Aristotle and Xunzi on Shame, Moral Education, and the Good Life Jingyi Jenny Zhao, 2024 Despite recent developments in the history of emotions and in comparative studies sustained cross cultural comparative studies of the emotions remain few and far between Jingyi Jenny Zhao has produced the first major work that takes two philosophers from the ancient Greek and early Chinese traditions to stimulate discussion of an interdisciplinary nature on the rich and complex topic of the emotions in particular of shame It features comparative analysis of Greek and Chinese texts while bringing the ancient materials to bear on modern controversies such as the role of shame in moral education and social cohesion Although unlike in their social historical and intellectual backgrounds Aristotle and Xunzi bear striking similarities in several respects they both conceptualize humans as essentially members of communities as having a unique set of characteristics that set them apart from other living things and as beings in need of moral training to fulfil their potential and become integrated into a well ordered society The two philosophers discourses on shame reveal important insights into their ideals of human nature moral education and the good life This book tackles directly the methodological problems that are relevant to anyone interested in cross cultural comparisons and organizes discussions of the ancient sources to facilitate a thorough integration

of perspectives from the cultural traditions concerned This approach provides sufficient focus to allow for detailed textual analysis while giving scope for making constant connections to the broader comparative questions at issue **The Moral and Religious Thought of Yi Hwang (Toegye)** Edward Y. J. Chung, 2021-10-31 This book presents Yi Hwang 1501-1570 better known by his pen name Toegye Korea's most eminent Confucian philosopher It is a pioneering study of Toegye's moral and religious thought that discusses his holistic ideas and experiences as a scholar thinker and spiritual practitioner This study includes Toegye's major texts essays letters and biographies Edward Chung explains key concepts original quotations annotated notes and thought provoking comments to bring this monumental thinker and his work to life Chung also considers comparative and interreligious perspectives and their contemporary relevance By offering groundbreaking insights into Neo Confucianism this book sheds fresh light on the breadth and depth of Toegye's ethics and spirituality and is an important source for scholars and students in Korean and Confucian studies and comparative philosophy and religion ***The Self-Conscious Emotions*** Jessica L. Tracy, Richard W. Robins, June Price Tangney, 2013-11-27 Timely and authoritative this volume reviews the breadth of current knowledge on the self-conscious emotions and their role in psychological and social functioning Leading investigators approach the subject from multiple levels of analysis ranging from basic brain mechanisms to complex social processes Chapters present compelling advances in research on the most fundamental self-conscious emotions embarrassment guilt humiliation pride and shame Addressed are neural and evolutionary mechanisms developmental processes cultural differences and similarities and influences on a wide array of social behaviors and personality processes A unique chapter on assessment describes and evaluates the full range of available measures **The End of Morality** Richard Garner, Richard Joyce, 2018-12-18 According to the moral error theorist all moral judgments are mistaken The world just doesn't contain the properties and relations necessary for these judgments to be true But what should we actually do if we decided that we are in this radical and unsettling predicament that morality is just a widespread and heartfelt illusion One suggestion is to eliminate all talk and thought of morality abolitionism Another is to carry on believing it anyway conservatism And yet another is to treat morality as a kind of convenient fiction fictionalism We tend to think of moral thinking as valuable and useful e.g. for motivating cooperative behavior but we can also recognize that it can be harmful e.g. hindering compromise and even disastrous e.g. inspiring support for militaristic propaganda Would we be better off or worse off if we stopped basing decisions on moral considerations This is a collection of twelve brand new chapters focused on a critical examination of the options available to the moral error theorist After a general introduction outlining the topic explaining key terminology and offering suggestions for further reading the chapters address questions like Is it true that the more that people are motivated by moral concerns the more likely it is that society will be elitist authoritarian and dishonest Is an appeal to moral values a useful tool for helping resolve conflicts or does it actually exacerbate conflicts Would it even be possible to abolish morality from our thinking If we were to accept a moral error theory

would it be feasible to carry on believing in morality in everyday contexts Might moral discourse be usefully modeled on familiar metaphorical language where we can convey useful and important truths by uttering falsehoods Does moral thinking support or undermine a commitment to feminist goals What role do moral judgments play in addressing important decisions affecting climate change The End of Morality Taking Moral Abolitionism Seriously is the first book to thoroughly address these and other questions systematically investigating the harms and benefits of moral thought and considering what the world might be like without morality

Rereading the Stone Anthony C. Yu,2018-06-05

The eighteenth century Honglouloumeng known in English as Dream of the Red Chamber or The Story of the Stone is generally considered to be the greatest of Chinese novels one that masterfully blends realism and romance psychological motivation and fate daily life and mythical occurrences as it narrates the decline of a powerful Chinese family In this path breaking study Anthony Yu goes beyond the customary view of Honglouloumeng as a vivid reflection of late imperial Chinese culture by examining the novel as a story about fictive representation Through a maze of literary devices the novel challenges the authority of history as well as referential biases in reading At the heart of Honglouloumeng Yu argues is the narration of desire Desire appears in this tale as the defining trait and problem of human beings and at the same time shapes the novel s literary invention and effect According to Yu this focalizing treatment of desire may well be Honglouloumeng s most distinctive accomplishment Through close readings of selected episodes Yu analyzes principal motifs of the narrative such as dream mirror literature religious enlightenment and rhetorical reflexivity in relation to fictive representation He contextualizes his discussions with a comprehensive genealogy of qing desire disposition sentiment feeling a concept of fundamental importance in historical

Chinese culture and shows how the text ingeniously exploits its multiple meanings Spanning a wide range of comparative literary sources Yu creates a new conceptual framework in which to reevaluate this masterpiece Handbook of Emotions Lisa Feldman Barrett, Michael Lewis, Jeannette M. Confucian Pragmatism as the Art of Contextualizing Personal Experience and World Haiming Wen, 2009-04-16 This engaging work of comparative philosophy brings together American pragmatism and Chinese philosophy in a way that generates new interpretations of Chinese philosophy and a fresh perspective on issues in process philosophy Through an analysis of key terms Haiming Wen argues that Chinese philosophical terminology is not simply a retrospective language that through a process of stipulation promises us knowledge of an existing world but is also an open prospective vocabulary that through productive associations allows philosophers to realize a desired world Relying on this productive power of Chinese terminology Wen introduces a

new term Confucian pragmatism Wen convincingly shows that although there is much that distinguishes American pragmatism from Confucian philosophy there is enough conceptual overlap to make Confucian pragmatism a viable and exciting field of study *Zhuangzi's Critique of the Confucians* Kim-chong Chong, 2016-10-24 The Daoist Zhuangzi has often been read as a mystical philosopher But there is another tradition beginning with the Han dynasty historian Sima Qian which sees him as a critic of the Confucians Kim chong Chong analyzes the Inner Chapters of the Zhuangzi demonstrating how Zhuangzi criticized the pre Qin Confucians through metaphorical inversion and parody This is indicated by the subtitle *Blinded by the Human* which is an inversion of the Confucian philosopher Xunzi's remark that Zhuangzi was blinded by heaven and did not know the human Chong compares Zhuangzi's Daoist thought to Confucianism as exemplified by Confucius Mencius and Xunzi By analyzing and comparing the different implications of concepts such as heaven heart mind and transformation Chong shows how Zhuangzi can be said to provide the resources for a more pluralistic and liberal philosophy than the Confucians *Language and Emotion.
