that discipline and calls for the contextualization of the study of comparative literature within the areas of discourse culture ideology race and gender The Novels of Charles Lever: The Dodd family abroad Charles Lever, 1898 Everybody's Family Romance Gillian Harkins, 2009 In the 1990s a boom in autobiographical novels and memoirs about incest emerged making incest one of the hottest topics to connect daytime TV talk shows the self help industry and the literary publishing circuit In *Everybody's Family Romance* Gillian Harkins places this proliferation of incest literature at the center of transformations in the political and economic climate of the late twentieth century Harkins's interdisciplinary approach reveals how women's narratives about incest were co opted by and yet retained resistant strains against the cultural logics of the neoliberal state Across chapters examining legal cases on recovered memory popular journalism and novels and memoirs by Dorothy Allison Carolivia Herron Kathryn Harrison and Sapphire Harkins demonstrates that incest narratives look backward into the past In these accounts images of incest forge links between U S chattel slavery and the distributive impasses of the welfare state and between decades distant childhoods and emergent memories of the present In contrast to recent claims that incest narratives eclipse broader frameworks of political and economic power Harkins argues that their emergence exposes changing structural relations between the family and the nation and in doing so transforms the analyses of American familial sexual violence Family Romances Kathryn J.
