Family Variables Conceptualization Measurement And Use New Perspectives On The Family:

Family Variables Thomas W. Draper, Anastasios C. Marcos, 1990 Attempting to make some sense out of the key constructs in the family field distinguished contributors provide a variety of perspectives on the identification conceptualization measurement and testing of family variables Conceptual issues the application of familiar techniques and new and experimental methods used in this area are addressed The Transition to Adulthood and Family Relations Eugenia Scabini, Elena Marta, Margherita Lanz, 2007-03-12 This book explores the development of a new path of transition between adolescence and adulthood in recent generations Whereas traditionally the transition into adulthood was marked by a clear and irreversible change in condition we are now seeing a continuance in the role and influence of the family on the young adult What consequences does this have for our society Is the persistence of emotional bonds which previously loosened during adolescence inhibiting young people from developing into full adulthood The authors present a clear and in depth analysis of the theoretical framework surrounding the transition into adulthood both from a generational point of view and a relationship centred perspective The findings of international research are presented and compared across generations gender and geographical location within Europe The different research methods of family related research and family research are also distinguished and analysed This volume offers an original and multi faceted review of this topic The family is considered as an organization and the interdependencies and interconnections between its members the generations and genders investigated It offers a unique contribution to the current literature and will appeal to an international audience of researchers policy makers and educators both in academic and professional spheres **Family Variables** Thomas W.
