Leavy investigates the social and market forces that have shaped the meanings around and enduring significance of events that have captured the public's imagination, including Titanic, Pearl Harbor, Columbine, and September 11th. *Iconic Events* focuses on three interpretive phases that serve to mold public perception of these events: journalistic representations, political appropriations, and popular adaptations. With a vital, engaging approach, Leavy explores the processes by which traumatic events are made mythic in the public eye. *Iconic Events* is essential for collective memory scholars and undergraduate courses in communications, American studies, history, and sociology, as well as the general reader. **Ships Monthly**, 2005 Ten Pound Poms A. James Hammerton, Alistair Thomson, 2005-08-06. More than a million Britons emigrated to Australia between the 1940s and 1970s. They were the famous ten pound Poms, and this is their story. Illuminated by the fascinating testimony of migrant life histories, this is the first substantial history of their experience and fills a gaping hole in the literature of emigration. The authors, both leading figures in the fields of oral history and migration studies, draw upon a rich life history archive of letters, diaries, personal photographs, and hundreds of oral history interviews with former migrants, including those who settled in Australia and those who returned to Britain. *SS Nieuw Amsterdam* William H. Miller, 2010-03-15. The story in words and pictures of Holland America Line's Art Deco masterpiece. **Unsw Press** Charlotte Jarabak, 2002. Australian National Bibliography: 1992 National Library of Australia, 1988. *Transports of Delight* Peter Hancock, 2017-05-11. This inspiring book shows how the spiritual side of life, with its thoughts, feelings, and aspirations, is intimately bound up with our material technologies. From the wonder of Gothic Cathedrals to the quiet majesty of lighter-than-air flight to the ultimate in luxury of the north Atlantic steamers, Peter Hancock explores how these sequential heights of technology have enabled our dreams of being transported to new and uncharted realms to become reality. Sometimes literally, sometimes figuratively, technology has always been there to make material the visions of our imagination. This book shows how this has essentially been true for all technologies, from Stonehenge to space station. But technology is far from perfect. Indeed, the author argues here that some of the most public and tragic of its failures still remain instructive, emblematic, and even inspiring. He reports on examples such as a Cathedral of

the Earth Beauvais a Cathedral of the Seas Titanic and a Cathedral of the Air Hindenburg and tells their stories from the viewpoint of material transcendence By interweaving their stories he reveals how technologies can succeed in elevating human beings and in taking them to whole new realms of being he explores and explains why these experiences are

Nicholson, 1990 *Along the Hudson* William H. Miller, 2012-07-15 The glamour age of ocean liner travel was the 1950s Nothing could compete with the ocean liner and huge profits were made by the shipping lines William H Miller tells the story of Luxury Liner Row in this Golden Age **Ocean Liners** Anthony Burton, 2024-07-30 There has always been a romance around ocean liners but this book looks behind the romance to show the reality of travelling the oceans of the world The book starts with the first scheduled transatlantic crossings in the age of sail then moves on through the development of the steamers and ends in the present day when ocean liners have given way to airliners All aspects of the subject are discussed The experience of travelling by sea varied enormously from the luxury of first class travel to the often brutal conditions endured by immigrants Ship design developed in the race between competing companies to provide the most powerful ships

But while technology came into the fundamental design when it came to decor for many of the great liners the interiors looked back with a romanticised view of the past It is not always realised that a great liner might have almost as many crew as passengers and this looks at all those who kept the ships running from the black gang in the engine room to the captain on the bridge The result is a rounded view of what it meant to travel on some of the greatest ships ever built *Designing Liners* Anne Massey, 2020-11-29 *Designing Liners A History of Interior Design Afloat* covers the interior design of these floating palaces from the mid nineteenth century to the twenty first century In this new edition the design heritage of the ocean liner is also explored in this age of a growing holiday cruise market The book offers the first history and analysis of this highly significant aspect of the design of interiors which mirrors and reinforces cultural assumptions about national identity gender class and ethnicity The interiors of ocean liners reflect the changing hierarchies of society and shifting patterns of globalization The trajectory of the professionalization of interior design is the connecting narrative of the book from the local decorating firm to the internationally renowned architect It is an important addition to interior design research and takes this transitory building type as its subject This book provides the first survey of the transient history of interior design in relation to the development of passenger shipping The history of these great ship interiors is tracked from their commissioning by the line owners the materials methods and sources for the initial creation their construction their use and their reception The demise and re purposing of the interiors is also covered in this new edition with additional material on the South African Union Castle and P O Lines Drawing on a broad range of original research Anne Massey s approach combines interior design studies design history architectural history and maritime studies The new edition has been carefully designed to include black and white and colour illustrations
