Image of Migrants and Refugees in Sweden in 2015 and the Following Years as Emerging from the Opinions of Political Elites and the Media Discourse

Obraz migrantów i uchodźców w Szwecji w 2015 roku (i w latach następnych) w opiniach elit politycznych i w dyskursie medialnym

• Abstract •

The basis for the current analysis and the case-study method applied herein is provided by press reports, scholarly articles and books, both in the paper and online forms, containing the positions and statements by politicians from Sweden and elsewhere, the media community, public service officials, as well as average residents of Sweden who had encountered problems that resulted from the 2015 refugee crisis and the uncontrolled influx of migrants and refugees, especially those hailing from the Islamic world. Some of the research questions posed by the author are which Swedish political forces and circles supported this influx and which were against it, and how this was reflected in the political and media discourse. Other research questions concern the attitudes towards refugees and migrants presented by the country's native residents and by persons of other origins who have lived there for a long time, as well as the factors influencing the media portrayal and the existing evaluation of events, in relation to the escalation of violence that occurred in some Swedish cities in the years 2016 and 2017. Kolejne zagadnienie, które porusza autor, to czynniki mające wpływ na obraz medialny i zaistniałą ocenę wydarzeń w związku z eskalacją przemocy w latach 2016–2017 w niektórych miastach Szwecji. Ta

The Comparative Study of Political Elites Robert D. Putnam,1976 **Political Leadership in Sierra Leone** John R. Cartwright,1978-12-15 In an age when men have come to believe that their destinies can be determined by human actions rather than by fate the question looms large of what a leader can do to fulfill the aspirations of those looking for guidance Since the political arena is one involving the use of power the position of the political leader in particular has become the focus for men s hopes and fears This book is a case study of the effect that different forms of political leadership can have upon the shaping of a single state It focuses upon two successive Prime Ministers of the Small West African state of Sierra Leone Sir Milton Margai and his younger brother Sir Albert Margai By examining their dealings with local political units their handling of ethnic and regional conflicts their attitude of change and their relations with major economic forces the author assesses why both leaders had such different measures of success with their divergent political policies The major findings of this study are that the method that a leader chooses to accomplish his goals can be important to their realisation as the choice of goals themselves and that a leader may find himself committed to a particular course through simply pursuing a line of least resistance

Emerging Pattern of Political Leadership Ashok Kumar Gupta,1991-01-01 **Politics, Personality, and Social Science in the Twentieth Century** Harold Dwight Lasswell,1969-08-15 Harold Lasswell is one of America s most distinguished political scientists a man whose work has had enormous impact both in the United States and abroad upon not only his own field but also those of sociology psychology and psychiatry economics law anthropology and communications This collection of essays is the first full scale effort to deal with the voluminous writings of Lasswell and explore his at once charming and baffling personality which is perhaps inseparable from the inventiveness unconventionality and unusual scope of his work The authors of these essays many of whom are former students or collaborators view their subject from a variety of perspectives What emerges is a full assessment of Lasswell s many faceted contribution to the social scholarship of his time *Politics in War* Allan E. Goodman,1973 Internal war does not create politics or processes of government This is likely to be the most tragic aspect of the war in Vietnam When the guns are silent the political analyst will

find essentially the same political forces and governmental institutions intact as when the conflict began Politics in War deals mainly with the years 1967-1970 but bears on the problems South Vietnam faces now that American forces are no longer active The book provides an understanding of Vietnamese politics the forces underlying it and the bases upon which political community and a future political settlement might be achieved Mr Goodman has based his analysis on first hand research He conducted over 300 interviews with Vietnamese political leaders and government officials His field work in South Vietnam encompassed three years and he presents materials from such sources as South Vietnam's National Assembly its Ministry of Interior and the U S Department of State's Vietnam Working Group Politics in War presents the untold story of how the Vietnamese saw the period of deepest American involvement Goodman supplies background material on the Thieu government its motivations and its response to the people Students of politics who have been concerned about what the Vietnam involvement meant to America can now better assess what the last decade has meant to the Vietnamese

A History of Underdevelopment and Political Economy of Inflation in Sri Lanka Dhanusha Gihan Pathirana, Chandana Aluthge, 2020-07-24 The book provides a new conceptualisation of inflation in underdeveloped economies through Sri Lanka's historical experience It outlines a general theory of nationalisms in their diverse manifestations across the world within a historical perspective of capitalist development and underdevelopment The book therefore seeks to capture the production mode holistically within both its infrastructural and superstructural levels probing their interactions The theoretical structure through which inflation is analysed synthesises the theory of

unproductive labour and Marxian theory of prices of production with labour surplus theory of late Dr S B D De Silva in the context of underdevelopment In this light Professor David Laibman's Allocation Problem is resolved within a Marxist framework to provide an operational significance to the theory and its application In the same vein the book also provides a new theoretical interpretation of Sri Lanka's historical development from the British period onwards through application of theories of capitalist development and surplus labour
