Wong, 2007-02-15 Has the developing world developed modern concepts of stress Are coping methods the same around the globe Such questions are not simple to answer and until recently few knew to ask them In recent years Western psychologists have recognized that their prevailing views of psychology do not always translate worldwide and that no culture has a monopoly on either stress or coping The Handbook of Multicultural Perspectives on Stress and Coping was created to address this realization This unique volume moves beyond simple comparisons of behaviors in other countries by clarifying critical concepts in stress and coping analyzing and synthesizing vast amounts of global data and identifying constructs and methodologies necessary for meaningful cross cultural research An international multiethnic panel of forty five contributors presents elegant studies of stress survival and resilience as cultures evolve and countries interact including Personal transformation as a coping strategy Psychological skills that enhance intercultural adjustment Individual versus collectivist values in coping Buddhist and Taoist traditions in coping The cumulative effects of historical environmental and political stressors on nations in the Middle East Specific cross cultural perspectives from Latino American families to Canadian aboriginal peoples to minority university students The editors have assembled a vital store of knowledge raising crucial implications for clinicians working with immigrant international populations and evaluating the current state of theory research and assessment The Handbook documents major steps toward scientific advancement and human understanding

No More Secrets Janice Ristock, 2012-09-10 Violence is a male biological trait When women fight no one gets seriously hurt Lesbians don't abuse their spouses The truth revealed in Janice Ristock's groundbreaking book is that lesbian relationships sometimes do turn violent Based on interviews with more than one hundred lesbians who have suffered abuse and seventy five case workers No More Secrets is the first in depth account of this startling phenomenon Although one in four gay and lesbian couples are affected by domestic violence the problem has remained hidden for several reasons By giving voice to the victims Ristock helps women to address violence by breaking silences sharing secrets and naming the forms of abuse

Perspectives on Verbal and Psychological Abuse Roland D. Maiuro, 2015-11-30 There are dozens of ways to be emotionally abusive unwarranted criticism sighs a condescending tone of voice disgusted looks and the cold

shoulder to name a few In some respects emotional abuse is more devastating than physical abuse because victims are more likely to blame themselves While a substantial amount of research has focused on physical forms of domestic violence there has been little information available about more subtle forms of violence such as psychological emotional and verbal abuse This book a collection of acclaimed articles from the peer reviewed journal *Violence and Victims* addresses how psychological aggression can be reliably measured as well as the challenges inherent in alleging or proving that these non physical violent acts have occurred Authors experts on these forms of abuse from a variety of social science disciplines present research related to perpetrators of psychological and verbal abuse victims of this abuse and effective interventions Articles examine the complexity and severity of psychological abuse and focus on the fact that psychological abuse almost always precedes physical abuse underscoring the importance of early intervention They explore the role of gender and socioeconomic status in psychological abuse and discuss the primary personality characteristics of perpetrators Links between abuse and poor birth outcomes are examined as is dating violence and emotional abuse in the workplace This collection of distinguished articles contributes greatly to our understanding of an insidious form of violence verbal and psychological abuse that can be extremely destructive and is experienced in some form by nearly half the population Key Features Delivers top tier research articles by interdisciplinary experts on psychological and verbal abuse Explores the challenges of alleging and proving that these non physical violent acts have occurred Covers aggression in intimate relationships and in the workplace Presents effective interventions

Violence Against Women Joan Nordquist,1992 **Sourcebook on Violence Against Women** Claire M. Renzetti,Jeffrey L. Edleson,Raquel Kennedy Bergen,2011 Jonathan Letterman was an outpost medical officer serving in Indian country in the years before the Civil War responsible for the care of just hundreds of men But when he was appointed the chief medical officer for the Army of the Potomac he revolutionized combat medicine over the course of four major battles Antietam Fredericksburg Chancellorsville and Gettysburg that produced unprecedented numbers of casualties He made battlefield survival possible by creating the first organized ambulance corps and a more effective field hospital system He imposed medical professionalism on a chaotic battlefield Where before 20 percent of the men were unfit to fight because of disease squalid conditions and poor nutrition he improved health and combat readiness by pioneering hygiene and diet standards Based on original research and with stirring accounts of battle and the struggle to invent and supply adequate care during impossible conditions this new biography recounts Letterman s life from his small town Pennsylvania beginnings to his trailblazing wartime years and his subsequent life as a wildcatter and the medical examiner of San Francisco At last here is the missing portrait of a key figure of Civil War history and military medicine His principles of battlefield care continue to be taught to military commanders and first responders *Freedom from Violence* Margaret Schuler,1992

Family Crimes Against the Elderly Patricia J. Brownell,2014-01-14 First Published in 1999 *Family Crimes Against the Elderly* A Study of Elder Abuse and the New York Police Department represents an important contribution to the available

knowledge on elder abuse as a criminal justice issue While most studies of elder abuse to date have examined this social problem from a health mental health or social service perspective few have focused on it from the perspective of law enforcement *Encyclopedia of Legal Information Sources* Brian L. Baker,Patrick J. Petit,1993 Over 19 000 live print and electronic information sources for 460 legal topics are quickly accessible in this guide to the US legal system The work is arranged alphabetically by subject from actions and defences to noteworthy trials and users can see at a glance what printed materials are available what organizations are active in that subject and whether any databases or other electronic information sources are available **Current Catalog** National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 **Understanding Child Sexual Abuse** A. Jones,2013-01-29 This book is the first comprehensive study of child sexual abuse in the Caribbean exploring issues such as the ontology of childhood links between slavery colonialism and present day gender based violence the impact of child sexual abuse on the brain and child protection after natural disasters **Battering States** Madelaine Adelman,2017-03-28 Battering States explores the most personal part of people s lives as they intersect with a uniquely complex state system The book examines how statecraft shapes domestic violence how a state defines itself and determines what counts as a family how a state establishes sovereignty and defends its borders and how a state organizes its legal system and forges its economy The ethnography includes stories from people places and perspectives not commonly incorporated in domestic violence studies and in doing so reveals the transformation of intimate partner violence from a predictable form of marital trouble to a publicly recognized social problem The politics of domestic violence create novel entry points to understanding how although women may be vulnerable to gender based violence they do not necessarily share the same kind of belonging to the state This means that markers of identity and power such as gender nationality ethnicity religion and religiosity and socio economic and geographic location matter when it comes to safety and pathways to justice The study centers on Israel where a number of factors bring connections between the cultural politics of the state and domestic violence into stark relief the presence of a contentious multinational and multiethnic population competing and overlapping sets of religious and civil laws a growing gap between the wealthy and the poor and the dominant presence of a security state in people s everyday lives The exact combination of these factors is unique to Israel but they are typical of states with a diverse population in a time of globalization In this way the example of Israel offers insights wherever the political and personal impinge on one another *Lethal Violence* Harold V. Hall,2024-11-01 Lethal Violence A Sourcebook on Fatal Domestic Acquaintance and Stranger Aggression applies the lethal violence sequence analysis to a wide ranging array of fatal aggression resulting in a multitude of observations and principles of violence This sourcebook provides base rate information and cases for each type of fatal interaction then applies the knowledge to violence related situations and settings
